During the war the Office of Civilian Defense loaned to the several States and to their political subdivisions certain items of property for purposes of air raid protection. A large amount of this property remains in the custody of the States and the political subdivisions to which it was loaned, and it will entail heavy expense to the Government to require the preparation of inventories and reports and to offer this property to Government agencies and State and local governments in accordance with this part.

The Department of Commerce, as disposal agency, has applied to the Surplus Property Board for an exemption from the requirements of this part for this property on the ground that it is impracticable and uneconomical to require its disposal of this property according to such requirements. The Department of Commerce believes the quantities of this property are clearly in excess of the needs of Government agencies.

Pursuant to § 8302.5 (b) (4) and in reliance upon the findings of the Department of Commerce referred to above, *It is hereby ordered*, That:

The Department of Commerce, as disposal agency, is hereby authorized to dispose of without regard for the provisions of this part to the States and their political subdivisions any items of property originally loaned by the Office of Civilian Defense to such States or political subdivisions.

This order shall become effective September 7, 1945.

By W. STUART SYMINGTON,
Chairman.

TITLE 36—PARKS AND FORESTS

Chapter II—Forest Service

PART 251—LAND USES

PERMITS FOR ROADS AND TRAILS

By virtue of the authority vested in the Secretary of Agriculture by the act of June 4, 1897 (30 Stat. 35, 16 U.S.C. 551), and the act of February 1, 1905 (33 Stat. 628, 16 U.S.C. 472), Regulation U-14 of the rules and regulations governing the occupancy, use, protection and administration of the national forests, which constitutes § 251.5, Part 251, Chapter II, Title 36, Code of Federal Regulations, is amended to read as follows:

§ 251.5 *Permits for roads and trails.* Rights-of-way over national forest land for State or county highways or roads which are a part of an approved system of public roads shall be 132 feet in width in the case of Federal Aid and State highways and 66 feet in width in the case of county and community roads or other roads of a secondary character. The center line of the highway or road shall be the center line of the right-of-way except where otherwise provided by the permit. Rights-of-way in excess of 132 feet in width may be authorized only with the specific approval of the regional forester. National forest lands on which a highway or road right-of-way is located shall continue to be administered by the Forest Service but their use for highway or road purposes shall be dominant, and no use or occupancy thereof for other purposes shall be authorized unless concurred in by the appropriate State or county official, except that in the event agreement cannot be reached regarding such other use or occupancy as is essential to the proper use and management of national forests, the matter shall be submitted to the Secretary of Agriculture for decision. Direction and caution signs shall be erected and maintained by the State or county highway department. Information signs shall be approved by the Forest Service prior to erection.

Approval by the Secretary of Agriculture of a forest highway construction program shall constitute authorization for the occupancy of national forest lands for the highways included in such construction program, but where a special use permit for a project included within a forest highway program is desired by a State or county to meet legal or fiscal requirements, or for the execution of road contracts, a permit shall be issued by the regional forester and shall contain such stipulations as may be necessary to protect national forest interests.

Except as provided in the preceding paragraph, no highway or road shall be constructed on national forest land unless or until the occupancy of said land for highway or road purposes shall have been authorized by permit. Application for permit to construct a highway or road shall be filed with the forest supervisor and shall be accompanied by a plat showing the precise location of the proposed highway or road. The forest supervisor shall then determine the effect of the proposed highway or road on the national forest and the changes in location or other features that may be necessary to safeguard the national forest, recording his findings in appropriate form and manner. Permits for State and county highways or roads of similar importance shall be issued by the regional forester. Forest supervisors may be authorized by the regional forester to issue permits for roads of lesser importance within such limitations as the regional forester may prescribe.

Trails may be constructed without permit upon consent and under the supervision of a forest officer, except that in the national forests in Alaska such consent and supervision will not be required.

No toll shall be charged for the use of roads or trails over national forest lands, and they shall be open to free public use unless otherwise authorized by the Chief of the Forest Service. Roads built at private expense may be temporarily closed to public use by order of the regional forester, if their unrestricted use endangers public safety and property or interferes with the primary purpose for which they were built.

Roads across national forest lands which are not parts of State or county highway systems and which are constructed and maintained wholly at the expense of the Federal Government and its private cooperators may be designated by the regional forester as "special service" roads, and public use of such roads may be prohibited or regulated by the regional forester when necessary to the public interest.

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed, in the City of Washington, this 10th day of September, 1945.

[SEAL] J. B. HUTSON,
Acting Secretary of Agriculture.

FEDERAL POWER COMMISSION.

[Docket No. G-658]

CONSOLIDATED GAS UTILITIES CORP.

NOTICE OF APPLICATION

SEPTEMBER 10, 1945.

Notice is hereby given that on August 31, 1945, an application was filed with the Federal Power Commission by Consolidated Gas Utilities Corporation ("Applicant"), a Delaware corporation with its principal place of business at Oklahoma City, Oklahoma, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct, drill and operate certain facilities, hereinafter more particularly described.

Applicant owns and operates certain natural-gas pipeline systems in Texas, Oklahoma and Kansas, including a natural-gas pipeline system extending from Humboldt, Kansas, to Sycamore, Kansas, from which Applicant delivers natural gas for distribution in the municipalities of Chanute, Neodesha and Humboldt and to certain industrial customers. The natural gas so delivered consists, in part, of gas which originates in Kansas and, in part, of gas which originates in Texas and Oklahoma, whence it is transported by Cities Service Gas Company which sells the same to Applicant at a point of connection in Wilson County, Kansas, with Applicant's Humboldt-Sycamore system.

The facilities which Applicant seeks authorization to construct, drill and operate are the following:

(1) A maximum of approximately 9 injection and withdrawal wells to a depth of approximately 950 feet, for the development and operation of an underground gas storage reservoir, referred to as "Sutcliffe Storage," covering an area of approximately 1,200 acres in Wilson and Neosho Counties, Kansas, adjacent to Applicant's 8-inch gas transmission pipeline in its Humboldt-Sycamore system;

(2) A 6⅝-inch O. D. steel pipeline, approximately 1,900 feet in length, commencing at Applicant's said 8-inch transmission line near the southwest corner of the northwest quarter of Section 23, Township 28 South, Range 17 East, Neosho County, Kansas, and extending in a southeasterly direction to a central point in the area of the underground gas storage reservoir, to be used to transport gas to and from such reservoir; and approximately 1,500 feet of 4½-inch O. D. steel pipe, to connect the injection and withdrawal wells with the aforementioned 6⅝-inch pipeline;

(3) 2 orifice meter stations and 2 regulator stations, to be used respectively to measure gas injected and withdrawn from the reservoir and to control pressures at which gas will be delivered therefrom; and appurtenant equipment.

The application recites that the aforementioned storage project is needed to provide an additional supply of gas on its Humboldt, Kansas, to Sycamore, Kansas, pipeline system during periods of peak demand; that the gas to be injected into the "Sutcliffe Storage" will be obtained from numerous small gas wells connected to said system and from Cities Service Gas Company; that the capacity of the "Sutcliffe Storage" when restored to the original pressure of 300 pounds will be 200,000 Mcf; that the maximum capacity of the above-described facilities which Applicant proposes to construct will be approximately 4,000 Mcf of gas per day; that the estimated maximum quantity of gas which will be delivered through such facilities on the peak day of any year will be 3,000 Mcf; and that the minimum daily quantity of gas which will be delivered through such facilities will be approximately 500 Mcf.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 25th day of September, 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

Secretary.

[Docket No. G-660]

TENNESSEE GAS AND TRANSMISSION CO.

NOTICE OF APPLICATION

SEPTEMBER 8, 1945.

Notice is hereby given that on September 5, 1945, Tennessee Gas and Transmission Company (Applicant), a Tennessee Corporation, having its principal place of business at Houston, Texas, filed with the Federal Power Commission an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of approximately 95 miles of 16-inch O. D. pipeline, extending from the San Salvador field in Hidalgo County, Texas, in a general northeasterly direction to a point of connection with Applicant's main transmission pipeline in Nueces County, Texas, together with a dehydration plant to be operated in connection therewith.

The application recites that the proposed pipeline known as the "San Salvador Project" was previously considered by the Commission in an application filed by Applicant in Docket No. G-621, the Commission, by its order of June 8, 1945, dismissing without prejudice the application for authority to construct and operate the facilities involved in that project, such facilities being the subject of the present application.

It is asserted that when the Commission considered this matter previously, Applicant contemplated that the proposed pipeline would be operated at a small percent of its capacity. However, Applicant states that it is now in a position to operate such pipeline at its full capacity.

The estimated capacity of the proposed pipeline is approximately 99.4 million cubic feet per day at a pressure base of 15,025 pounds. The maximum operating pressure is 1,012 p. s. i. gauge. The proposed dehydration plant will be operated so that it will be capable of dehydrating the capacity of the proposed pipeline.

Regarding the gas supply for the proposed facilities, applicant recites that it has contractual arrangements with the Gulf States Oil Company whereby the latter will sell natural gas received from the San Salvador Field to applicant. It is also claimed that gas reserves are also available along the proposed facilities from The Chicago Corporation or its nominees in the Los Indios, La Reforma and Seeligson fields. Applicant is also negotiating with Magnolia Petroleum Company, Transwestern Oil Company, Sinclair-Prairie Oil Company and other operators in the Seeligson field for the purchase of a minimum of 20,000 Mcf per day of casinghead gas which is presently being vented to the air for lack of a market. Applicant claims that it may be possible to purchase vent gas from other fields such as La Gloria, Tijerina and Canales fields.

The estimated over-all capital cost of the proposed facilities is $2,260,442.00. Applicant proposes to submit a plan of financing such facilities as well as a firm commitment from responsible sources for such financing.

According to the application, it is urged that the construction and operation of the proposed facilities is necessary in order to prevent interruptions of service due to restrictive orders of the Railroad Commission of Texas which have been issued affecting Applicant's present sources of gas supply.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 26th day of September, 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

Secretary.

SUPPLEMENTAL ORDER PERMITTING DECLARATIONS AND APPLICATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 6th day of September, A. D. 1945.

Western Light & Telephone Company (Western), a registered holding company, and The Kansas Power Company (Kansas), a subsidiary of Western, having filed joint declarations and applications and amendments thereto pursuant to sections 6, 7, 9 (a), 10, 12 (c), 12 (e) and 12 (f) of the Public Utility Holding Company Act of 1935 and Rules U-50 and U-62 thereunder regarding, among other things, the merger of Western and Kansas and the issuance and sale by Western Light & Telephone Company, Inc. (Western, Inc.), the surviving company, at competitive bidding of $6,200,000 principal amount of Series A First Mortgage Bonds due 30 years after the issuance thereof and the application of the net proceeds from the sale of said bonds to retire Western's First Mortgage and Collateral Bonds and Kansas' First Mortgage Bonds aggregating $6,189,000 principal amount; and

The Commission having by order entered herein under date of June 29, 1945, permitted said amended declarations and applications to become effective and granted subject to a condition that the proposed issuance and sale of securities should not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in this proceeding and a further order entered in the light of the record so completed; and

Western, Inc., having filed a further amendment to the declarations and applications, setting forth the action taken to comply with the requirements of Rule U-50 and showing that, pursuant to the invitation for competitive bids, five bids on said bonds by five groups of underwriters, headed by the firms set forth below, were received:

Underwriting groups	Coupon rate	Price to company [1] (percent of principal amount)	Annual cost to company

A further hearing having been held, and the Commission having examined the record in the light of said amendment, and finding no basis for imposing terms and conditions with respect to the price to be paid to the company for said bonds, the underwriter's spread and its allocation:

It is ordered, That, subject to the terms and conditions contained in Rule U-24, said declarations and applications, as amended, be and the same are hereby permitted to become effective and granted forthwith.

GENERAL GAS & ELECTRIC CORP.

MEMORANDUM OPINION AND ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 7th day of September A. D. 1945.

Declaration of dividends out of capital surplus. Declaration by registered holding company pursuant to section 12 (c) and Rule U-46 permitted to become effective with respect to the payment of dividends to prior preferred shareholders out of capital surplus where no prejudice to security holders or public is found.

General Gas & Electric Corporation (hereinafter called Gengas), a registered holding company, which is a subsidiary of Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation (hereinafter called Trustees), a registered holding company, has filed a declaration pursuant to section 12 (c) of the public Utility Holding Company Act of 1935 (the act), in which it proposes to declare out of capital or unearned surplus a dividend for the quarterly period ending September 15, 1945, of $1.25 per share, on its $5 Prior Preferred Stock, no par value.

The entire issue outstanding is 60,000 shares, of which 27,889.1 shares are held by the Trustees, who have, by a letter dated August 9, 1945, waived their right to collect such quarterly dividend, until further order of the Commission. The number of shares in the hands of the public is 32,110.9 (of which 8.9 shares are held in scrip, and such scrip will not receive a dividend), so that $40,127.50 will be required to make the dividend payment.

After appropriate notice a public hearing was held. No one appeared at the hearing to oppose the proposed dividend payment. Having considered the record therein, the Commission makes the following findings:

As at June 30, 1945, the assets of Gengas, per books, totalled $31,965,321. The only securities of, or claims against, Gengas which, according to its books, are senior to the $5 Prior Preferred Stock, consist of certain obligations payable to the Trustees. These obligations, including interest thereon, aggregate $3,501,733.

The books of Gengas, as at June 30, 1945, reflect an earned surplus deficit of $2,794,684; the capital surplus is shown as $12,621,385.

Net income of Gengas for the twelve months ended June 30, 1945, amounted to $743,434. As at June 30, 1945, Gengas had cash on hand and in banks in the amount of $152,927 and United States Treasury Certificates costing $4,850,000.

A cash forecast for the five months ending December 31, 1945, submitted by the company in connection with the filing, indicates that Gengas will be able to meet all its cash requirements, including those under the recently approved plan of reorganization for the company,[1] continue to maintain an adequate cash balance, and pursue its present dividend policy. The forecast contemplates that at the end of the period the cash balance, assuming consummation of the plan of reorganization during the period, will aggregate $726,156.78.

This is the fifteenth time that Gengas has filed a declaration to declare a dividend on its publicly held Prior Preferred Stock out of capital surplus. We have on each occasion considered that the assets of Gengas were substantial in relation to the size of the proposed dividend, and that the Prior Preferred Stock is, by its terms, entitled to be paid dividend arrearages in full before dividends can be paid on the other preferred stocks. These same factors are equally cogent with regard to the present declaration.

We make no adverse findings under the applicable sections of the act and rules promulgated thereunder.

It is therefore ordered, That, pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935, the said declaration, as amended, be, and hereby is, permitted to become effective forthwith, subject, however, to the terms and conditions prescribed in Rule U-24 of the general rules and regulations.

By the Commission.

but only to the extent that such net operating losses, consolidated or separate, as the case may be, were not absorbed as net operating loss carry-backs, and, with respect to net operating losses subject to the provisions of (iv), were not absorbed by the group in the first preceding taxable year as war losses pursuant to the last sentence of section 141 (b) of the Code;

PAR. 11. Section 33.31 (b) (3) (iii), as amended by Treasury Decision 5245, is further amended to read as follows:

(iii) The amount of the net operating loss, if any, sustained by such corporation for the first succeeding taxable year reduced by the net income, if any, of such corporation for the first preceding taxable year, or, if the income of such corporation is included in the consolidated return for the first preceding taxable year, reduced either by the net income of such corporation for such year increased with respect to its separate net short-term and long-term capital gains (or, for years beginning after December 31, 1941, its separate net capital gain) and increased or decreased, as the case may be, with respect to its separate gains or losses from involuntary conversions and from sales or exchanges of property subject to the provisions of section 117 (j) or by the consolidated net income for such first preceding taxable year, whichever is the lesser, the net income for the first preceding taxable year being computed in either case with the exceptions, additions, and limitations provided in section 122 (d) (1), (2), (4), and (6), and with a net operating loss deduction or a consolidated net operating loss deduction, as the case may be, for the first preceding taxable year determined without regard to the net operating loss of such corporation for the first succeeding taxable year, and

PAR. 12. Section 33.31 (c) (1), as amended by Treasury Decision 5341, approved March 14, 1944, is further amended by striking from subdivision (vi) the word "and"; by striking the period at the end of subdivision (vii) and inserting in lieu thereof a comma and the word "and"; and by inserting therein the following new subdivision:

(viii) No deduction under section 23 (q) with respect to charitable or other contributions shall be taken into account.

PAR. 13. Section 33.31 (c) (2) (ii), as amended by Treasury Decision 5341, is further amended by striking from subdivision (*a*) the word "and"; by inserting immediately following the semicolon at the end of subdivision (*b*) the word "and"; and by inserting therein the following new subdivision:

(c) Capital gains and losses, short-term capital gains and losses, and long-term capital gains and losses shall be determined without regard to:

(*1*) Gains or losses from involuntary conversions and from sales or exchanges of property subject to the provisions of section 117 (j), and

(2) The net capital loss carry-overs provided in section 117 (e) (1), and, in the first taxable year beginning after December 31, 1941, the net short-term capital loss carry-over provided by section 117 (e) (2);

PAR. 14. Section 33.31 (c) (3), as amended by Treasury Decision 5245, is further amended by striking the period at the end of the first sentence and by inserting in lieu thereof the following: "and increased or decreased, as the case may be, with respect to its separate gains or losses from involuntary conversions and from sales or exchanges of property subject to the provisions of section 117 (j)."

PAR. 15. Section 33.31 (c) (15), as added by Treasury Decision 5341, is amended by striking the period at the end and by inserting in lieu thereof the following: "increased with respect to its separate net gains from involuntary conversions and from sales or exchanges of property subject to the provisions of section 117 (j)."

(Sec. 141 (b), I.R.C., as amended by sec. 159 of Revenue Act of 1942 (53 Stat. 58, 56 Stat. 853; U.S.C., and Sup. 141))

(c) *Deliveries which may be rated.* The Army and Navy Munitions Board may assign preference ratings to:

(1) Deliveries in fulfillment of contracts and purchase orders of the kinds described in paragraph (b), including deliveries of material to be incorporated in construction, but only if the construction is command construction, Panama Canal construction or Maritime ship construction. (See paragraphs (2), (4) and (5) below.)

(2) Command construction; that is, the following types of projects ordered built by either the Chief of Staff, U. S. Army, or the Chief of Naval Operations, U. S. (7) [Deleted Sept. 12, 1945.]

(8) [Deleted Sept. 12, 1945.]

(d) *Restrictions on rating authority.* (1) Any preference rating certificate which assigns a rating to the delivery of tires or tubes shall before issuance be reviewed and approved by the War Production Board.

(2) All construction, other than that covered by the provisions of paragraphs (c) (2), (c) (4) and (c) (5), will be rated only by the War Production Board, even though the facilities when completed will be owned, leased or operated by the Army, Navy or Maritime Commission.

(e) *Redelegation of authority to assign ratings.* The authority delegated to the Army and Navy Munitions Board in paragraph (c) may be redelegated by the Board only to authorized officials of the agencies enumerated in paragraphs (b) (1), (b) (2) and (b) (3) except that the authority to assign preference ratings under paragraph (c) (6) may be redelegated only to the Maritime Commission, the War Shipping Administration and the Coordinator for Ship Repair and Conversion and officials thereof.

(f) *Method of assigning ratings.* (1) [Deleted Sept. 12, 1945.]

(2) Preference ratings assigned under this directive shall be assigned on Form WPB-542, on Form WPB-646, or as prescribed in subparagraph (3) below.

(3) When any Government agency having the authority assigns a preference rating to deliveries to be made to or for its account, it may do so by placing the rating on the purchase order or contract and endorsing the order or contract with a certification substantially as follows: "By authority of the War Production Board the preference ratings indicated are assigned to the deliveries on this purchase order or contract." This certification may be placed on a purchase order or contract by means of a rubber stamp or printed on the order or contract form. The certification need not be signed separately if the purchase order or contract is signed by an official who is authorized to assign the ratings on behalf of the agency which is placing the order or contract. This method of assigning the rating may not be used when the assignment of the rating is subject to review and approval by the War Production Board before issuance.

(4) Re-ratings may be issued or effected within War Production Board program determinations in the manner prescribed by Priorities Regulation 12.

(5) Every rating assigned under this directive on a form or certification shall be assigned in the manner prescribed therein without attaching any further conditions or qualifications, except that in approving any Form WPB-542 for tires or tubes the War Production Board may limit the use of the rating to a specific make of tire or tube, or may provide that delivery may only be obtained from a specified supplier.

(k) *Effective date.* This Directive 41, as amended, shall take effect on September 15, 1945.

Issued this 12th day of September 1945.

LINCOLN GORDON,
Program Vice Chairman.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 3, as Amended Sept. 11, 1945]

§ 944.23 *Priorities Regulation 3*—(a) *Purpose of this regulation.* This regulation states the rules for the use of preference ratings, what kind of purchase orders or services may be rated and how a rating may be put on an order. It also places restrictions on the use of ratings and includes lists of products for which ratings may not be used at all or for which certain kinds of ratings may not be used. In general this regulation should be consulted before using a rating whether it was gotten directly from the War Production Board or from a customer.

(b) *Definitions.* For the purposes of this regulation:

(1) "Person" and "material" mean the same thing they do in Priorities Regulation 1.

(2) "Assignment" of a preference rating. A preference rating is assigned to a person when the War Production Board or someone that it has authorized issues an order or preference rating certificate giving him the right to use the rating.

(3) "Application" of a preference rating. A preference rating is applied when the person to whom it is assigned uses the rating. A rating is applied also when any governmental agency which is authorized by the War Production Board rates an order for delivery of material directly to it.

(4) "Extension" of a preference rating. A preference rating is extended when it is used by the person to whom it is applied or extended by another person.

(c) *Use of ratings in general.* (1) When a regulation, preference rating order or preference rating certificate assigns a rating to any person, either by naming him or by describing the class of persons to which he belongs (as is done in the schedules to CMP Regulation 5), that person may apply the rating to get delivery of material or the performance of certain services. Also, a person may under certain conditions extend a rating which has been applied or extended to his deliveries of material, but not one applied to services. More detailed rules as to how and when ratings may be applied or extended are set out below in this regulation.

(2) When a War Production Board order or certificate states the quantities and kinds of material or the particular services which are rated, the person to whom it is assigned may use the rating to get only that quantity and kind of material or that particular service named in the order or certificate. If the quantities of material are not stated in the order or certificate assigning the rating it may be applied only to get the minimum amount needed.

(3) No person may place rated orders for more material than he is authorized to rate even though he intends to cancel some of the orders or reduce the quantity of material ordered to the authorized amount before it is all delivered.

(d) *When AA ratings may be extended for material.* The following provisions of this paragraph (d) apply to all extensions of preference AA ratings to get deliveries of material, unless they are modified by or are inconsistent with the provisions of any particular order.

(1) A manufacturer of Class B products under the Controlled Materials plan and a holder of Form WPB-2613 (formerly PD-870) may not extend his customers' AA ratings as explained in more detail in CMP Regulation 3 and in Priorities Regulation 11B.

(2) When a person has received a AA rated order for the delivery of material, he may extend the AA rating to get the material which he will deliver on that order, or which will be physically incorporated in material which he will deliver. If the material is to be processed, this includes the portion of it which would normally be consumed or converted into scrap or by-products in the course of processing.

(3) If a person has made delivery of material, or has incorporated it into other material which he has delivered on an AA rated order, he may extend the AA rating to replace it in his inventory. However, if after delivering the material he still has a practicable working minimum inventory he may not extend the AA rating to replace the material delivered; and if by making the delivery his inventory is reduced below this minimum, the AA rating may be extended to get only the amount necessary to restore the inventory to a practicable working minimum. Any material ordered to replace in inventory must be substantially the same as the material which the person delivered or incorporated in the material which he delivered, except for minor variations in size, shape or design.

(4) A person to whom an AA rating has been applied or extended to get material may not extend that AA rating to get containers or closures to pack the material except as permitted by any order in the Containers, Part 3270, Series (Orders P-140 and P-146 are the only ones that now permit the extension of such AA ratings). Nor may he extend such AA rating to get any material for his own plant improvement, expansion or construction, or to get machine tools or other items which he will carry as capital equipment, or to get business machines for his own use whether purchased or leased, or to get maintenance, repair or operating supplies for his own use. Other orders or regulations, such as CMP Regulation 5 and some orders in the "P" series, assign ratings which may be used by the proper persons to get maintenance, repair or operating supplies and minor capital additions.

(d-1) *AAA, MM and CC ratings.* (1) AAA and MM ratings may be extended under the same conditions as AA ratings, as described in paragraph (d), subject to the conditions of this regulation; except that manufacturers of Class B and unclassified products may extend these ratings for deliveries of production materials to them during the fourth quarter of 1945 and subsequent quarters.

(2) CC ratings may not be extended by a supplier to get production materials needed to make the item sold to his customer, or to replace in inventory materials used to make the item. A distributor, warehouse, retailer, or other person who resells the item without further fabrication may extend the CC rating where he does not have the item in inventory, but may not extend the rating to replace the item in inventory.

A textile converter receiving a CC rating from his customer for finished fabric may extend the rating to get the gray fabric (including the portion of it which would normally be consumed or converted into scrap or by-product in the course of processing) which he will deliver in finished state on that order, or to replace in inventory fabric used to fill the order. However, if after delivering the material he still has a practicable working minimum inventory he may not extend the CC rating to replace the material delivered; and if by making the delivery his inventory is reduced below this minimum, the CC rating may be extended to get only the amount necessary to restore the inventory to a practicable working minimum. Any material ordered to replace inventory must be substantially the same (except for the finishing) as the material which the person delivered, except for minor variations in construction.

(e) *Additional restrictions upon use of ratings for certain materials.* Because of special circumstances which exist with respect to certain materials and products, the use of preference ratings to get items on Lists A or B attached to this regulation is restricted as follows:

(1) *Items as to which preference ratings have no effect; List A.* Any item on List A may be produced or delivered without regard to preference ratings. No person shall apply or extend any rating to get any of these items and no person selling any such item shall require a rating as a condition of sale. Any rating purporting to be applied or extended to any such item shall be void and no person shall give any effect to it in filling an order.

(2) *Items to which blanket MRO ratings do not apply; List B.* Blanket MRO ratings may not be applied to get any item on List B, except as permitted by the list. A blanket MRO rating means a rating assigned by CMP Regulation 5 or 5A, or by any other War Production Board regulation, order (including an order in the "P" series), form or certificate which assigns a rating for maintenance, repair or operating supplies without specifying the kind and quantity of the material to which the rating may be applied. Where the quantity of material is specified in terms of dollar value only, the rating is a blanket MRO rating. No person shall give any effect to any rating applied to his deliveries of any item on List B if he knows or has reason to believe that it is a blanket MRO rating. Any blanket MRO rating applied to an order for any item on List B which was not delivered before the date the item was added to the list shall be deemed void. The restrictions of this paragraph are not applicable when the blanket MRO rating is applied to get an item on the list for use on board ship, but in such a case the rating may not be extended by the person to whom it is applied.

(3) *Illustration.* A manufacturer of a product listed in Schedule II of CMP Regulation 5 is assigned a rating of AA-2 for operating supplies. He may not use the rating to buy wooden shelving for his own use since it is on List B. A contractor has received an order bearing a rating of AA-3 to install wooden shelving in an Army camp. He may extend that rating to get the wooden shelving from the manufacturer since in this case the shelving is production material as to him and not operating supplies. If, however, wooden shelving were on List A instead of List B, neither rating could be used.

(f) *Use of ratings for services*—(1) *Ratings may not be used for personal services.* Preference ratings may never be used to get labor or personal services as distinct from services performed in the course of a regular business involving the use of plant, machinery or equipment owned by the person furnishing the services. For example, ratings may be used to get a repair job done in a repair shop as explained below but may not be used to compel an individual employee to work on a repair job or to obtain the services of a consulting engineer.

(2) *Three cases where ratings may be used for services.* There are only three situations in which a preference rating may be used to get services, as distinct from the production or delivery of material:

(i) *A rating assigned for the purpose.* If the War Production Board assigns a rating to a named person to get specified services, he may use the rating for that purpose.

(ii) *For processing.* When a person has a rating which he may use to get processed material, he may (unless prohibited by another regulation or order) furnish the unprocessed material to a processor and use the same rating to get it processed.

(iii) *For repairs.* A blanket MRO rating may be applied by the person to whom it is assigned to get his plant, machinery or equipment repaired even if the repair job does not involve the delivery of repair parts or materials. See paragraph (e) (2) for definition of a blanket MRO rating. A rating assigned on Form WPB-541 (formerly PD-1A) or WPB-542 (formerly PD-3A), or any other rating which may be applied to the delivery of specific repair parts or materials, may also be applied to the installation of the repair parts or materials or to the repair job alone if it is found that installing the parts or materials is not necessary. However, in the case of ordinary plumbing, heating, electrical, automotive or refrigeration repairs, a rating may not be applied to repair work even if the rating is expressly applicable to repair parts or materials. As used in this subparagraph, "repair" means to fix a plant, machinery or equipment after it has broken down or when it is about to break down. "Repair" does not mean upkeep or maintenance service such as periodic inspection, cleaning, painting, lubricating, etc.

(3) *Ratings for services only may not be extended.* A person to whom a rating for services, as distinct from the production or delivery of material, has been applied or extended may not extend the rating for any purpose.

(g) *How to apply or extend a rating.* (1) When a person applies or extends a preference rating he must put the rating (and symbol, if appropriate) on the order together with a certification signed as prescribed in Priorities Regulation 7. He may use the standard certification set out in that regulation, or if he prefers the following:

CERTIFICATION

The undersigned purchaser hereby represents to the seller and to the War Production Board that he is entitled to apply or extend the preference ratings indicated opposite the items shown on this order, and that such application or extension is in accordance with Priorities Regulation 3 as amended, with the terms of which the undersigned is familiar.

_____
(Name of Purchaser)

_____
(Address)

By _____
(Signature and Title of Duly Authorized Officer)

_____
(Date)

The person who receives the certification shall be entitled to rely on it as a representation of the buyer unless he knows or has reason to know that it is false.

(4) When a person applies or extends a rating he shall also include on his purchase order or contract any information which may be required by any applicable War Production Board order. However, he is not required to include the serial number of the preference rating certificate assigning the rating.

(5) Each person who applies or extends a rating must keep at his regular place of business all documents including purchase orders and preference rating orders and certificates which authorize him to apply or extend the rating. These documents, orders and certificates must be kept in such a way that they can be readily segregated and furnished to representatives of the War Production Board for inspection.

(6) When either certification authorized in this paragraph (g) is used it will not be necessary to use any other certification in order to apply or extend a preference rating, nor will it be necessary to furnish a copy of any preference rating order no matter what any regulation, preference rating order or preference rating certificate says unless it expressly states that this regulation does not apply. This does not affect the requirements of Priorities Regulation No. 9 (§ 944.30) when ratings are applied to certain types of exports, in which case its terms control.

(7) No person shall knowingly purport to apply or extend a preference rating to any order unless he is entitled to do so. No person shall apply or extend a rating for material or services after he has received the material or after the services have been performed, and any person who receives such a rating shall not extend it.

(h) *Provisions applicable to extensions; deferment and grouping.* No matter what any applicable preference rating order or certificate may say,

(1) No person may extend any rating to replace inventory after three months have passed from the time he could have first extended it;

(2) When a person has two or more ratings of the same grade which were assigned by different preference rating certificates or orders he may combine them and extend them to one delivery; and

(3) When a person has two or more ratings of different grades, or where they were assigned by the same or different certificates or orders, he may extend them to deliveries under one purchase order. However, the purchase order must show the amount of each material to which a particular grade of rating is extended. If the type and quantity of the material is such that the supplier can readily determine the exact effect of the extension of the rating on his production and delivery schedule from percentage figures alone, then the purchase order may show the amount of the material to which the particular grade of rating is extended on a percentage basis; otherwise, it must be shown as a separate item. In order to avoid production or delivery of material in quantities smaller than the minimum commercially practicable a person may combine ratings of different grades and extend the rating of the lowest grade to the total production or delivery.

(i) *Restrictions in other orders.* When any person applies or extends a rating he shall be subject to any applicable rule or restriction which may be set forth in the order of the War Production Board which assigns the rating or any other order which regulates transactions in the material or the facilities for which he is using the rating. This includes restrictions as to the kind and amount of material to which ratings may be applied or extended, requirements for written approval of any particular transaction, restrictions on certain uses of material or facilities and any other rules which may be applicable to the particular transaction. However, the rules of paragraphs (g) (4) and (g) (6) apply unless some other order or certificate expressly says that they do not.

Issued this 11th day of September 1945.

INTERPRETATION 1

Interpretation 1 of Priorities Regulation 3 [Revoked Nov. 17, 1943.]

INTERPRETATION 2

EFFECT OF LISTS A AND B ON UNFILLED ORDERS

The restrictions on the use of ratings for the items on Lists A and B apply to orders for such items which had been placed before the date the item was put on the list but were not yet filled. (Issued Nov. 17, 1943.)

INTERPRETATION 3

FIRE PROTECTIVE EQUIPMENT

The term "Fire protective equipment" on List B of Priorities Regulation 3 includes only the end items listed and does not include materials or parts required for the repair or maintenance of those items.

For example, fire pumps and fire sprinkler systems are listed and therefore may not be obtained on blanket MRO ratings, whereas a part required to repair a pump or sprinkler system may be obtained on blanket MRO ratings. Similarly, blanket MRO ratings may not be used to extend an existing sprinkler system, but such ratings may be used to repair or replace sprinkler heads which have been opened up by fire or damaged in any other way. (Issued Oct. 21, 1944.)

INTERPRETATION 4

CMPL-224 AND GA-1456 AUTHORIZATION

Reference is made in various War Production Orders to P-19-h orders or to orders in the P-19 series, and in some of these orders the delivery of material or equipment is not allowed, unless the material or equipment is rated under a P-19-h order or an order in the P-19 series. Order P-19-h has in a large measure been superseded by CMPL-224 authorizations and this last form has in turn been superseded by form GA-1456. Consequently any reference to a P-19-h order or to an order in the P-19 series is also reference to an authorization on form CMPL-224 or GA-1456, and if the delivery of an item is permitted under a P-19-h order or an order in the P-19 series it also may be delivered under a CMPL-224 or GA-1456 authorization. (Issued Apr. 23, 1945.)

INTERPRETATION 5

RESTRICTIONS OF OTHER ORDERS; "MASKING" TAPE

(a) *Restrictions of other orders on use of ratings or delivery.* The provisions of paragraph (e) relate only to the items which appear on the lists. When any other order of the War Production Board restricts the use of preference ratings to obtain any product, or restricts delivery of a product in any way, those restrictions are applicable even though that product is not listed in Priorities Regulation 3 (§ 944.23). This rule specifically applies to the items which were on List C before the amendment of August 10, 1943.

(b) *"Masking tape.* Blanket MRO ratings may be used to get industrial pressure sensitive adhesive tape (paper and cloth), also called "masking" tape. This type of tape is not included in "Gummed stay and sealing tape, paper and cloth."

This interpretation is not applicable to adhesive tape backed with cellophane or similar transparent materials derived from cellulose which may not be obtained with blanket MRO ratings. (Issued Dec. 18, 1943.)

INTERPRETATION 6

EFFECT OF PREFERENCE RATING CERTIFICATE REFERRING TO PRODUCT OF A PARTICULAR MANUFACTURER

(a) When a preference rating certificate in assigning a rating to a product describes the product by its trade name or by the manufacturer's name and catalogue number, the rating may ordinarily be used to get the product from any manufacturer if the model actually obtained is substantially identical in size, operation and function with that named in the certificate.

(b) The rule stated in the preceding paragraph is consistent with the statement in paragraph (c) (2) of Priorities Regulation 3 (§ 944.23), that a preference rating may be applied only to the specific quantities and kinds of material authorized. Ordinarily a reference in a preference rating certificate to a particular product of a particular manufacturer is no more than a shorthand way of describing the product. It is safe to assume, unless the certificate clearly states otherwise, that what is being rated is a certain kind and size of product which may be obtained from any manufacturer who makes that kind and size. If it is intended to confine the rating to a particular product of a particular manufacturer, the certificate should say so explicitly (Issued Sept. 8, 1943.)

INTERPRETATION 7

LIMITATIONS ON THE RIGHT TO USE RATINGS TO GET MATERIALS PROCESSED

(a) *What this interpretation covers.* This interpretation explains the limitations on the use of a preference rating assigned to the delivery of a material to get material processed under paragraph (f) (2) (ii) of the regulation.

(b) *Controlled materials.* Preference ratings cannot be used to buy controlled materials (steel, copper, and aluminum in controlled material form) from a producer or warehouse and consequently no rating may be used to get material processed into a controlled material by a producer or warehouse. There is one exception to this general rule which is covered by paragraph (d-1) of CMP Regulation No. 8, which assigns a preference rating to steel producers for use in getting steel processed into a controlled material form.

(c) *Class B products.* Paragraph (g) (3) of CMP Regulation No 1 prohibits allotments of controlled materials to B product manufacturers except by the War Production Board and, as explained in Interpretation No. 16 to CMP Regulation No 1, also prohibits a customer from furnishing controlled materials to a B product manufacturer. A special exception to this general rule is provided in Direction 36 to CMP Regulation No. 1. In all cases not covered by the exception, it is improper for a person to furnish controlled materials to a B product manufacturer for processing and consequently no preference rating can be used to get such processing done. In this connection, attention is called to the fact that all products, whether Class A products or Class B products, which are bought for use as maintenance, repair, or operating supplies are treated as though they were Class B products. This is covered by paragraph (k-1) (2) of CMP Regulation No 1. As pointed out in Interpretation No. 13 to CMP Regulation No. 1, a Class A repair part is handled on a Class B basis and therefore paragraph (g) (3) of the regulation is applicable.

(d) *Ratings not to interfere with authorized controlled material orders.* While a person who has been assigned a rating to get material may use the rating to get the use of the facilities of a controlled materials producer to have the material processed (if the material, when processed, is not a controlled material) rated orders for the use of a controlled materials producer's facilities must not interfere with the acceptance, production, or delivery of orders which he is permitted to fill under paragraph (t) (3) of CMP Regulation No. 1. Attention is called to Interpretation No. 4 to Priorities Regulation No. 1 on this subject. (Issued Nov. 18, 1943.)

INTERPRETATION 8

ELECTRONIC INTERCOMMUNICATING SYSTEMS

List B of Priorities Regulation 3 (§ 944.23) forbids the use of blanket MRO ratings to obtain electronic intercommunicating systems. This restriction applies only to getting systems not yet installed. Therefore, blanket MRO ratings may be used to obtain repair parts and materials for existing intercommunicating systems. Also, those blanket MRO ratings which may be used for minor capital additions, may within prescribed dollar limits be used to add stations to an existing intercommunicating system to bring it to its designed capacity. Thus, if an intercommunicating system is designed for 16 stations, with only 12 stations originally installed, four stations may be added by the use of blanket MRO ratings. However, an expansion beyond the 16 stations, or any enlargement of or an extension beyond the designed capacity, may not be obtained by use of blanket MRO ratings. (Issued Feb 27, 1945.)

INTERPRETATION 9

CERTAIN MRO RATINGS ASSIGNED UNDER P-98-b ARE NOT BLANKET MRO RATINGS

Paragraph (e) (2) of Priorities Regulation 3 prohibits the use of a "blanket MRO rating" to get any item on List B. See that paragraph for a definition of a "blanket MRO rating". Some of the items which are on List B also appear on Schedule B of Preference Rating Order P-98-b. That schedule provides a way to get a rating for the items which appear on it so that such P-98-b ratings will not be "blanket MRO ratings". These ratings are assigned to specific purchase orders for a specific kind and quantity of the material desired.

Therefore, when a rating assigned pursuant to Schedule B of P-98-b (as evidenced by the symbol MRO-P-3) is applied to a purchase order for any item which is set out on Schedule B of that order that rating is valid, despite the fact the item is also on List B of Priorities Regulation 3.

The order does not require the purchaser to furnish a copy of his approved purchase order to the supplier, and the supplier should give effect to the rating and certification unless he knows or has reason to believe that the purchase order has not been rated as provided in Schedule B of Order P-98-b. (Issued Jan. 24, 1944.)

INTERPRETATION 10

USE OF RATING TO OBTAIN LEASED MACHINERY

(a) A preference rating which has been assigned for the delivery of an item of machinery or equipment may be used to lease the equipment as long as the following conditions are fulfilled:

(1) The lease must be a long-term semi-permanent arrangement where both parties contemplate the comparatively permanent installation of the machine or equipment. For instance, a rating could be used to obtain a machine under lease where the lease was for one year, with provision for renewal at the end of each year, and both parties expected that the lease would be renewed from time to time. However, the rating could not be used to obtain a machine for a month's use.

(2) If the rating is limited by specific dollar amount, it may be used only to lease machinery or equipment whose fair market value is no greater than the amount specified. For example, CMP Regulation No. 5 assigns a rating for the purchase of minor capital additions not exceeding $500. This rating can be used to lease a machine if its fair market value is not more than $500.

(b) If the instrument assigning the ratings specifies a lease rather than a purchase, it is not necessary to comply with the above conditions. (Issued April 25, 1944.)

INTERPRETATION 11

IDENTIFICATION OF BLANKET MRO RATINGS

Generally speaking, ratings accompanied by the symbol "MRO" are blanket MRO ratings when they are applied to get an item on List B of Priorities Regulation 3. Therefore, any person receiving an order for a List B item bearing a rating accompanied by the symbol "MRO" must assume that the rating is a blanket MRO rating and give it no effect, unless the person who applied or extended it demonstrates (1) that it is not a blanket MRO rating or (2) that it is an extension of a blanket MRO rating applied on an order which was filled before the item was added to List B. (See paragraph (e) (2) of Priorities Regulation 3 for definition of "blanket MRO rating.")

It should not be assumed, however, that all blanket MRO ratings are accompanied by the "MRO" symbol. Several "P" and "U" Orders assign blanket MRO ratings which are accompanied by symbols other than "MRO." For example, a blanket MRO rating is assigned by Preference Rating Order P-68, but the symbol accompanying the rating is "S 8".

The question has been raised whether the War Production Board assigns the symbol "MRO" in connection with the assignment of a rating on Form WPB-541 (PD-1A) for a List B item. The answer to this question is "No." Therefore, no rating which was assigned on Form WPB-541 for a List B item could properly be accompanied by the "MRO" symbol. (Issued April 25, 1944.)

INTERPRETATION 12

RECORDS OF EXPORTERS

Paragraph (g) (5) of Priorities Regulation No. 3 requires each person who applies or extends a rating to keep all documents including preference rating orders and certificates which authorize him to apply or extend the rating at his regular place of business. The Foreign Economic Administration and its predecessors, the Board of Economic Warfare and the Office of Economic Warfare, have assigned preference ratings to exporters for export by endorsing appropriate legends upon export licenses. The original of every export license, however, is required by other government regulations to be surrendered to export officials at the time of shipment. Consequently, persons who receive their assignments of preference ratings on export licenses are not in a position to retain the original of the export license and thus are not required to do so by paragraph (g) (5) except only in those cases where other government regulations do not require the surrender to the government of the documents referred to. However, such persons must keep any copies of the export licenses which are returned to them for their files. (Issued August 24, 1945.)

INTERPRETATION 13

TIME LIMIT ON USE OF RATINGS

Preference ratings may not be extended to replace material in inventory after three months from the time delivery was made to the customer. This is the rule of paragraph (h) (1) of the regulation.

When a rating is being applied (except a blanket rating such as one assigned by CMP Regulation 5) or when any rating is extended for some purpose other than to replace inventory, this may be done only within a reasonable time after the rating was received. Generally speaking, more than three months is deemed to be an unreasonable delay in the use of a rating. In a particular case there may be circumstances which make a reasonable time shorter or longer than three months. For example,

(1) A rating assigned to a construction project on a form which says when the rating expires (such as GA-1456 or CMPL 593) may be applied for material going into the project until the expiration date stated, even though more than three months may have elapsed.

(2) A rating assigned in connection with an export license may be applied as long as the license is valid and expires when the license expires or is revoked. (For explanation of this rule see Interpretation 2, Directive 27.)

(3) When a rating is applied to a long term contract (such as the construction of a ship), it may be extended for material needed to fill the contract, even though more than three months have elapsed.

(4) If the purpose for which the rating was assigned no longer exists, the rating may not be applied even though three months have not elapsed.

(5) When a rating is extended by a person to get material to deliver to his customer, or to incorporate in such material, the time within which it may be done will, in general, be controlled by the delivery date on his customer's order.

The fact that a person has not been able to get his rated order accepted by a supplier does not lengthen the time within which he may use his rating. (Issued June 23 1944.)

INTERPRETATION 14: Revoked Apr. 23, 1945.

INTERPRETATION 15

REFERENCES IN LISTS A AND B TO ORDERS WHICH HAVE BEEN REVOKED

In many items on Lists A and B of Priorities Regulation 3 reference is made to specific WPB orders or schedules for a definition of the specific items covered by the lists. Sometimes the order or schedule referred to is revoked without any change in the listing on List A or B. When one of these orders or schedules is revoked, the listing of the item on List A or B, nevertheless, remains in full force and effect, and the item as listed on List A or B has the same meaning as before the revocation of the order. PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328, Direction 18, as amended Sept. 11, 1945]

CC RATINGS FOR TEXTILES AND RELATED ITEMS

Direction 18 to Conservation Order M-328 is amended to read:

(a) *Purpose of this direction.* The revised priorities system will become fully applicable to textile and related items covered by Schedule A of Order M-328 after the end of September, 1945, under Priorities Regulation 29 as amended on September 11, 1945. The rules for the use of AAA, MM and CC ratings for such items are now stated in that and other general regulations. Priorities Regulation 28, as amended the same date, states when the new ratings may be granted. This direction explains in more detail how ratings may be applied for under orders in the M-317 and M-328 series. It also explains when a CC rating specifically assigned by the War Production Board constitutes a rerating of a former AA rating, and why AA ratings for textile and related items remain valid until the end of September.

(b) *How to apply for CC ratings.* Applications for CC ratings may be made for deliveries after the end of September, 1945, for purposes and under the rules for which priorities assistance may be given under orders in the M-317 series and M-328 series, and their schedules and directions, as amended from time to time. The application form specified by the order, schedule or direction under which the application is being made should be used. (Applications already filed under those rules and not yet acted on by War Production Board will be considered by WPB without having to be filed again).

Applications for CC ratings for textiles and related items for other purposes, including exports, may be made in accordance with Priorities Regulation 28.

(c) *Use of CC ratings.* When a person has placed an order with an AA rating for any textile or related items for delivery after September 30, 1945 and the War Production Board specifically assigns him a CC rating for the same items on an individual certificate or form, he may rerate the order CC under the rerating procedure of Priorities Regulation 12 if he uses the new rating by September 30, 1945. A CC rating used after September 30, 1945, does not constitute a rerating but must be applied or extended as an original rating under Priorities Regulation 3.

(d) *Validity of AA ratings.* As explained in Priorities Regulation 29, AA ratings for textile and related items remain valid through September 30, 1945, both for delivery before and after that date (unless unrated by the customer or specifically cancelled by War Production Board in particular cases, under a rule in an order in the M-317 series, the M-328 series, their schedules or directions, or by some other specific action of the War Production Board revoking an AA rating assigned to a particular person). It is necessary for the AA ratings assigned for delivery after September 30, 1945 to remain valid until that time, to get orderly scheduling of those materials which have to be ordered in advance. Although such ratings will become invalid at the end of September, suppliers cannot be sure that orders carrying AA ratings for delivery after the end of September will not be confirmed under the new rating system before the end of September, and they must therefore accept such orders and keep them in their schedules until the end of September, 1945, according to priorities regulations.

Issued this 11th day of September 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

3. An undesignated paragraph is added to section 2.4 (b) (2) to read as follows:

However, in calculating the maximum price for a garment made of first quality fabrics, other than denim, chambray and covert, made to military specifications and released by the military for use in civilian garments, "cost of body material" means the maximum net price which the seller could lawfully be charged for such material if purchased on his customary terms from his customary source of supply under the price schedules and maximum price regulations of the Office of Price Administration in effect on September 1, 1945.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 16,[1] Amdt. 71]

MEAT, FATS, FISH AND CHEESES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Section 15.11a is added to read as follows:

SEC. 15.11a. *Retailers and wholesalers may apply for adjustment of point inventory*—(a) *How to apply.* A retailer or wholesaler may apply for an adjustment if:

He has not been granted an adjustment under section 15.11 of this order, and his net point inventory at the time of application is less than 75% of his allowable inventory, or would be if he were required to give up points for his remaining excess inventory); or

He has been granted an adjustment under section 15.11 of this order or for losses for indeterminable causes under section 15.2, and his net point inventory is less than 55% of his allowable inventory (or would be if he were required to give up points for his remaining excess inventory). The application may be made at any time from September 17, 1945 through October 13, 1945, to the Board with which he is registered. The application shall be made in writing and shall give the following information:

(1) The point value of his inventory of foods covered by this order (other than butter or canned fish acquired with loans from the Washington Office) as of any date between September 17, and September 29, 1945.

(2) If the point value of butter or canned fish he has is included in his reported inventory (subparagraph (1)), a statement that that inventory does not include any butter or canned fish acquired with loans from the Washington Office.

In addition it must show, as of the date of the application:

(3) The number of points he has on hand;

(4) The number of points in his ration bank account, if any (less the amount of any outstanding checks):

[1] 9 F.R. 9978, 10493, 11960, 13297; 10 F.R. 2873.

[1] 9 F.R. 6731.

(5) The number of points which he has already given up for foods not yet shipped to him;

(6) The number of points he has not yet received for foods he has already shipped;

(7) The number of points owed to the Office of Price Administration for outstanding loans (he must include that portion of any loans to acquire butter or canned fish represented by butter or canned fish he has and which he is required to exclude from (1) above);

(8) The number of points he has received for foods which he has not yet shipped;

(9) The number of points he owed for foods already shipped to him; and

(10) Whether or not he has received an adjustment under section 15.11 of this order, or for losses for indeterminable causes under section 15.2.

(b) *Action on application.* (1) The Board may grant an adjustment if it finds that his net point inventory (the total of subparagraphs (1), (3), (4), (5), and (6) of paragraph (a) less the total of subparagraphs (7), (8), and (9) of paragraph (a)) is less than 75% of his allowable inventory (or that it would be so reduced if he were required to give up points for his remaining excess inventory), and if it finds that he has not been granted an adjustment under section 15.11 of this order or for losses for indeterminable causes under section 15.2. The Board shall, in this case, issue a check to the applicant equal to the amount by which 75% of his allowable inventory exceeds his net point inventory, and shall also cancel any remaining excess inventory. If his net point inventory is greater than 75% of his allowable inventory, it will cancel that part of his excess inventory which, if he were required to give up points therefor, would reduce his net point inventory below 75% of his allowable inventory.

(2) If he has been granted an adjustment under section 15.11 of this order or for losses for indeterminable causes under section 15.2, the Board may grant an adjustment if it finds that his net point inventory, as defined in subparagraph (1) of this paragraph, has been reduced to less than 75% of his allowable inventory (or that it would be so reduced if he were required to give up points for his remaining excess inventory). The Board shall, in this case, issue a check to the applicant equal to the amount by which 55% of his allowable inventory exceeds his net point inventory, and shall also cancel his remaining excess inventory. If his net point inventory is greater than 55% of his allowable inventory, it shall cancel that part of his excess inventory which, if he were required to give up points therefor, would reduce his net point inventory below 55% of his allowable inventory.

(c) *General.* Only one application under this section may be made by a retailer or wholesaler. Nothing in this section shall be considered to forgive or excuse any violations by the applicant of this or any other order of the Office of Price Administration, or to affect any action which may be taken by the Office of Price Administration with respect to any such violation.

This amendment shall become effective September 17, 1945.

MARITIME WAR EMERGENCY BOARD.

[Decision 2 D]

WAR RISK BONUSES

In view of the cessation of hostilities with Japan and the occupation of that country by United States Military forces, the Maritime War Emergency Board today announces additional adjustments in war risk bonuses, which are paid to seamen employed on vessels of the American Merchant Marine. These adjustments have been incorporated in this Decision 2 D, which is effective October 1, 1945, and which supersedes all previous bonus decisions of the Board.

Basis for decisions of the Board. Soon after Pearl Harbor, in order to resolve the potentially continuous disputes between the shipowners and the maritime unions over the issue of bonuses incident to war risks and changes in war risks; to eliminate the chaotic basis for the determination of bonuses in individual disputes, to provide an agency for securing confidential war risk information not accessible to the parties; to provide equitable uniformity in establishing war risk bonuses; to promote stability in the maritime industry; and to facilitate the successful prosecution of the war against the Axis powers, the Maritime War Emergency Board was established by the shipowners and the maritime unions signatory to the Statement of Principles.

In fulfillment of these responsibilities and accordingly to resolve the continuing general disputes on the basis of such confidential information with regard to war risks and changes in war risks on all the oceans, which the Maritime War Emergency Board was created to adjudge on a global basis, the Board from time to time raised the bonuses on a national industry-wide scale as risks increased with the advances of the Axis powers, and, in like manner, reduced the bonuses as risks decreased with the retreats and defeats of the Axis powers.

In accordance with its responsibilities under the Statement of Principles the Board has issued several bonus decisions. During the war years the distribution of war risk at sea has not been constant. In the first years of the war there was a pervading risk on all oceans. Therefore, the earlier decisions of the Board placed greater emphasis on increases in voyage bonuses. With the onset of offensive action by the Allied Nations, risks became intensified and concentrated in the active theaters of war. Therefore, the Board made provision for special area and attack bonuses, and began to decrease voyage bonuses. In so doing, the Board gave consideration to a policy of making decreases in voyage bonuses in several steps. As a part of this policy, the Board indicated in anticipation of V-E Day that a global voyage bonus floor of 33⅓% ($40 minimum) would be maintained as long as there were hostilities on any ocean.

Now, however, hostilities have terminated on all oceans. Consequently, overall war hazard at sea no longer exists. Therefore, the Board has eliminated all voyage bonuses. However, the Board finds that some risk still exists, but only in specific areas and only by reason of residual hazards, such as mines. Therefore, the Board has retained the vessel attack bonus unchanged, and has continued the area bonus in a modified form as compensation for these residual hazards.

New decision based on confidential and official information. Decision 2 D is based on all available confidential and official information (including directives of the Governments of the United Nations defining combat and non-combat areas) on war risk at sea and in port received by the Board from authoritative sources of official information. As has been the practice since its establishment, the Board has constantly consulted with and been guided by these sources on all phases of hazard. In this Decision 2 D the Board has been particularly guided by the changes in hazard resulting from cessation of hostilities with Japan. In this connection, the Board has been advised that in addition to the European ports and waters adjacent to the European Continent that will continue to be hazardous to some extent for an indefinite period, certain areas in the Pacific are not yet clear of all danger.

Consultation with signatories to the Statement of Principles. On August 23, 1945, the Board met with representatives of steamship operators and maritime labor organizations who were Signatories to the Statement of Principles, to discuss adjustments in war risk bonus necessitated by the cessation of hostilities with Japan, as it had done on May 12, 1945, to discuss the effect on war risk of the surrender of Germany. At the conclusion of the hearing, the Board allowed the parties signatory to submit written statements on or before August 28, 1945 and stated that any adjustments which it made would become effective 30 days after a decision was issued. In reaching this Decision 2 D the Board has given full consideration to the advice, statements, and views of all parties signatory on matters which were within the scope of its authority and jurisdiction.

Jurisdiction of the Board limited to war risk bonuses and war risk insurance. With regard to the authority and jurisdiction of the Board, it is clear that the Statement of Principles limits the authority and jurisdiction of the Board to determination of war risk bonus and war risk insurance. It must be emphasized that the parties signatory have vested no other authority in the Board. Therefore, it appears to this Board that the parties have followed correct procedure in taking their wage cases to the War Labor Board.

ARTICLE I. *Area bonus and vessel attack bonus required.* Area bonus and vessel attack bonus shall be paid under this Decision to licensed and unlicensed personnel employed as regular crew members on United States flag vessels of the American Merchant Marine.

ART. II. *Area bonus*—(a) *Amount of area bonus.* Area bonus at the rate of $2.50 per day shall be payable to each crew member of a vessel within any of the areas specified in paragraph (b) of this Article II, including periods during which the vessel is in port or at an anchorage.

(b) *Areas*—(1) *European area.* All waters within the area bounded on the east by 60° east longitude to its intersection with the north coast of Russia and thence following the coast of continental Europe and Africa to its intersection with 12° west longitude; and bounded on the west by 12° west longitude.

(2) *Mediterranean area.* All waters within the Mediterranean Sea, including the Adriatic Sea, the Aegean Sea, the Black Sea, the Sea of Azov, the Sea of Marmora, the Dardanelles and the Bosporus.

(3) *Pacific area.* All waters within the area bounded on the north by 60° north latitude; on the east by the 180th meridian; on the south by 13° south latitude; and on the west by 90° east longitude to its intersection with the coast of continental Asia and thence following the coast of continental Asia to its intersection with 60° north latitude.

(c) *Time when area bonus payments start and stop.* Area bonus shall commence as of midnight prior to the day during which the vessel enters the area and shall cease at midnight of the day during which the vessel departs from the area.

ART. III. *Vessel attack bonus.* In addition to area bonus, vessel attack bonus of $125 shall be payable to each crew member of a vessel (a) which is destroyed or substantially damaged as a result of direct war hazard or (b) on which any person is killed or seriously injured as a result of direct war hazard or (c) which is otherwise subjected to extreme and immediate danger of destruction as a result of direct war hazard. Vessel attack bonus shall be payable whether the vessel is within or without any of the areas specified in paragraph (b) of Article II above, and whether the vessel is in a port or at an anchorage or on the high seas. Only one vessel attack bonus shall be payable in the course of any passage of the vessel between ports or anchorages. A passage between ports or anchorages shall be deemed to commence at the time the vessel departs from a port or anchorage and to end at the time the vessel departs from its next port or anchorage. Shifts in berth shall not be deemed passages between anchorages.

ART. IV. *Periods during which area and vessel attack bonus payable*—(a) *During ordinary course of voyage.* Area and vessel attack bonus shall be payable to a regular crew member of the vessel on which he is employed during the course of his employment aboard such vessel.

(b) *When bonus payable after separation from vessel and during repatriation.* (1) If a crew member is separated from his vessel as the result of a peril described in Article 3, as amended, of the form of insurance policy attached to Decision 1A, area and vessel attack bonus shall be payable to such crew member until midnight of the day on which he reaches a port, but area bonus shall be payable only while within a bonus area.

(2) If a crew member is repatriated to the United States after separation from his vessel as a result of either:

(i) A peril referred to in paragraph (1) above, or

(ii) Illness or injury incurred in the service of his vessel and not occasioned by his wilful misconduct,

area and vessel attack bonus shall be payable to such crew member during his repatriation, from midnight of the day prior to which the vessel or other conveyance on which he is being repatriated departs until midnight of the day of arrival of such vessel or other conveyance at a continental United States port, but area bonus shall be payable only while within a bonus area.

(c) *When bonus not payable after separation from vessel.* (1) Bonus shall not be payable while a crew member is on land after separation from his vessel.

(2) Bonus shall not be payable during the period that a crew member is detained either by capture by an enemy of the United States or by internment.

(3) Bonus shall not be payable to a crew member:

(i) After voluntary termination of his employment aboard his vessel for a reason other than one set forth in paragraph (b) (2),

(ii) After desertion or discharge from his employment aboard his vessel,

(iii) After a crew member accepts employment on another vessel for a purpose other than to be repatriated,

(iv) After a crew member refuses without good cause to be repatriated to the United States.

(4) A crew member repatriated after occurrence of an event specified in subparagraph (3) of this paragraph (c) is not entitled to bonus from his original vessel during repatriation. If such crew member signs on as a replacement in the crew of the repatriating vessel, he shall be entitled to bonus from the repatriating vessel. If such crew member signs on as a workaway on the repatriating vessel, he shall not be entitled to bonus from the repatriating vessel.

(d) *No double bonus.* If a crew member signs on the vessel on which he is being repatriated, either as a crew member or workaway on such repatriating vessel, he shall not be entitled to bonus from such vessel in addition to bonus payable under paragraph (b) of this Article IV.

(e) *Death of a crew member.* Bonus shall not be payable for any period after death of a crew member.

ART. V. *Effective date.* This Decision shall be effective at 12:01 a. m. October 1, 1945, as to all vessels whether at sea or in port. The provisions of this Decision shall not be retroactive.

ART. VI. *Repeal.* Decision 2C (10 F.R. 7502), previously issued by the Maritime War Emergency Board, is repealed as of the effective date of this Decision, except as to any voyage, area and vessel attack bonus payable for any period prior to 12:01 a. m. of October 1, 1945.

SPECIFIED CONSTRUCTION MATERIALS AND REFRACTORIES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. 1 is amended in the following respects:

1. The title of article II is amended to read as follows:

ARTICLE II—MODIFICATION OF MAXIMUM PRICES FOR CLAY PRODUCTS EXCEPT REFRACTORIES

2. A new section 2.5 is added to article II of Order No. 1 to read as follows:

SEC. 2.5 *Definition of "purchaser of the same class".* The term "purchaser of the same class" as defined in section 5 (b) (4) of Maximum Price Regulation No. 592 shall not apply to manufacturers' sales of structural clay products (building brick, building tile, mortar mix, conduit, filter block, liners, underdrain and paving brick) and miscellaneous clay products (drain tile, floor, quarry, roofing and wall tile). As applied to manufacturers' sales of these products the following definition shall apply:

"Purchaser of the same class" means functional class such as consumer, contractor, dealer, distributor, jobber, industrial purchaser, or government agency. In determining the highest price charged to a functional class of purchaser, the seller may not consider isolated sales, or sales under unusual circumstances, which were unusually high in comparison with the seller's general level of prices charged to each class of purchasers.

Where the seller has a practice of quoting delivered prices for well defined areas, purchasers in each of such areas shall be considered as a separate functional class. For the purpose of this section, "delivered price" does not include sales made on a plant freight allowed or deducted basis.

This Amendment No. 8 shall become effective September 17, 1945.

Issued this 12th day of September 1945.

(b) *Maximum prices.* The maximum prices which an independent contractor may charge in the area defined in (a) for services in connection with the picking of well picked clean seed cotton and the pulling or snapping of cotton are established, as follows:

(1) Contractors may add to the amount per hundred pounds paid to cotton pickers, provided pickers' wages do not exceed the wage ceilings established by the Department of Agriculture, the following amounts, depending upon the distance from the field in which the cotton is picked to the gin in which the cotton is ginned:

Distance from Field to Gin:	*Amount contractors may add to pickers' wages, cents per 100*
Not more than 5 miles	25
More than 5 and not in excess of 10 miles	30

(vi) Hauling the cotton to the gin; and
(vii) Paying the pickers out of the contract price for picking received from the producer of the cotton.

(3) Extra Services: No extra charge may be made by a contractor for the performance of services other than those listed in sub-paragraph (2) above.

(c) *Prohibited prices.* All practices which are designed to obtain prices higher than the maximum price established in this order are prohibited, including, but not limited to the giving or offering of a bonus to a contractor by a cotton producer and the demanding or receiving of a bonus from a cotton producer by a contractor.

(d) *Record keeping.* Contractors who supply services subject to this order are required to keep the following records and make them available for inspection upon request to authorized officials of the Office of Price Administration and the United States Department of Agriculture.

(1) Name and address of producers to whom services subject to this order are supplied.

(2) Number of pounds of cotton picked for each producer.

(3) The amount per hundred pounds paid to pickers by the contractor and the field weights on which such payments were made.

(4) The amount of payment received from producers for services supplied pursuant to this order.

(e) *Definition and terms used in this order.* "Independent contractor", as used in this regulation, refers to a person who supplies or offers to supply all of the services listed in paragraph (b) (2) herein and who is generally referred to in the trade as a crew leader.

This order may be revoked, revised, or modified at any time by the Office of Price Administration.

This order shall remain in effect for a period of 90 days from the issuance hereof; however, this order may be continued in effect by amendment issued either prior to or after the expiration of the 90 day period.

The size of the knots and nail or bolt holes shall be considered in connection with the size of the piece, and in combination must not impair the strength of the lumber. It includes used lumber which has been manufactured to meet these specifications.

(2) "Second grade" is used lumber which fails to qualify as prime grade but is reasonably good construction lumber. It may contain loose knots, knot holes, and other defects which do not interfere with its use for construction purposes.

(3) "Region VIII" means the states of Washington, Oregon (except Malheur county), California, Nevada, Arizona (except those portions of Coconino and Mohave counties north of the Colorado River), and the following counties in the State of Idaho: Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone, and Idaho.

(d) Any seller who is equipped to remanufacture used lumber may apply to the Regional Office of the Office of Price Administration for authorization to make additions for ripping, resawing, and surfacing as provided by RMPR No. 539. Applications for such authorization must describe the seller's facilities for remanufacturing. Authorization, if granted, will be given by the Regional Administrator by written order.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, as Amended Sept. 11, 1945]

RESTRICTED PRIORITIES ASSISTANCE FOR NON-MILITARY PURPOSES

§ 944.49 *Priorities Regulation 28*—(a) *What this regulation does.* As a result of victory over Japan, military procurement has been drastically reduced. The supply of materials for non-military use is expected to increase rapidly so as to be generally adequate to meet all demands. There is consequently no further need for general priorities assistance for essential non-military needs, and WPB has announced in Priorities Regulation 29 the termination of AA ratings and the Controlled Materials Plan at the end of September. It is WPB's general policy not to grant further priorities assistance for non-military purposes. However, WPB is introducing

a new non-extendible CC rating for limited priorities assistance, where required in individual cases to assist reconversion or insure the continued fulfillment of essential civilian or export needs. This includes preference ratings for all purposes other than military procurement including production, construction, capital equipment, maintenance, repair, operating supplies, and export materials. This regulation explains the conditions under which WPB will assign the CC rating.

(b) *Other procedures for assigning ratings replaced.* Preference ratings for non-military purposes will be assigned from now on only in the way and under the conditions described in this regulation which supersedes previous procedures, such as Priorities Regulation 24, Direction 5 to Order L-41, and applications under CMP.

(c) *Applications*—(1) *How to apply for a CC rating.* Ordinarily, application for a CC rating under this regulation will be made on Form WPB-541A (revised) at your local field office. In a few cases, WPB may announce that a form other than WPB-541A (revised) may be provided. For instance, applications for textiles and related items for certain end uses should be made as explained in the orders in the M-317 series, and the M-328 series, and their schedules and directions.

(2) *WPB will return applications now on hand.* Since the surrender of Japan will make priorities assistance generally unnecessary, WPB will not process applications for preference ratings and allotments of controlled materials which have already been filed under old procedures, but will return them without action, except those requiring immediate emergency assistance. If you still need a preference rating, and if you can meet the conditions described in this regulation, you may file again.

(d) *When the WPB may assign a CC rating.* It is the general policy of the WPB not to grant further priorities assistance for non-military purposes. However, the WPB may in limited cases grant CC preference ratings for specific items and quantities of materials or equipment under the following conditions:

(1) The applicant is not able, without preference rating assistance, to get the item in the minimum quantity and on the latest date practicable, and the item is required for at least one of the following reasons:

(i) It is a "bottleneck item", a great majority of materials being obtainable without priorities assistance, and it is needed to maintain or begin operations at the minimum economic rate or to complete construction required for reconversion or other essential needs, or

(ii) The item is needed to prevent a delay in the completion on time of military production or construction, or

(iii) The item is needed to sustain or increase production of an item or a service which is in such tight supply that it is a serious threat to the economy, or

(iv) The item is needed to eliminate serious hazard to life, health, or safety of a large number of people, or to maintain essential public or other community services, or

(v) The item is needed in an emergency to remedy an actual or imminent breakdown or to replace an item which has been destroyed by flood, fire, tornado, or other Act of God, or

(vi) The item is needed for construction on a home to be occupied by a World War II veteran; and the application is made by the veteran. (In such cases, priorities assistance will be granted without a showing that the veteran is unable to get other suitable accommodations in accordance with the policy established by Congress in the Independent Offices Appropriation Act of 1946. Priorities assistance will be given to veterans who need it for other purposes if they meet the other conditions described in this paragraph (d),) or

NOTE: Subdivision (vii), formerly (vi), redesignated Sept. 11, 1945.

(vii) Where for other reasons, failure to obtain delivery of the item would result in unreasonable and exceptional hardship.

(2) Special consideration will be given to the needs of small business.

(3) WPB will not grant a CC rating in cases where it would preempt an undue proportion of the limited amounts available. If a material is in such short supply that it is generally hard to obtain, WPB may provide other procedures rather than a rating under this regulation.

(4) In addition to the above, CC ratings may be granted for textile and related items for certain uses as provided in orders in the M-317 series and the M-328 series, and their schedules and directions.

(f) *CC ratings for export*—(1) *In general.* In the case of materials for export (other than those textiles and related items referred to in paragraph (f) (2) below), applications from Canada will be handled on the same basis as United States applications. In the case of other exports, WPB will assign a CC rating to materials where it is demonstrated that a rating is necessary for procurement of materials in this country to prevent serious injury to the minimum essential civilian economies of friendly foreign nations or to obtain vitally needed supplies from foreign sources, or for other reasons of high public policy. Applications for such rating should be made to the Foreign Economic Administration on the forms prescribed by that agency.

(2) *Certain textiles and related items.* For exports, including shipments to Canada, of cotton broad woven fabrics for which set-asides are provided in the distribution schedules of Order M-317A, seine twine, fish netting, and cotton yarn, CC ratings may be granted, on specific applications only, to the extent of the export programs fixed by the WPB. Applications for such rating should be made to the Foreign Economic Administration, on the forms prescribed by that agency; except that for shipments to Canada applications should be filed with the Cotton Administrator of the Wartime Prices and Trade Board and will be acted on by the WPB.

Issued this 11th day of September 1945.

Recording Secretary.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 29, as Amended Sept. 11 1945]

REVISED PRIORITIES SYSTEM

§ 944.50 *Priorities Regulation 29*—(a) *What this regulation does:* This regulation describes the accelerated transition to a revised and simplified priorities system. The system previously announced in Priorities Regulation 29 to take effect on January 1, 1946 was designed to insure the continuing production of military and other essential requirements for the Japanese war. Victory over Japan has reduced military requirements to such an extent that the previously announced system is no longer appropriate. There are four principal features of the modified system as explained in this regulation: (1) the new system will become fully effective on October 1 instead of January 1 as originally announced; (2) WPB is introducing a new nonextendible "CC" preference rating which will be used in individual cases to assist reconversion and insure the continued fulfillment of essential civilian and export needs; (3) the MM rating originally introduced for military use will be continued for the time being to support the requirements of the occupation forces and other continuing military needs; (4) Priorities Regulation 30, which provided for direct assignment of MM ratings by WPB under certain circumstances, has been revoked. There will also be changes in other orders and regulations of the WPB. It may not be practicable to make all such changes before this regulation is published and if there is any inconsistency between this regulation and any other regulation or order of the WPB, this one controls unless the other expressly states the contrary.

(b) *General description of new rating system.* The present system of AA ratings (AA-1, AA-2, AA-2X, AA-3, AA-4 and AA-5) and the Controlled Materials Plan will be discontinued on September 30, 1945 and will be replaced by the following:

(1) The AAA rating will still be assigned in emergencies as under existing procedures.

(2) The new MM rating will be assigned by the Army and Navy and other military agencies. WPB Directive 41 and other WPB Directives will explain the rules governing the assignment of ratings by those agencies. The WPB will not generally assign the MM rating directly to manufacturers, and Priorities Regulation 30 which was issued for that purpose has been revoked. In a few instances, the WPB may assign MM ratings directly for specific items and quantities of materials or equipment, but this will be done only where it is clearly necessary for requirements of high urgency. Do not apply to WPB for an MM rating unless it is specifically announced by a direction to this regulation or other formal action of the WPB that WPB will assign it.

(3) The new CC rating will be assigned as described in Priorities Regulation 28. That regulation describes the limited conditions under which WPB may assign the CC rating for any purpose, except actual military procurement. The new CC rating is not extendible except as explained in paragraph (g) (2) at the end of this regulation, and in Priorities Regulation 3.

(4) The rules for the acceptance and filling of rated orders and the use of ratings are the same for the MM and CC ratings as for ratings in the AA series, except as otherwise stated in this regulation or other orders and regulations of the WPB. During the period from July 1 through September 30, the MM rating is equivalent to AA-1, and the CC rating is equivalent to AA-2.

(5) [Deleted Sept. 11, 1945.]

(c) *Expiration of AA ratings.* (1) The AA rating system remains effective as to deliveries between now and the end of September, 1945.

(2) Effective immediately, all preference ratings in the AA series are cancelled on purchase orders calling for delivery after September 30. Suppliers must disregard any AA ratings on purchase orders for delivery after September 30 which they have received or which they may receive, and must treat such orders as unrated. However, in the case of textile and related items covered by Schedule A of Order M-328, AA ratings on purchase orders for delivery after the end of September remain valid through September 30, 1945. After that time, AA ratings for textile and related items shall expire, and orders bearing AA ratings must be treated as unrated unless a specific new rating of AAA, MM or CC is received.

(3) WPB will discontinue immediately the assignment of AA ratings for delivery after September 30.

(4) Orders bearing AA ratings identified as military orders will not be automatically re-rated MM as previously provided in this regulation. Most of them have already been unrated, as explained in Direction 1 to this regulation. Other military orders with AA ratings which call for delivery after September 30 must be treated as unrated orders in the same way as all other orders bearing ratings in the AA series. Some orders may be specifically re-rated MM or CC, but a supplier must not assume that this will be done and must treat the orders as unrated unless a specific re-rating is received.

(d) *End of Controlled Materials Plan.* (1) On October 1, the Controlled Materials Plan and all regulations and directions issued under it (except inventory restrictions) will automatically expire, including directions or directives issued before August 21, 1945, to individually named controlled materials producers, warehouses, or distributors.

(2) Until the end of September, deliveries of controlled materials will continue to be regulated by the Controlled Materials Plan alone and not by ratings. However, an order for controlled materials rated AAA, MM, or CC is to be treated as an authorized controlled material order.

(3) Effective immediately, all fourth quarter and subsequent allotments of controlled materials are cancelled. Controlled material producers and warehouses must treat every authorized controlled material order for fourth or subsequent quarter delivery as an unrated order, unless it is specifically re-rated AAA, MM or CC.

(4) Authorized controlled material orders identified as military orders will not be automatically re-rated MM as previously provided in this regulation. Most of them have already been unrated as explained in Direction 1 to this regulation. Other authorized controlled material orders which call for delivery after September 30, must be treated as unrated orders in the same way as all other authorized controlled material orders. Some orders may be specifically re-rated MM or CC, but a supplier must not assume that this will be done and must treat the orders as unrated unless a specific re-rating is received.

(e) *Maintenance, repair and operating supplies.* (1) CMP Regulations 5 and 5A and the P and U orders assigning priorities assistance for maintenance, repair and operating supplies will remain in effect through September 30 at which time they will expire.

(2) Under the new rating system, after September 30, ratings will not be given for maintenance, repair and operating supplies on a blanket basis similar to CMP Regulations 5 and 5A and the present P and U orders.

(f) *Construction, facilities and equipment.* (1) CC ratings for construction material, facilities and equipment will be assigned by WPB under the conditions described in Priorities Regulation 28, instead of Priorities Regulation 24, which has been revoked, and Direction 5 to Order L-41.

(2) Military agencies will assign the MM rating for certain construction, facilities and equipment, required for military prime and subcontracts as described in the appropriate WPB Directives. Application for these ratings should be made on Form WPB-542 to the appropriate military agency. In a few cases, the WPB may assign the MM rating for construction where it is clearly necessary for requirements of high urgency. Do not apply to WPB for an MM rating for construction unless WPB has specifically announced that it will assign such rating.

(g) *Extension of customers' ratings*—(1) *MM ratings.* The rules of Priorities Regulation 3 as to extension of customers' ratings apply to MM ratings in the same way as to AA ratings. Manufacturers of Class B products and unclassified products who receive their production material ratings from the WPB and are forbidden by CMP Regulation 3 and Priorities Regulation 11B to extend their customers' ratings, may nevertheless extend customers' MM ratings for delivery after September 30 as explained in Priorities Regulation 3.

(2) *CC ratings.* The CC rating cannot be extended by a supplier to get production materials needed to make the item sold to his customer, or to replace in inventory materials used to make the item. A distributor, warehouse, retailer or other person who resells the item without further fabrication may extend the CC rating where he does not have the item in inventory, but may not extend the rating to replace the item in inventory.

A textile converter receiving a CC rating from his customer for finished fabric may extend the rating to get the gray fabric (including the portion of it which would normally be consumed or converted into scrap or by-product in the course of processing) which he will deliver in finished state on that order, or to replace in inventory fabric used to fill the order. However, if after delivering the material he still has a practicable working minimum inventory he may not extend the CC rating to replace the material delivered; and if by making the delivery his inventory is reduced below this minimum, the CC rating may be extended to get only the amount necessary to restore the inventory to a practicable working minimum. Any material ordered to replace inventory must be substantially the same (except for the finishing) as the material which the person delivered, except for minor variations in construction.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M–328B, Schedule C, as Amended Sept. 12, 1945]

SPECIAL PROGRAM FOR COTTON FABRICS FOR CIVILIAN APPAREL ITEMS

§ 3290.120c *Schedule C to Order M–328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in Order M–328B for manufacturers of civilian apparel made of cotton fabric to get an AA–3 preference rating for fabric to make the items listed in this schedule.

(b) *Definitions.* (1) "Fabric", unless otherwise designated, means a woven fabric twelve inches or more in width.

(2) "Cotton fabric" means any fabric containing less than 25% wool by weight, but of which the remaining fibers are 50% or more cotton by weight.

(3) "Cotton item" means an item of which more than 50% of the fabric yardage incorporated in it, exclusive of linings, bindings and trimmings, is cotton fabric.

(4) "Base period manufacturer" and "base period" mean the same as they do in M–328B except that a person who did not manufacture an item listed in this schedule during the base period at or below the maximum price set forth in the schedule shall not be a base period manufacturer.

(c) *Requirements for obtaining priorities assistance.* (1) Three copies of form WPB–3732 must be filed in making application for priorities assistance under this schedule in accordance with the rules stated in paragraph (c) of Order M–328B, except that for the fourth quarter of 1945 applications shall be postmarked not later than September 5, 1945.

(2) A person who has received a rated quota under Order M–388A pursuant to an application on Form WPB–4200 who files Form WPB–3732 (revised) for the third calendar quarter of 1945 by July 21, 1945, may, as soon as he files his application, apply an AA–3 rating for the purchase of cotton fabrics for delivery in that quarter for incorporation into the cotton items for which application is made. He may do so only for an item he made in the base period and only for 15% of his rated quota under M–388A with respect to any item. Cotton fabrics purchased under this provision shall be deducted by the manufacturer from the total quantity for which priorities assistance is ultimately granted on form WPB–3732 (revised). If the applicant does not ultimately receive a grant of the entire quantity thus rated, he shall, upon notification of his grant by the War Production Board, immediately cancel orders for any undelivered quantities which are in excess of his grant.

(3) A manufacturer receiving an allocation for an item under this schedule for a quarter must subtract from his rated quota for that item under Order M–388A for that quarter, the total yardage of fabrics for which priorities assistance is granted under this schedule to determine the quantity of fabrics which he may purchase with an AA–4 rating under his M–388A rated quota. If the quantity of fabrics for which an AA–3 rating is authorized for an item under this schedule is in excess of his AA–4 rated quota in M–388A, the manufacturer may not use an AA–4 rating under M–388A for that item.

(4) A manufacturer who files Form WPB–3732 for the fourth quarter of 1945 by September 5, 1945, may, as soon as he files his application, apply an AA–3 rating for the purchase of cotton fabric for delivery in that quarter for incorporation into the items for which application is made. He may do so only for an item he made in the base period at or below the price shown in the preference rating schedule or for which he received an allocation under this schedule, for the third quarter of 1945, and only for one-third of the yardage of fabric consumed in the production of that item during the base period or 50% of the yardage allocated to him by the War Production Board for the third quarter, whichever is smaller. Fabric purchased under this provision shall be deducted by the manufacturer from the total quantity for which priorities assistance is granted pursuant to his application on Form WPB–3732. If the applicant does not receive a grant of the entire quantity thus rated he shall upon notification of his grant by the War Production Board immediately unrate or cancel orders for any undelivered quantities which are in excess of his grant.

Manufacturers who did not produce in the base period the items applied for on Form WPB–3732 at or below the price shown in the preference rating schedule, or who do not receive an allocation for them under this schedule for the third quarter of 1945, may not use any ratings under this schedule for the fourth quarter of 1945, until the War Production Board has assigned them a quota.

(5) *Provisions in case of governmental cut-backs.* At any time during any calendar quarter a manufacturer who has received cancellations or cut-backs on military contracts or orders placed by any agency of the U. S. Government, or who during the quarter has production facilities made available, may apply to the War Production Board on Form WPB–3732 for priorities assistance to manufacture items listed in this schedule. Such applications will be approved to the extent of available materials and the need for additional production of the items applied for.

(6) When a fabric is removed from the fabric column for any item, each manufacturer must immediately cancel or unrate any unfilled orders for that fabric which he placed with ratings assigned under this Schedule for that item.

(7) Whenever a fabric is added to a Preference Rating Schedule for any item, an applicant who has filed WPB–3732 for that item need not file a new application, but may send a letter to the War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., requesting authorization to use the new fabric in place of or in addition to fabrics previously applied for. Where the change is only in the sley of the fabric, the authorization to be issued by the War Production Board will give effect to such change and no letter is required. The letter must specify the item number, the description of the item, the complete description of all of the authorized fabrics which the applicant wishes to use during the quarter and the number of linear yards of each fabric for which priorities assistance is requested. Such letters should be mailed within five days of the issuance date of an amendment incorporating additional fabrics for an item.

(d) *General provisions.* (1) Preference ratings assigned under this schedule may be used only to get the particular cotton fabrics shown in the fabric column of the preference rating schedule to make the cotton items specified.

(2) The fabrics must be incorporated into an item produced for sale by the manufacturer at or below the lower of the following two prices:

(i) The price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration; or

(ii) The price specified in the Maximum Price column.

(3) If applications are received for fabric in excess of the amount of fabric which can be allocated to any item, allocations will be assigned in proportion to the manufacturer's base period production of that item. However, an equitable portion of available fabrics will be allocated to applicants who did not produce the items in the base period. If the quantity of a specific construction of fabric is requested in excess of the quantity of that construction which is available for allocation under this schedule the War Production Board may substitute other fabrics for the fabrics applied for taking into account the price of such fabrics with relationship to the price at which the manufacturers will sell the finished item.

(4) A manufacturer who is not a base period manufacturer must comply with the provisions of paragraph (c) (6) of M–328B.

(5) The quantity of cotton fabric which may be applied for by a base period manufacturer, for making an item in each price specified in his application, may not be greater than 100% of the linear yardage used by him in the base period for making that item at such specified price; except that a manufacturer may apply for a larger quantity of an item at a lower price if he decreases the quantity of an item applied for at a higher price by the same number of units.

(6) Additional priorities assistance may be given for the procurement of cotton narrow woven selvage edge tape needed for incorporation into the number of units for which priorities assistance is granted. Requests for this additional priorities assistance shall be made on Form WPB–3732 separately for each item for which application is made.

(7) Manufacturers who did not manufacture an item in the base period must produce the item in the size assortments listed opposite each item in the size assortment column. Where normal industry practice appears, the manufacturer should state his proposed sizes in the remarks section of Form WPB–3732 (revised). If his application is granted, he must comply with these size assortments.

Issued this 12th day of September 1945.

PART 4600—RUBBER, SYNTHETIC RUBBER AND PRODUCTS THEREOF

[Rubber Order R–1, Amdt. 7 to Appendix II, as Amended May 30, 1945]

Appendix II, Manufacturing Regulations, as amended May 30, 1945, is hereby further amended in the following particulars:

1. By deleting List 1, *Regulations for the Tire and Tube Production Pattern.*

2. By changing List 8, *Regulations for the Manufacture of Tires and Tire Casings (Except Airplane and Bicycle Tires)*, to read as follows:

LIST 8—REGULATIONS FOR THE MANUFACTURE OF TIRES AND TIRE CASINGS (EXCEPT AIRPLANE AND BICYCLE TIRES)

(a) *General provisions.* (1) The natural rubber content of any tire or tire casing governed by this List 8 shall not include processing losses or natural rubber used in curing bags.

(2) No natural rubber latex shall be consumed in the cord treatment. Dispersions of natural rubber may be used for cord treatment and the amount of natural rubber solids so consumed shall be included in the maximum content natural rubber permitted for each tire.

(3) The use of rayon in the manufacture of tires and tire casings governed by this List 8 shall conform to the regulations set forth in List 15, Appendix II.

(4) Fewer plies of 2200 denier rayon cord may be used than specified for standard cord provided "ply rating" as defined by current Tire and Rim Association standards is not reduced. The same permitted "maximum content natural rubber" shall remain in effect.

(5) Only 100 level tires as commonly known to the tire industry may be manufactured in any size, ply and type, and that grade must be consistent with maintaining a quality adequate for the service for which the tire is designed. All types of pneumatic tires shall be manufactured with black sidewalls only.

(6) Where "Mud-snow" type tread is designated in this List 8, tires with either directional or non-directional (ND) tread designs may be manufactured.

(7) Single marked high pressure type tires or single marked balloon type tires may be substituted for dual marked type tires.

(b) *Manufacturing regulations.* (1) Pneumatic tires of any size, ply and tread type may be manufactured provided that they conform to the regulations for S–3 synthetic construction tires in List 6, Appendix II.

(2) Solid tires (except bogie, idler and support rollers), including cured-on solid tires, 4" x 1½" up, and lug base industrial (unbonded) type may be manufactured: Provided, that:

Natural rubber is consumed only as follows:

Hard rubber base type. Natural rubber shall be consumed only in cements and or hard base and shall not exceed, by weight, ten percent of the total RHC.

Tie-gum base (soft base) type. Natural rubber shall be consumed only in cement and or tie gum and shall not exceed, by weight, eight percent of the total RHC. Individual sizes may exceed the eight percent maximum, *Provided*, That, the average natural rubber content of all sizes does not exceed the eight percent maximum.

Lug base industrial (unbonded) type. Natural rubber shall be consumed only in cements and/or splicing gum and shall not exceed, by weight, .75 percent of the total RHC. Individual sizes may exceed the .75 percent maximum, *Provided*, That, the average natural rubber content of all sizes does not exceed the .75 percent maximum.

(3) The manufacture of tires and tire casings consuming more natural rubber than permitted by paragraph (b) (1) and (b) (2) of this List 8 shall be limited to the sizes, plies and tread types listed in this paragraph (b) (3), subject to the maximum natural rubber contents or construction designated therefor.

(c) *Branding of tires.* (1) All synthetic rubber tires or tire casings manufactured to fill either Civilian or Government orders shall have a colored dot, either circular or rectangular (with or without rounded corners or ends) and with an average effective dimension of at least one inch, vulcanized on both sides of the tire, appropriate color to be determined from paragraph (c) (2) of List 6. In addition, all synthetic rubber pneumatic tires or tire casings shall bear, on both sides of the tire and in characters at least five-eighths inch high, a brand showing the appropriate synthetic construction identification. The colored dot and the brand shall be permanent and may be superimposed if desired. The color dot and synthetic construction identification may be smaller than the designated minimum on sizes of tires for which the designated minimum is unreasonably large.

(i) Natural rubber and natural rubber latex may be consumed only in valves (where permitted in List 16), valve adhesion pads, splicing gum strips and cements, and identification inks and cements.

(ii) Passenger car tubes of all types shall contain not more than .02 pound of natural rubber per tube.

(2) The manufacture of tubes consuming more natural rubber than permitted by paragraph (a)(1)(i) of this List 9 is prohibited.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–690, Revocation]

BORIS LIPKIN

Boris Lipkin, 2300 South Adams Street, Peoria, Illinois, was charged with beginning unauthorized construction on a farm of 487 acres near Mackinaw, Illinois, in the vicinity of Peoria, Illinois, which exceeded the limit of $1,000.00 permitted by Conservation Order L–41. This construction was as follows: A new hen house, a new garage attached to new hen house, a new hog house, a new sheep shed on the rear of the barn, and new and extensive cement driveways. Suspension Order No. S–690 was issued against Boris Lipkin on January 12, 1945. In view of the fact that Conservation Order L–41 as amended on September 7, 1945, places no limit on farm construction (exclusive of farm houses), the Chief Compliance Commissioner has directed that the suspension order be revoked.

In view of the foregoing:

It is hereby ordered, That: Suspension Order No. S–690 be revoked, effective September 12, 1945.

Issued this 12th day of September 1945.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 1, Direction 16, as Amended Sept. 13, 1945]

REPLACEMENT OF DEFECTIVE CONTROLLED MATERIAL

The following direction is issued pursuant to CMP Regulation No. 1 (§ 3175.1) to all controlled materials producers providing for the replacement of material rejected by a customer because of nonconformity with specifications.

STEEL

(1) When steel is rejected by a customer for non-conformity with specifications, or other defect, the producer must schedule and make replacement in preference to all other orders for similar material, without requiring an additional allotment, in the absence of specific written instructions by the War Production Board or the customer to the contrary. The provisions of paragraphs (t) (4) and (t) (5) of CMP Regulation No. 1 shall not restrict delivery of replacement orders.

(2) [Deleted Sept. 13, 1945.]

(3) [Deleted Sept. 13, 1945.]

(4) Deleted Feb. 1, 1944. (The deletion of this paragraph means that beginning February 1, 1944 the rules stated above apply equally to replacement orders for stainless steel.)

COPPER

(1) Copper produced to fill authorized Controlled Material orders and rejected by a customer for nonconformity with specifications shall be replaced in preference to all other orders in the absence of specific instructions by the Copper Division of the War Production Board to the contrary. The provisions of subparagraphs (4) and (5) of paragraph (t) of CMP Regulation No. 1 shall not restrict delivery of replacement orders.

(2) Such replacements shall be made without requiring the extension of an additional allotment, even though delivery of the material is made in a subsequent quarter. If, however, some of the material cannot be replaced in time to meet a War Production Board production schedule or the delivery requirements of the producer's customer, the producer shall immediately notify the Copper Division in writing, giving a full explanation. The customer may receive the replacement copper without making further charge to an allotment, even if the copper is delivered in a subsequent quarter

(3) [Deleted Sept. 13, 1945.]

ALUMINUM

(1) Replacement orders for rejected aluminum shall be filled in preference to all other orders not in actual production on the day of the receipt of the replacement order. The provisions of subparagraphs (4) and (5) of paragraph (t) of CMP Regulation No. 1 shall not restrict delivery of replacement orders.

(2) Replacement orders for rejected aluminum are deemed to be covered by the same authorized controlled material order or other authorized order against which the rejected shipment was made. Accordingly, the producer shall not require an additional allotment or other authorization from his customer to secure replacement material if the original shipment was made in accordance with applicable regulations and directives even though delivery of the material is made in a subsequent quarter. The customer may receive the replacement aluminum without making further charge to an allotment, even if delivered in a subsequent quarter.

(3) [Deleted Sept. 13, 1945.]

GENERAL PROVISIONS

(1) Rejected steel, copper or aluminum may be used or disposed of without restriction subject to inventory restrictions and any other regulations of WPB.

Issued this 13th day of September 1945.

8. Section 4 (a) (1) is amended by adding the following: "If he has not received a delivery of the item before September 11, 1945, his maximum price for a sale of the item shall be the maximum price established under this regulation for the sale of the same item to the same class of purchaser by his most closely competitive seller of the same class."

class of purchaser by his most closely competitive seller of the same class."

11. Section 4 (c) (1) is amended by adding the following: "If he has not received a delivery of the item before September 11, 1945, his maximum price for a sale of the item shall be the maximum price established under this regulation for the same item to the same class of purchaser by his most closely competitive seller of the same class."

12. Section 4 (c) (2) is amended by adding the following: "If he has not received a delivery of the item before September 11, 1945, his maximum price for a sale of the item shall be the maximum price established under this regulation for the sale of the same item to the same class of purchaser by his most closely competitive seller of the same class."

13. The table of prices set forth in section 4a is amended by deleting the words "except brixnuts" following the word "Large."

14. Section 5 is hereby revoked.

15. Section 8 (a) (2) is amended to read as follows:

(2) "Country dealer" means a person who buys in the producing area the kind of edible tree nuts being priced in raw unshelled condition (either graded or not) for resale in substantially the same form. It includes, for example, persons furnishing services as handlers known in the trade as "accumulators" and "itinerant truckers."

16. Section 8 (a) (8) is amended to read as follows:

(8) "Wagon wholesaler" means a person who purchases the kind of edible tree nuts being priced and sells them, by periodically running definitely established routes, to retailers or to commercial, industrial or institutional users from an inventory stocked in trucks or other conveyances under the supervision of driver-salesmen who make delivery at the time and place of sale.

17. Section 10a is added to read as follows:

SEC. 10a. *Individual authorization of maximum prices.* If a seller cannot otherwise determine his maximum price for an item of edible tree nuts under the pricing methods given elsewhere in this regulation, before delivering the item to any purchaser, he shall apply to the Office of Price Administration, Washington, D. C., for a maximum price. His application shall set forth:

(a) A description in detail of the item for which a maximum price is sought, including its grade and brand name (if any) to be used, the number of packages in each shipping case, and a statement of the facts which make it different from the most similar item for which he has determined a maximum price, identifying the similar item and stating its maximum price;

(b) 1 An itemized current cost breakdown of the item to be priced, showing separately, according to his own system of accounts or regularly prepared operating statements, all major component cost factors (e. g., direct costs, such as ingredients, packaging materials and direct labor; indirect costs, such as indirect labor, additional factory overhead and selling, advertising and administrative cost, together with an explanation showing the method of allocation of the indirect cost factors; and average outbound cost transportation (if sold on a delivered basis)) indicating whether each cost item is an actual or an estimated cost; and

2 An identical current cost breakdown of the most closely similar or comparable food product (if any) which contributes substantially to his total volume of business;

(c) The proposed maximum price for the item, including a statement showing any discounts or allowances which should be made applicable to the proposed price, and (for comparison) the maximum prices in sales to each class of customer sold, for the second product included in paragraph (b) 2 of this section, including a list of his customary discounts, transportation and other allowances and price differentials;

(d) The method of distribution to be employed by the seller in marketing the item (i. e., whether it is to be sold to wholesalers, wagon wholesalers, retailers, consumers or other classes of purchasers);

(e) In furnishing the information required in this section, concerning maximum prices, both established and desired, the seller shall include the f. o. b. point of the price; if the sale is made on a delivered basis, he shall likewise include the average outbound transportation.

Upon receipt of the application, the Price Administrator will authorize a maximum price, or a method of determining a maximum price, for the applicant or for the sellers of the item generally, including purchasers for resale or for a class of such resellers. The maximum price authorized will be one which bears a proper relationship to those for comparable commodities and sellers. Separate maximum prices will be authorized for sales to government procurement agencies.

After filing the application, the seller may deliver the item, but he may not receive payment for it until a maximum price is authorized.

Where any cost factor set forth in the application is an estimated amount, the processor shall file with the Office of Price Administration, Washington, D. C., not earlier than three months nor later than six months after a maximum price has been authorized, a statement showing the actual cost factor in his production of the item since the maximum price was authorized.

If the seller fails to apply for a maximum price under this section, when required to do so, the Price Administrator may authorize a maximum price for his sales of the item bearing a proper relationship to those for comparable commodities and sellers. This will not relieve the seller of his obligation to comply with this section or with any other provision of this regulation, nor will it relieve him of any penalty for failure to do so.

Any maximum price established under this section shall be subject to revision at any time by the Office of Price Administration.

"Most closely similar or comparable commodity" means a food product, covered by this regulation (1) whose current "direct cost" is closest to but not less than two-thirds of the "direct cost" of the item being priced; and (2) for which the methods employed in its sale and merchandising are similar to those which will be used in the sale and merchandising of the item being priced. As between two or more such commodities having the same "direct cost," the one whose maximum price represents the smallest percentage of its "direct cost" shall be used.

This amendment shall become effective September 11, 1945.

Issued this 11th day of September 1945.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

CHESTER BOWLES,
Administrator.

Approved: September 10, 1945.

PART 1358—TOBACCO

[MPR 260 [1], Amdt. 14]

CIGARS, CIGAR CUTTINGS AND CLIPPINGS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation 260 is amended in the following respects:

1. Section 1358.102 (a) (8) is amended to read as follows:

(8) A manufacturer who has received an adjustment in his average retail price ceiling pursuant to paragraph (c) (3) below, may apply for an adjustment of the maximum list and maximum retail prices established by this regulation for any one or more brands and sizes of domestic cigars manufactured by him which he sold in March, 1942. Applications shall be made by letter to the Office of Price Administration, Tobacco Section, Washington, D. C., signed by the manufacturer or his authorized agent, setting forth:

(i) The manufacturer's name and address, and the name and title of the person signing the application.

(ii) The brands and sizes of domestic cigars which are the subject of the application, three samples of each shall be enclosed.

(iii) The manufacturer's March, 1942, list price and March, 1942, stated retail price for these cigars.

(iv) The length and ring gauge of each such domestic cigar, and the number of pounds and kind of weight of each type number and grade of filler, binder and wrapper leaf tobacco used in making that cigar.

(v) A list showing each brand and size of domestic cigar manufactured by the applicant which he sold in March, 1942, with his present maximum list and stated retail prices for each such cigar (determined as provided in this paragraph (a)).

(vi) A list showing each brand and size of new domestic cigar manufactured by the applicant for which maximum list and retail prices have been established by order of the Price Administrator pursuant to paragraph (b) below, the date of each such order and the prices established for each such cigar.

The Price Administrator may by order grant or deny, in whole or in part, the adjustment requested. No adjustment shall be granted under this subparagraph (8) if any cigar listed in the application under items (v) and (vi) above has a maximum retail price which exceeds the average retail price ceiling established for the applicant by order of the Price Administrator pursuant to paragraph (c) (3) below. Any adjustment granted under this subparagraph (8) shall be limited to an amount (or amounts) which will bring the maximum list and retail prices in line with industry average prices for domestic cigars of similar size, shape and tobacco content.

2. Section 1358.102 (c) is amended to read as follows:

(c) *Manufacturers' average retail price ceilings*—(1) *Requirement that average retail price ceiling be maintained.* A manufacturer of domestic cigars may sell any quantity of a particular brand and size of domestic cigars, the maximum list and maximum retail prices of which are properly established under this regulation; *Provided*, That, except as otherwise provided in subparagraph (6) below, the weighted average retail price of all domestic cigars manufactured by him which he sells tax paid during the calendar quarter beginning January 1, 1945, or during any calendar quarter thereafter, shall not exceed his average retail price ceiling for that quarter determined in accordance with subparagraph (2), (3) or (5) or paragraph (d) below.

NOTE: For the purpose of this subparagraph (1) and subparagraphs (4) and (6) below, if a manufacturer maintains one or more distribution outlets separate and distinct from his manufacturing premises and his storage facilities, all transfers tax-paid to such distribution outlets from such manufacturing premises or storage facilities during any given quarter shall be included in his sales for that period; however, sales made from such distribution outlets during that period shall be excluded from his sales for that period.

(2) *Determination of average retail price ceilings.* Each manufacturer of domestic cigars shall determine his average retail price ceiling in accordance with any applicable provision set forth in subdivisions (i) (ii) (iii) or (iv) below.[1]

(i) *Manufacturers who sold domestic cigars in the first half of 1943 which they sold in March 1942.* If he manufactured and sold domestic cigars during March 1942, the manufacturer shall establish his average retail price ceiling by completing OPA Form 635-2077, shown in Appendix E (or copies of that form made by the manufacturer), and filing the completed form, in duplicate, with the Office of Price Administration, Tobacco Section, Washington, D. C. Printed copies of that form may be obtained, on request, from the National Office, or from any Regional or District Office of the Office of Price Administration. If the manufacturer had alternative March 1942 stated retail prices for a brand and size of domestic cigars sold by him in that month, the lowest of the alternative prices shall be used. If the manufacturer had no March 1942 stated retail price for a brand and size of domestic cigars sold by him in that month, he shall use as his March 1942 stated retail price for those cigars the amount ascertained by multiplying his March 1942 list price per thousand for them by the appropriate factor indicated below and dividing the resulting total by 1.000.

March 1942 list price:	*Multiplying factor*
$74 per thousand or less	1.25
More than $74, but less than $114 per thousand	1.33
$114 per thousand or more	1.30

In determining an average retail price ceiling under this subdivision, the manufacturer shall disregard brands and sizes of domestic cigars manufactured and sold by him in the first half of the calendar year 1943, but not manufactured and sold by him in March 1942.

(ii) *Manufacturers who sold new domestic cigars in the first half of 1943 and who are not required to use (iii) below.* Unless required to use subdivision (iii) below, any manufacturer of domestic cigars who was in business for 30 or more consecutive days during the period from January 1 through June 30, 1943, and who sold during that period one or more sizes and brands of new domestic cigars manufactured by him, may establish his average retail price ceiling, or at his option amend his average retail price ceiling previously established prior to September 24, 1945, under this regulation, by filing in duplicate, on or before December 1, 1945, with the Office of Price Administration, Washington, D. he sold during that period any new domestic cigar manufactured by him which he has not sold at any time since January 1, 1945, for which cigar he did not establish a maximum retail price by filing the report required by former § 1358.102 (e) of this regulation, in effect during that period.

(iii) *Manufacturers who during the first half of 1943 sold new domestic cigars but who during such period did not sell any March, 1942, brands.* Any manufacturer of domestic cigars, to whom apply the conditions set forth in subdivisions (a) through (f) below, must establish his average retail price ceiling, or amend his average retail price ceiling previously established pursuant to this paragraph (c), by filing in duplicate, on or before December 1, 1945, with the Office of Price Administration, Washington, D. C., OPA Form 635–2077 (or a copy of that form) completed in accordance with the instructions set forth in footnote 2 to subdivision (ii) above.

(a) He was in business for 30 or more consecutive days during the period from January 1 through June 30, 1943; and

(b) He did not sell during that period any cigar manufactured by him which he also sold during March, 1942, and

(c) He sold during that period one or more new domestic cigars manufactured by him; and

(d) A maximum retail price has been established by order of the Price Administrator, pursuant to paragraph (b) of this section, for each new domestic cigar manufactured by him which he sold both during that period and at any time since January 1, 1945; and

(e) He established, by filing the report required by former § 1358.102 (e) of this regulation, a maximum price for each new cigar manufactured by him which he sold during that period but has not sold at any time since January 1, 1945; and

(f) No average retail price ceiling has been established for him by order of the Price Administrator pursuant to subparagraph (3) of this paragraph (c) or paragraph (d) below.

(iv) *For certain other manufacturers (including all who commenced business after June 1, 1943).* A manufacturer who is neither establishing (or amending) his average retail price ceiling pursuant to any of subdivisions (i), (ii), or (iii) above, and for whom no average retail price ceiling has been established by order of the Price Administrator pursuant to subparagraph (3) below, shall establish his average retail price ceiling, or amend his average retail price ceiling previously established pursuant to this paragraph (c), as provided in subdivisions (a) and (b) below.

However, any manufacturer who, prior to this amendment, established his average retail price ceiling by reference to Appendix G as contained in Amendment 10 to this regulation, may continue to use his average retail price ceiling so established until January 1, 1946.

(a) *Definitions of Class I and II manufacturers.* A manufacturer of cigars is a Class I manufacturer if fifty percent or more of the domestic cigars which he produces annually are both bunched and rolled by automatic machine. Any other cigar manufacturer is a Class II manufacturer.

(b) *For new Class I manufacturers.* If he is a Class I manufacturer (defined in subdivision (a) above), he shall make a written application in duplicate to the Office of Price Administration, Tobacco Section, Washington, D. C., on or before December 1, 1945, or ten days prior to the date of his first sale of domestic cigars manufactured by him, whichever is later. Such application shall show the location of each of his factories, the date on which he commenced (or intends to commence) operations, the total number of domestic cigars (if any) manufactured by him in the year preceding the date of his application and the total number of such cigars which were both bunched and rolled by automatic machine. On receipt of such application, the Price Administrator will, by order or amendment, establish, or provide a method for establishing, the average retail price ceiling for such manufacturer.

(c) *For new Class II manufacturers.* If he is a Class II manufacturer (defined in subdivision (a) above) and manufactures domestic cigars in one cigar factory, or in two or more cigar factories all located within a single Internal Revenue Collection District, his average retail price ceiling shall be the amount listed in Appendix G for that Internal Revenue Collection District. If he is a Class II manufacturer and manufactures domestic cigars in two or more cigar factories located in two or more Internal Revenue Collection Districts, his average retail ceiling price shall be the smallest of the amounts listed in Appendix G for those Internal Revenue Collection Districts. A manufacturer establishing his average retail price ceiling under this subdivision shall make a written report in duplicate, showing the location of each of his factories, the date on which he commenced (or intends to commence) operations, the total number of domestic cigars (if any) produced in the year preceding the date of his application, the number of these which were both bunched and rolled by automatic machine, and the amount of his average price ceiling determined pursuant to this subparagraph. He shall file this report in duplicate with the Office of Price Administration, Tobacco Section, Washing. D. C., on or before December 1, 1945, or ten days prior to the date of his first sale of domestic cigars manufactured by him, whichever is later.

(3) *Adjustments of average retail price ceilings.* A manufacturer who is unable to maintain his average retail price ceiling determined under subparagraph (2) above or subparagraph (5) below and earn a net operating profit (before taxes on income) of 4.5 percent of his dollar net sales (Dollar net sales, for the purpose of this amendment, must be interpreted as meaning sales of all cigars sold during the period at manufacturers' list price, less discounts allowed and returns and allowances. Such sales shall not include transfers to distribution centers, but shall include sales made from those distribution centers.) may apply to the Price Administrator for an adjustment of his average retail price ceiling. Such application shall be filed in duplicate with the Office of Price Administration, Tobacco Section, Washington, D. C., and shall be signed by the manufacturer or his authorized agent. It shall contain:

(i) Applicant's name and address, and the name and title of the person signing the application.

(ii) A statement setting forth separately as to intended use (filler, binder or wrapper) the weight and kind of weight of each grade of each type number of tobacco held in inventory on January 2, 1945, by the applicant.

(iii) Applicant's operating and profit and loss statements (prepared according to his usual system of accounting) for the period from January 1 through June 30, 1945.

(iv) Applicant's statement of cigars sold during the above accounting period, setting forth (a) the total number of cigars sold by retail sales price, separated between domestic tax paid and tax free cigars, and (b) rates of discounts allowed on each price group.

(v) The brand name, front mark or size, length and ring gauge of each domestic cigar manufactured by applicant during the period from January through June 30, 1945, showing the percentage of each grade of each type number of tobacco used as filler, binder and wrapper in making each such cigar, and the total number and method of manufacture of cigars of each brand name and front mark or size produced during the period from January 1 through June 30, 1945.

(vi) Applicant's average retail price ceiling and the date on which he established or last amended that average retail price ceiling pursuant to subparagraph (2) above, or the date of the order issued by the Price Administrator pursuant to paragraph (d) below, establishing such average retail price ceiling.

After receipt of the application, and if any further information or evidence considered necessary and requested for purposes of determining the propriety of an adjustment, the Price Administrator will, by order, grant or deny, in whole or in part, the adjustment requested. Any adjustment granted may be limited as to time. An order granting or denying an adjustment may be revoked or modified by the Price Administrator at any time. Adjustments granted under this subparagraph shall be limited to an amount found by the Price Administrator to be the price reflected on the average in the industry for cigars made by the applicant from tobacco of the grade and type contained in the applicant's January 2, 1945 inventory. However, no adjustment shall be granted under this subparagraph in an amount which exceeds that found by the Price Administrator to be reasonably necessary to allow the applicant profits, before income and excess profits taxes, on his domestic cigar manufacturing operations, equal to 4.5 percent of his dollar sales.

(4) *Quarterly reports of sales of domestic cigars.* On or before April 15, 1945, and on or before the 15th day of each third month thereafter, every manufacturer of domestic cigars shall file in duplicate with the Office of Price Administration, Tobacco Section, Washington, D. C., a complete and accurate report on OPA Form 635–2076 shown in Appendix F (or on copies of that form), showing the weighted average retail price of all domestic cigars manufactured by him which he sold (tax-paid) during the preceding quarter. For this purpose, his "sales" during any prescribed quarter shall have the meaning given to that term in subparagraph (c) (1) above.

(5) *Increase in average retail price ceilings for manufacturers using Cuban tobacco.* A manufacturer who has established or amended his average retail price ceiling pursuant to paragraph (c) (2) above, or whose average retail price ceiling has been established by order of the Price Administrator pursuant to paragraph (d) below, and who uses Cuban tobacco in the manufacture of domestic cigars during any quarter, may submit a separate written report showing the stemmed weight of Cuban tobacco and the stemmed weight of all tobacco (including Cuban tobacco) used by him in the manufacture of domestic cigars during that quarter. This report shall be submitted in duplicate together with his report on OPA Form 635–2076 for that quarter, except that any such report for the second quarter of 1945 may be submitted after submission of his report on OPA Form 635–2076 for the second quarter of 1945 but no later than October 15, 1945. Thereupon his average retail price ceiling for the quarter immediately following the quarter for which such report is made shall be increased by an amount computed as follows:

(i) The stemmed weight of Cuban tobacco so reported shall be divided by the stemmed weight of all tobacco so reported.

(ii) The resulting decimal factor shall be multiplied by .18.

(iii) His maximum average price ceiling shall be multiplied by the second resulting decimal factor.

However, average retail price ceilings established pursuant to paragraph (c) (3) above, which has not been amended pursuant to paragraph (c) (2), above, may not be increased pursuant to this subparagraph (5).

(6) *Surcharges and credits*—(i) *How to compute surcharges or credits.* If a manufacturer's weighted average retail price for any prescribed quarter, three calendar months' period, as reported on OPA Form 635–2076, exceeds his average retail price ceiling for that quarter, he had incurred a "surcharge"; if it is less than his average retail price ceiling, he has earned a "credit." The amount of the surcharge or credit is computed by first finding the difference between the manufacturer's weighted average retail price for the quarter and his average retail price ceiling, and then multiplying that difference by the number of domestic cigars manufactured by him which he sold (tax paid) during that quarter.

(ii) *When a net surcharge or net credit must be computed.* At the end of each quarter a manufacturer must determine whether he has incurred a net "surcharge." A net surcharge is the amount by which a surcharge incurred by a manufacturer in any quarter exceeds any net credit earned by him in the immediately preceding quarter. A net credit is the amount by which a credit earned by a manufacturer in any quarter exceeds any net surcharge incurred by him in the immediately preceding quarter.

(iii) *Tolerances.* Each manufacturer has an "allowable tolerance" for any given quarter, which amounts to 5% of the dollar amount which results from multiplying his average retail price ceiling for that quarter by the number of domestic cigars manufactured by him which he sold tax paid during that quarter.

(iv) *When net surcharge is regarded as a violation.* A manufacturer who incurs during any quarter a net surcharge in a dollar amount which is larger than his allowable tolerance for that quarter shall be deemed to have violated this regulation and shall be subject to the criminal penalties, enforcement actions, license suspension suits and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

(v) *Redemption of excessive surcharge.* A manufacturer who incurs during any quarter a net surcharge in a dollar amount which is equal to or smaller than his allowable tolerance for that quarter may discharge that net surcharge during the immediately following quarter, by earning in such following quarter a credit equal to or greater in dollar amount than such net surcharge. To the extent that such manufacturer fails to discharge such net surcharge during the immediately following quarter, he shall be deemed to have violated this regulation and shall be subject to the criminal penalties, enforcement actions, license suspension suits, and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

SEC. 5. *Maximum prices for fresh fruits, berries and vegetables of lower than specified grade.* The maximum price for sales of any fresh fruit, berry or vegetable of lower than specified grade shall be the maximum price established for the lowest specified grade of that particular commodity under the applicable provisions of this regulation.

[Sec. 5, formerly 6, redesignated by Am. 17, effective 9–18–45. Former sec. 5 added by Am. 2, 8 F.R. 12952, effective 9–24–43; corrected 8 F.R. 14154, effective 10–1–43; amended by Am. 8, 9 F.R. 7858, 8188, effective 7–17–44; Am. 9, 9 F.R. 10264, effective 8–28–44; Am. 13, 10 F.R. 5045, effective 5–9–45; and deleted by Am. 17, effective 9–18–45]

SEC. 6. *Maximum prices for sales by growers to processors on a "cooperative basis".* The maximum prices named above in sections 3, 4 and 5 do not apply to sales by growers to processors on a "cooperative basis".

In such cases, the grower's maximum price for the fresh product shall be the processor's lawful sale price for the processed food product less (1) that proportion of the sale price which the processor received under the last "cooperative sales contract" which the grower and processor entered into prior to April 28, 1942, and (2) the costs of labor, processing, selling, financing, handling, supplies or taxes, as specified under that contract.

In cases where no such contract was entered into by the grower and processor prior to that date, the grower's maximum price for the fresh product shall be the processor's lawful sale price for the processed food product less (1) that proportion of the sale price which the processor received under the last "cooperative sales contract" which the processor entered into prior to April 28, 1942, with any grower, and (2) the costs of labor, processing, selling, financing, handling, supplies or taxes, as specified under the contract.

In cases where no such contract was entered into by the processor prior to April 28, 1942, with any grower, the grower's maximum price for the fresh product shall be the processor's lawful sale price for the processed food product less (1) that proportion of the sale price which the nearest processor, who bought that kind of fresh product from growers on a "cooperative basis" before April 28, 1942, received under the last "cooperative sales contract" which he entered into prior to that date, with any grower, and (2) the costs of labor, processing, selling, financing, handling, supplies or taxes, as specified under that contract.

In all other cases the grower's maximum price for the fresh product shall be the processor's lawful sale price for the processed food product less (1) 7% and (2) the costs of labor, processing, selling, financing, handling, supplies and taxes.

[Above paragraph added by Am. 15, 10 F.R. 8373, effective 7–4–45]

However, in no event shall the grower's maximum price be less than the maximum price otherwise applicable under sections 3, 4 and 5.

"Cooperative basis" means pursuant to a "cooperative sales contract."

"Cooperative sales contract" means a contract of purchase and sale of fresh fruits, berries and vegetables under which the processor agrees to return to the seller all receipts from the sale of the processed food product after the deduction of (1) the cost of labor, processing, selling, financing, handling, supplies or taxes, as specified under the contract, and (2) a dollars-and-cents or percentage figure named in the contract, as compensation to the processor.

[Sec. 6, formerly 6a, added by Am. 11, 9 F.R. 13857, effective 7–5–43, except that as to cooperative sales contracts made on or after November 20, 1944, it shall become effective November 20, 1944; and redesignated by Am. 17, effective 9–18–45]

ARTICLE III—GENERAL PROVISIONS

SEC. 7. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization shall be given by order.

[NOTE: Procedural Regulation No. 6 (9 F.R. 10628; 10 F.R. 1382, 9394) provides for the filing of applications for adjustment of maximum prices for commodities or services under Government contracts or subcontracts. Revised Supplementary Order No. 9 (8 F.R. 6175, 10 F.R. 9394) makes the provisions of Procedural Regulation No. 6 applicable to all price regulations, excepting those which expressly prohibit such applications and certain specific regulations listed in Revised Supplementary Order No. 9.]

[NOTE: Supplementary Order 106 (10 F.R. 2015) permits, under certain conditions, the addition of extra packing expenses to maximum prices on sales to procurement agencies of the United States.]

SEC. 8. *Records.* A person, other than a producer, who sells or delivers any fresh fruit, berry or vegetable to a processor, or a processor who buys or receives any such commodity, shall keep for examination by the Office of Price Administration, so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect, records showing in each case the date of sale, the quantity and grade sold, the price charged, and the name and address of the purchaser or seller, as the case may be. Records shall be available for examination by the Office of Price Administration at any reasonable time.

SEC. 9. *Compliance with the regulation*—(a) *No buying or selling above maximum prices.* After this regulation is effective, regardless of any contract, agreement or other obligation, no person shall sell or deliver any fresh fruit, berry or vegetable to any processor, and no processor shall buy or receive the commodity, at prices higher than the maximum prices established for it under this regulation; and no person shall agree, offer, solicit or attempt to do any of these things. However, prices lower than the maximum prices may be charged and paid.

(b) *Evasion.* The maximum prices established under this regulation shall not be evaded by direct or indirect methods, whether by commission, service, transportation or other charge or discount, premium or other privilege; by tying-agreement or other trade understanding; by business practices relating to grading or packing, or in any other way.

(c) *Enforcement.* Any person violating the provisions of this regulation is subject to the criminal penalties, civil enforcement actions and suits for treble damages as provided in the Emergency Price Control Act of 1942, as amended.

(d) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Paragraph (d), formerly sec. 9a added by Supplementary Order 72, 8 F.R. 13244, effective 10–1–43 and redesignated by Am. 17, effective 9–18–45]

[1] If the manufacturer's net selling price per pound (or fraction thereof) of packaged tobacco is more than $1.00, no increase is allowed.

A manufacturer may adjust his list price to a level which, less the customary discounts and allowances which he actually allows, will reflect no more than the above permitted increases in his maximum net selling price.

(ii) A private brand owner of packaged tobacco may adjust his maximum net selling prices by not more than the increase in the net selling price of his manufacturer supplier allowed in (i) above and actually taken by the manufacturer. The maximum net selling prices of manufacturers of tobacco sold in bulk without payment of Internal Revenue tax are increased by the appropriate amounts specified in Table B below.

TABLE B

Net selling price per pound of bulk tobacco:	*Allowed increase (cents per pound)*
35 or less	15
Over 35 but not more than 65	10
Over 65 but not more than 85	7
Over 85 but not more than $1.05	5
Over $1.05 but not more than $1.25	4
Over $1.25	0

(2) *For reductions in package contents:* Any manufacturer of an item of packaged tobacco for which a new maximum net selling price has been established under paragraph (a) (1) who desires to reduce the quantity of package contents of that item in order to maintain the old net selling price and old retail prices which were in effect shall determine the weight of the new package by the following calculations:

(i) Divide the sum of his old maximum net selling price per dozen packages of the item and the adjustment allowed in Table A for that item by the weight in ounces of the package before reduction.

(ii) Divide his old maximum net selling price per dozen packages by the result obtained at (i). The result is the minimum weight in ounces allowable for the new package contents before rounding off as allowed by (iii).

(iii) If the new weight, as determined above, does not equal a weight ending in an eighth of an ounce the contents of the new package may be lowered to the next lower eighth of an ounce. If such next lower eighth of an ounce is nearer to the weight determined at (ii) above, than is the next higher eighth of an ounce.

Example: Manufacturer desires to maintain old maximum net selling price of $.42336 per dozen on a three-fourths of an ounce package, so his old net selling price and old retail prices can remain unchanged.

Step (1). To manufacturer's old maximum net selling price, before allowed adjustments, ($.42336 cents); add adjustment allowed from Table A, (*six* cents), total: $.48336 cents. Divide $.48336 cents by .75, (number of ounces in present package). Result $.6448 cents per dozen ounces.

Step (2). Divide manufacturer's old maximum net selling price ($.42336) by $.6448 (result of step 1). The result, equals .6569 ounces per package (minimum contents allowable for new package before step (3)).

Step (3). The weight computed between even eighths of an ounce; therefore the weight of the package shall be not less than five-eighths ounces, the next lower eighth of an ounce and nearer to .6569 ounces than is .75 ounces, the next higher eighth of an ounce.

Before making a reduction in package contents, the manufacturer shall apply by letter to the Tobacco Section of the Office of Price Administration, Washington, D. C. The letter shall state:

(i) The reduction the manufacturer desires to make in the quantity of package contents.

(ii) His old maximum net selling price per dozen, his old list price and customary discounts and allowances on the item.

(iii) Computations in accordance with this subparagraph.

If the Office of Price Administration makes no objection to the proposed change in package contents within fifteen days of its receipt of such letter the manufacturer may reduce the package contents as his letter proposed. A manufacturer may not take the increase in his net selling price allowed by paragraph (a) (1) and later reduce the package contents of the item.

(3) *Notification to purchasers.* On or before his first delivery of an item of packaged tobacco the maximum net selling price or contents of which has been adjusted in accordance with subparagraphs (1) or (2) of this paragraph, the manufacturer shall give each purchaser the applicable written notice attached to or stated on the invoice covering such first delivery:

(Insert date)

The Office of Price Administration has authorized an increase in our maximum net selling price for our ------ (describe item by brand and container type and size) of ------ cents per dozen. Wholesalers and jobbers are authorized to increase their net selling prices for this item by ------ cents per dozen. Retailers may add ------ cents per item to their March 1942 prices legally in effect. The Office of Price Administration requires that you keep this notice for examination.

(Insert date)

The Office of Price Administration has authorized us to reduce the quantity of package contents of our ------ (describe item by brand and container type) from ------ ozs. to ------ ozs. The permission given us does not allow you an increase in your maximum prices for this brand nor is any increase in the maximum retail price for this item authorized. The Office of Price Administration requires you to keep this notice for examination.

(b) *Wholesalers' maximum prices; notice to purchasers.* (1) Upon receipt of notification pursuant to paragraph (a) (3) above, of an adjustment of his supplier's maximum net selling price allowed by paragraph (a) (1), above, for an item of packaged tobacco, a wholesaler's maximum net selling price is increased by the amount of the net increase in the price of his supplier. Such adjustment shall be applicable to floor stocks. Where any manufacturer has not adjusted his maximum net selling price pursuant to paragraph (a) (1) above, with respect to any item of packaged tobacco, no increase may be charged by the wholesaler with respect to that item.

If the increase in the supplier's maximum net selling price results in an increase ending in a fraction of a cent per dozen to the wholesaler or jobber, the wholesaler or jobber may round off his new maximum price per dozen to the next higher full cent.

(2) After receipt of notice from his supplier, any wholesaler may sell, and any person may buy from that wholesaler, an item of packaged tobacco, the quantity contents of which have been reduced pursuant to paragraph (a) (2) above, at the same maximum price which he had legally in effect before the package contents were reduced.

(3) On or before his first delivery of an item of packaged tobacco the quantity contents of which have been reduced pursuant to paragraph (a) (2), above, the wholesaler shall give the purchaser the following written notice:

(Insert date)

The Office of Price Administration has authorized the manufacturer of ------ (identify item by brand and container type) to reduce the quantity of this item's contents from ------ ozs., to ------ ozs. Wholesalers, jobbers and retailers are authorized to sell this item with its reduced weight without changing their ceiling prices for this item. The Office of Price Administration requires you to keep this notice for examination.

(4) On or before his first delivery of an item of packaged tobacco the maximum net selling price of which has been increased as allowed by paragraph (a) (1), above, the wholesaler shall give the purchaser the following written notice:

(Insert date)

The Office of Price Administration has authorized a price increase of ------ cents in the manufacturer's net selling price per dozen of ------ (identify item by brand and container type and size) and an increase in the retail price of ------ cents per item. Wholesalers and jobbers are authorized to add the amount of the manufacturer's increase to their maximum net selling prices. Retailers are allowed to add the amount of the increase in the retail price to their maximum prices established under the General Maximum Price Regulation. Fractions of a cent to be added to a maximum retail price are to be rounded off as prescribed in the regulation.[1] Retailers must maintain their customary price differentials allowed by them during March 1942 below the manufacturer's stated retail price. If any. The Office of Price Administration requires that you keep this notice for examination.

(c) *Retailers' maximum prices.* (1) Upon receipt of notification pursuant to paragraph (b) (4) above, from the wholesaler or jobber of an adjustment of the manufacturer's net selling price for an item of packaged tobacco pursuant to paragraph (a) (1), above, a retailer is authorized to add the amount of the increase per item to his March 1942 prices established under the General Maximum Price Regulation to determine his new maximum price, in accordance with such notification. Such adjustment shall be applicable to floor stocks. Where the addition of the allowed price increase results in a price containing a fraction less than ½ cent the maximum retail price shall be increased to the ½ cent, and if the fraction is more than ½ cent, the maximum retail price shall be increased to the next higher full cent. If such price contains the fraction ½ cent, the purchaser shall be given the option of buying two of the items of packaged tobacco at a multiple unit price, or one item at a maximum price rounded to the next higher full cent; if the retailer refuses to sell more than one item to a purchaser, his maximum price shall be rounded to the next lower full cent. Retailers must maintain their customary price differentials allowed by them during March 1942 below the manufacturer's stated retail price.

(2) After receipt of notice from his supplier pursuant to paragraph (b) (3) above, any retailer may sell, and any person may buy from that retailer, packaged tobacco of which the weight of contents has been reduced in accordance with paragraph (a) (2), above, at the retailer's March 1942 maximum price as established under the General Maximum Price Regulation.

(d) *Maintenance of customary discounts and allowances.* A seller's customary discounts and allowances shall not be less than those given by him in March 1942 on his sales of packaged tobacco. Every retailer shall maintain his customary price differentials, if any, allowed in March 1942 below the manufacturer's stated retail price.

(e) *State and local taxes.* Maximum prices established by this section are exclusive of any increases in State and local taxes upon tobacco products which have been added since the General Maximum Price Regulation went into effect or which may be added, or are caused by the increases in maximum prices allowed by this section. Sellers may add to these prices the amount of such tax applicable to the item being priced and paid or payable by them to the taxing authorities or to a prior vendor.

(f) *Units of sale.* Maximum prices shall be stated in terms of the same general units (like dozens, packages, etc.), in which the seller has customarily quoted prices for the product.

(g) *Geographical applicability.* Provisions of this section shall be applicable to the forty-eight States of the United States and to the District of Columbia.

(h) *Definitions.* When used in this section, the term:

"Packaged tobacco" means manufactured tobacco in which the product consists of granulated tobacco, crushed plug, various plug cuts, crimp cut, sliced cut, long cuts (tobacco cut into shreds or strings), all so-called mixtures, fine cut, cigarette tobacco and tobacco scraps, cuttings or clippings, prepared or suitable for smoking or chewing purposes. "Packaged tobacco" does not mean snuff or any item of manufactured tobacco the price of which has been increased under Section 2, 4 or 5 of this Supplementary Regulation.

"List price" means the manufacturer's gross price before discounts and allowances.

"Net selling price" means the manufacturer's or other seller's net price after deduction of discounts and allowances.

[1] This sentence should be omitted if the authorized increase in the retail price contains no fraction of a cent.

[NOTE: Supplementary Order No 28 (7 F.R. 9619, 8 F.R. 7256) provides for the filing of applications for adjustment or petitions for amendment based on a pending wage or salary increase requiring the approval of the National War Labor Board.]

SEC. 11. *Position of brokers and "finders."* Maximum prices named in this regulation include brokerage, commission charges and all selling and buying expenses. In each case, the amount paid by the processor to the broker plus the amount paid by the processor to the seller shall not exceed the seller's maximum price, plus allowable transportation actually paid by the seller or by the broker. The term "broker" includes a "finder."

SEC. 12. *Adjustments by Regional or District Offices.* The following authority is hereby delegated to each Regional Administrator which he may in turn redelegate to any of the District directors within his region:

(a) To determine, for any area within his jurisdiction, and with respect to each commodity covered by this regulation, whether it has been a well-established custom in that area for a substantial number of processors to employ brokers or other agents to secure raw materials for processing. If such a custom is found to exist, the authorized officer shall issue an appropriate order permitting processors in that region or district to pay such an agent his usual commissions or fees in addition to paying the maximum price as established under the regulation to the supplier.

Any such order shall modify section 11 of this regulation to the extent necessary to effectuate the purposes of the order.

(b) To determine, for any area within its jurisdiction, and with respect to each commodity covered by this regulation, whether it has been a well-established custom in that area for a substantial number of processors to receive the raw material at points where they do not maintain their own facilities for grading, weighing, repacking and loading onto their conveyances. If such a custom is found to exist, the authorized officer shall issue an appropriate order to the effect that for the particular area the definition of "delivered to customary receiving points" in section 3 does not apply, and that processors' customary receiving points are the places where, in the past, they have customarily received the raw materials, whether or not they maintained the above mentioned facilities at that point.

[Sec. 12, formerly 15, added by Am. 5, 9 F.R. 7505, effective 7-10-44 and redesignated by Am. 17, effective 9-18-45. Former sec. 12 deleted by Am. 17]

Effective date. This regulation shall become effective July 5, 1943. [Maximum Price Regulation 425 originally issued July 5, 1943.]

No additional charges may be made for use of equipment or for fees or for overtime except as is otherwise provided in this order.

(1) *Customer's hourly rate for journeyman or master plumbers'*—A. *Old sellers.* For any seller who sold plumbing services in March 1942 or to whom an order has been issued under Revised Maximum Price Regulation No. 251, the maximum hourly rate shall be his present legal maximum customer's hourly rate for journeyman plumbers or master plumbers, except that:

(i) In Area I if such rate is less than $2.00 it may be increased to $2.00 and if it exceeds $3.00 it shall be reduced to $3.00.

Population shall be that shown by the United States Census for 1940. In the case of services performed outside the limits of any city, the maximum customer's hourly rate shall be determined under subparagraph (b) (1) B (iii) above.

(2) *Customer's hourly rate for apprentice plumbers and common labor.* The maximum customer's hourly rate for such labor shall be 150% of the wage cost.

(3) *Overtime.* The maximum hourly rate for services performed during overtime hours shall be one and one-half times the hourly rate provided above, except that in Monterey, San Francisco, and San Mateo Counties, overtime on Sundays and holidays may be charged at the rate of double the hourly rate.

(4) *Measurement of hours.* The number of hours to be charged against any job shall be calculated as beginning at the time the workman leaves the shop or the previous job (whichever is later) and as terminating at the time he completes the job except when he returns directly to the shop in which event the termination shall be the time at which he arrives at the shop. In no case shall charges be made for time in excess of that shown in the seller's pay-roll records or in the records which the seller is required to prepare for this order.

(5) *Minimum charge.* If a job requires less than one man-hour, the maximum charge shall be for one man-hour.

(6) *Rental of equipment.* A seller's maximum hourly rental rate for the use of powerdriven equipment shall be his highest hourly rental rate in effect during March 1942: *Provided, however*, That he has written records kept in the regular course of business substantiating such rates.

(7) *Materials.* The maximum price of any new materials supplied in connection with plumbing services shall be the highest price charged for such materials by the seller during March 1942 or the price published as of the date of issuance of this order in "A Price Guide on Plumbing Materials" published by Current Price Bureau Service, 55 New Montgomery Street, San Francisco, whichever is lower. (4) "Labor cost" means the wage rates in effect on October 3, 1942, or wage rates which have been established by proper governmental agencies, but not more than the wage rate actually paid.

(d) *Jobs in excess of $200.* The maximum price of jobs in excess of $200.00 shall be the maximum price calculated under this order but shall not exceed a price calculated under section 7 of Revised Maximum Price Regulation No. 251, using the sum of labor costs, material costs, direct costs, and a margin not exceeding the margin used on the most comparable job in the period January 1, 1939, to March 31, 1942, or, for sellers not in business in March 1942, a margin not exceeding 30% of the sum of labor and material and other direct costs.

(e) A seller may offer to supply a plumbing service covered by this order on the basis of an estimated price, and guarantee that the price charged will not exceed the quoted price: *Provided, however*, That the price charged and collected therefor shall not exceed the maximum price established by this order.

(f) *Records and sales slips.* (1) Every seller subject to this order must keep a record showing the time spent by him and his employees on any job involving plumbing services and the wage rate for each such employee. Duplicates of such invoices or such sales slips shall be kept by the seller at his place of business and shall be available for inspection by the Office of Price Administration.

(3) Every seller subject to this order shall preserve, and make available for examination by the Office of Price Administration, all records showing the basis upon which he determined his maximum customer's hourly rates.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia 3, Pennsylvania, on the 10th day of September, A. D. 1945.

Notice is hereby given that an application and declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Spokane United Railways ("Spokane"), a wholly-owned subsidiary of The Washington Water Power Company ("Washington"), which is in turn a subsidiary of American Power and Light Company, a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company.

Notice is further given that any interested person may not later than the 19th day of September, 1945 at 5.30 p. m., e. w. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, said application and declaration, as filed or as amended, may be approved or may be permitted to become effective as provided in Rule U-23 of the Rules and Regulations promulgated under this act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said application and declaration, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

On July 7, 1945 Spokane sold all of its operating physical assets and franchise to Spokane City Lines, Inc., a non-affiliated corporation, for a base price of $850,000, subject to certain minor adjustments. Spokane has outstanding in the hands of Washington, First and General Mortgage Ten-year Gold Bonds in the principal amount of $1,942,000. All other securities of Spokane are held by Washington. Spokane proposes to institute dissolution proceedings under the General Laws of the State of Washington, which laws provide for the nomination and appointment of Trustees in Dissolution under the su-

pervision of the Superior Court of Spokane County.

It is proposed that prior to the institution of dissolution proceedings the sum of $900,000 in cash be paid by Spokane to Washington on account of the said bonds, and upon completion of the dissolution proceedings, the Trustees are to distribute the remaining assets of Spokane to the creditors of Spokane, including Washington, as their claims may be established. 4. Section 802.7 is amended to read as follows:

§ 802.7 *Country group general license.* (a) A general license is hereby granted, subject to the other provisions of this section, authorizing the exportation of all commodities, except those commodities listed in § 801.2 (b) of this subchapter to destinations in country group K as designated in § 802.3 (a).

(b) The general license designation for this general license shall consist of the letter "G" followed by the arabic number assigned to the particular destination in § 802.2.

(b) If reference is made to a footnote in the list of commodities set forth in § 801.2 (b) of this subchapter which modifies or alters the general license granted in this section the provisions specified in such footnote shall govern notwithstanding any other provision.

5. Section 802.10 *Shipments of limited value* is hereby amended to read as follows:

§ 802.10 *Shipments of limited value "GLV"*—(a) *Definitions.* When used in this section:

(1) "Net value" shall mean the actual selling price less shipping charges or the domestic market price at the time and place of shipment whichever is the larger.

(2) "Domestic market price" shall mean the Office of Price Administration ceiling price which may be charged to the same type of purchaser in the United States or, where no ceiling price has been established, the current market price.

(3) "Single shipment" shall mean all commodities classified under a single Department of Commerce Schedule B number which move at the same time from one exporter to one importer on the same exporting carrier.

(b) A general license designated "GLV" is hereby granted, subject to the special provisions for Mexico specified in paragraph (d) of this section, authorizing:

(1) The exportation of all commodities except those listed in § 801.2 (b) to destinations in country Group E as set forth in § 802.3 (a), where the net value of each commodity included in a single shipment does not exceed the value of $25.00.

(2) The exportation of commodities listed in § 801.2 (b) of this subchapter to destinations in country groups K and E, as set forth in § 802.3 (a), where the net value of each commodity included in a single shipment does not exceed the value limit for such commodity and destination established under the column headed "GLV Dollar Value Limits" in § 801.2 (b) of this subchapter. Where an asterisk (*) precedes a value limit for any commodity listed in § 801.2 (b), all forms, conversions and derivatives of such commodity even though not covered by the Schedule B number listed are subject to the value limit specified. If reference is made to a footnote, the limitations specified in such footnote shall govern notwithstanding any other provisions.

(c) *Use of other general licenses not restricted.* The provisions of this section shall not be construed as limiting the use of any other general license specifically authorized.

(d) *Special provisions for Mexico.* (1) Exportations to Mexico under the provisions of general license "GLV" are permitted only when such shipments are made in conformity with one of the following two conditions:

(i) The shipment is a "single shipment" as defined in paragraph (a) of this section, provided that such shipment is transported by a common carrier or is a mail shipment; or

(ii) If the shipment is not a mail shipment or is transported otherwise than by a common carrier not more than one such shipment may be made by or on behalf of the same exporter to or for the account of the same ultimate consignee during the same calendar week.

(2) Any person making an exportation to Mexico under this general license which is not a mail shipment and which is to be transported otherwise than by common carrier shall enter on his Shipper's Export Declaration covering such shipment a certification in the following form:

The undersigned certifies to the Foreign Economic Administration that the merchandise above described is the only shipment of the commodity(ies) classified under the Schedule B number(s) set forth herein to be exported under the provisions of general license "GLV" by the undersigned exporter to the consignee named herein during the current calendar week.

Signed

(3) Collectors of Customs are authorized to limit or prevent altogether the exportation of any commodity to Mexico under this general license whenever they shall have cause to suspect that such exportation is being made for the purpose or with the intent or evading any of the regulations of the Foreign Economic Administration.

(4) In any case where the Collector of Customs determines that the limitations in subdivision (ii) of subparagraph (1) of this paragraph would create an unnecessary hardship or that an emergency exists in a particular case, he is authorized to permit more than one such shipment in a calendar week under this general license: *Provided*, That the value of each such shipment does not exceed the value limitation provided for the commodities included in such shipment under this general license.

(5) Notwithstanding the value limits specified in the Schedule of Commodities set forth in § 801.2 (b) of this subchapter under the column headed "GLV Dollar Value Limits" the following textile commodities may be exported under general license "GLV" to Mexico where, in a single shipment, the net value of all articles or commodities classified under a single Schedule B number listed in Group I does not exceed $50.00: *Provided*, That such shipments are made in conformity with the special provisions for Mexico, set forth in this paragraph (d) and also that no exportation of such commodities may be made under this general license unless such commodities are intended for the direct use of the consignee or members of his immediate family and are not being exported for the purpose of resale.

Section 7.6 (k) is amended to read as follows:

(k) *Allotments for industrial users of meat or fish having a point value.* An industrial user, who during the fourth quarter of his base period, used meat or canned fish which has a point value other than zero on September 2, 1945, may apply for an allotment covering such meat or canned fish. The application shall be made on OPA Form R-315 to the Board or District Office with which he is registered and must estimate the number of pounds of such meats (separately for each item as listed in Section A of the Official Table of Trade Point Values which is in effect on September 2, 1945) or the number of pounds of such fish (separately for each item as listed in the Official Table of Trade Point Values which is in effect on September 2, 1945) which he used during the fourth quarter of his base period. The Board or District Office may grant the application if it finds that the industrial user, during the fourth quarter of his base period, used meat or canned fish which has a point value other than zero on September 2, 1945. The amount of his allotment shall be computed in the following way:

(1) The number of pounds of each item of meat or canned fish which he used during the fourth quarter of his base period is multiplied by the point value in effect for that item on September 2, 1945 (as shown on the Official Table of Trade Point Values which is in effect on September 2, 1945);

(2) The resulting figures are added together and multiplied by 0.85.

BRAZILIAN CRUZEIROS

CONVERSION FOR ASSESSMENT OF DUTIES ON MERCHANDISE IMPORTED INTO UNITED STATES

Reference is made to T. D. 51283 of July 24, 1945 (10 F.R. 9339), containing instructions for the disposal of certain cases in which appraisement has been suspended or liquidation withheld pending the determination of a proper rate for the Brazilian cruzeiro for customs currency conversion purposes.

During the period beginning July 1, 1939, down to and including March 31, 1944, the rate for the Brazilian cruzeiro (milreis) estimated by the Director of the Mint and proclaimed by the Secretary of the Treasury was .0606. For that same period the official rate for the Brazilian currency as given in the daily certifications by the Federal Reserve Bank of New York and published in the weekly Treasury Decisions varied between .060575 and .060602; a variance between the proclaimed rate and the certified official rate of less than 5 per centum.

T. D. 51283 is therefore amended by changing the period at the end of paragraph 1 of the numbered requirements to a colon and adding the following:

Provided, however, That for any date of exportation between July 1, 1939, and March 31, 1944, both inclusive, for which the proclaimed rate varies by less than 5 per centum from the official rate certified by the Federal Reserve Bank of New York, the proclaimed rate shall be used instead of the official rate whenever the use of the official rate would otherwise be required under these instructions; and such cases need not be referred to the Commissioner of Customs.

[SEAL] W. R. JOHNSON,
Commissioner of Customs.

Approved: September 12, 1945.

Acting Secretary of the Treasury.

(d) This Proclamation shall not affect any offense heretofore committed, nor any conviction or penalty incurred because of violations of the provisions of Public Proclamation No. 22, of the Commanding General, Western Defense Command.

(e) This Proclamation shall become effective at midnight, 2400 p. w. t., 5 September 1945.

CALIFORNIA

DESIGNATION OF DEFICIENCY AREAS WITH RESPECT TO PORK CUTS AND CERTAIN SAUSAGE PRODUCTS

Pursuant to section 5 (d) (3) of Maximum Price Regulation No. 336, I find there exists in each of the areas hereinafter named, located in Zone 1 and having populations not in excess of 25,000 persons, quotas permitting sales of retail meat cuts which are insufficient to supply the meat requirements of other retail dealers meeting the criteria established for retail dealers authorized to purchase retail meat cuts for resale purposes under the provisions of subparagraph (1) of section 5 (d) of Maximum Price Regulation No. 336. I find further that this condition has occurred because of an increase in population in such areas.

The areas are:

1. The City of Marysville, California—the total area within the corporate limits of said city.

2. Yuba County, California—the entire county except the City of Marysville.

3. Yuba City, Sutter County, California—the total area within the corporate limits of said city.

4. Dunsmuir, California — the total area within the corporate limits of the City of Dunsmuir and the adjacent area within a radius of 25 miles of the corporate limits of said city.

5. Lake Tahoe, California—that portion of Eldorado and Placerville counties lying east of the crest of the Sierra Nevada Mountains and those communities on California State Highway No. 50 from Kyburz, California, to the crest of the Sierra Nevada Mountains.

The areas named hereby are designated as "deficiency areas" under the provisions of section 5 (d) (3) of Maximum Price Regulation No. 336, and the respective District Director of the appropriate District Office of the Office of Price Administration within whose jurisdiction any one of the named areas is located may, in writing, authorize named retail selling establishments customarily serving such area, and which are not hotel supply houses, and which do not own or control a packing or a slaughtering plant, to sell retail meat cuts to other retail dealers located in the specific deficiency area who are qualified to make such purchases under the provisions of subparagraph (1) of section 5 (d) of Maximum Price Regulation No. 336, in whatever volume and subject to whatever terms and conditions he may deem necessary: *Provided,* That in no event may any designated retail selling establishment be authorized to sell retail meat cuts to buyers who are not ultimate consumers in excess of 70 percent of its total current monthly dollar volume of meat sales: *And provided further,* That each seller authorized to sell retail meat cuts to other retail dealers for resale purposes under the provisions of this Order No. 6 under said section 5 (d) (3) of Maximum Price Regulation No. 336 shall be required to conform to the reporting provisions and all other requirements of said section 5 (d) (3).

This designation shall remain in effect to and including October 15, 1945, unless sooner terminated.

This order may be revoked or amended at any time.

This order shall become effective September 14, 1945.

Issued this 13th day of September 1945.

CALIFORNIA

DESIGNATION OF DEFICIENCY AREAS WITH RESPECT TO PORK CUTS AND CERTAIN SAUSAGE PRODUCTS

Pursuant to section 5 (d) (3) of Maximum Price Regulation No. 355, I find there exists in each of the areas hereinafter named, located in Zone 1 and having populations not in excess of 25,000 persons, quotas permitting sales of retail meat cuts which are insufficient to supply the meat requirements of other retail dealers meeting the criteria established for retail dealers authorized to purchase retail meat cuts for resale purposes under the provisions of subparagraph (1) of section 5 (d) of Maximum Price Regulation No. 355. I find further that this condition has occurred because of an increase in population in such areas.

The areas are:

1. The City of Marysville, California—the total area within the corporate limits of said city.

2. Yuba County, California—the entire county except the City of Marysville.

3. Yuba City, Sutter County, California—the total area within the corporate limits of said city.

4. Dunsmuir, California—the total area within the corporate limits of the City of Dunsmuir and the adjacent area within a radius of 25 miles of the corporate limits of said city.

5. Lake Tahoe, California—that portion of Eldorado and Placerville counties lying east of the crest of the Sierra Nevada Mountains and those communities on California State Highway No. 50 from Kyburz, California, to the crest of the Sierra Nevada Mountains.

The areas named hereby are designated as "deficiency areas" under the provisions of section 5 (d) (3) of Maximum Price Regulation No. 355, and the respective District Director of the appropriate District Office of the Office of Price Administration within whose jurisdiction any one of the named areas is located may, in writing, authorize named retail selling establishments customarily serving such area, and which are not hotel supply houses, and which do not own or control a packing or a slaughtering plant, to sell retail meat cuts to other retail dealers located in the specific deficiency area who are qualified to make such purchases under the provisions of subparagraph (1) of section 5 (d) of Maximum Price Regulation No. 355, in whatever volume and subject to whatever terms and conditions he may deem necessary: *Provided, That* in no event may any designated retail selling establishment be authorized to sell retail meat cuts to buyers who are not ultimate consumers in excess of 70 percent of its total current monthly dollar volume of meat sales: *And provided further,* That each seller authorized to sell retail meat cuts to other retail dealers for resale purposes under the provisions of this Order No. 6 under said section 5 (d) (3) of Maximum Price Regulation No. 355 shall be required to conform to the reporting provisions and all other requirements of said section 5 (d) (3).

This designation shall remain in effect to and including October 15, 1945, unless sooner terminated.

This order may be revoked or amended at any time.

This order shall become effective September 14, 1945.

Issued this 13th day of September 1945.

CHESTER BOWLES,
Administrator.

[MPR 188, Order 4418]

AUTOMOBILE SEAT COVERS

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register; and pursuant to § 1499.159b of Maximum Price Regulation No. 188, It is ordered:

SECTION 1. *What this order does.* This order provides for the adjustment of maximum prices for sales of automobile seat covers.

SEC. 2. *When an adjustment may be granted.* A manufacturer's maximum price for sales of automobile seat covers may be adjusted under this order if his present maximum price is less than his current total unit cost to make and sell the article; and if his present maximum price is below the appropriate one of the following cut-off points:

Article	*Maximum price to retailers per set*
Universal seat covers (coupe)	$4.00
Universal seat covers (coach and sedan)	7.75
Tailor made seat covers (coupe)	7.00
Tailor made seat covers (coach and sedan)	13.20

"Total unit cost to make and sell" means the total cost of direct materials, direct labor and reasonable factory overhead, applicable to each unit of the article, and reasonable general administrative and selling expenses, applicable to the article, calculated in accordance with the manufacturer's customary method of computing unit cost. (Prices used in computing material cost may be no higher than the ceiling prices of the manufacturer's normal sources of supply. Labor rates used in computing labor cost may be no higher than the manufacturer's legal straight-time wage rates. A calculation of total unit cost may be disregarded if it is excessive, or if it is out of line with the total unit cost of competitive manufacturers of the same class.)

SEC. 3. *Amount of the adjustment.* (a) If a manufacturer qualifies for an adjustment under this order, his maximum price will be adjusted by an amount sufficient to cover his total unit cost to make and sell plus a margin over such current total unit cost which the Price Administrator determines will approximate the manufacturer's average margin on sales of automobile seat covers during a normal peace-time period. However, no adjustment will be granted which will result in an adjusted maximum price in excess of the appropriate cut-off point listed in section 2.

(b) Any order adjusting a manufacturer's maximum price under this order may make appropriate adjustments in the maximum prices of persons who purchase the article for resale.

SEC. 4. *How the adjustment shall be granted.* (a) A manufacturer of automobile seat covers may file an application for adjustment of his maximum prices for sales with the Office of Price Administration, Durable Goods Price Branch, Washington 25, D. C., pursuant to the provisions of Revised Procedural Regulation No. 1.

(b) At any time after the filing of such an application, the Office of Price Administration may issue an order, not to apply retroactively, adjusting the maximum prices of all persons selling the article described in the application.

SEC. 5. *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

SEC. 6. *Effective date.* This order shall become effective on September 15, 1945.

Issued this 14th day of September 1945.

CHESTER BOWLES,
Administrator.

§ 5.105–02 *Delegations of authority.* (a) An order of the Secretary of Agriculture dated April 26, 1945 (10 F.R. 4647), delegates, subject to his general supervision and direction, authority and responsibility to the governor of the FCA, with authority to redelegate to any appropriate officer, agent, or employee of the FCA or of the USDA, including the FFMC, with a provision that the services and facilities of the Federal land banks and national farm loan associations may be used.

(b) An order of the governor of the FCA dated April 28, 1945 (10 F.R. 4694), redelegates, subject to his general supervision and direction, authority and responsibility to FFMC, with a provision that the services and facilities of the Federal land banks and national farm loan associations may be used.

(e) A resolution of the board of directors of the FFMC adopted April 30, 1945, authorizes any vice president of the Corporation to sign deeds, leases, and other instruments in connection with the surplus property disposal program.

FUNCTIONAL ORGANIZATION

§ 5.201–01 *Services and facilities of existing Farm Credit Administration units.* The units of the FCA whose services and facilities are used in the disposal of surplus property will function under the general direction of the governor or officials designated by him. The experience of the Farm Credit Administration in connection with the servicing and selling of real estate acquired by the FFMC and the Federal land banks in the course of their regular business, the trained personnel in the various units concerned, the existing field organization, and the distribution of offices make it unnecessary to set up a special separate organization to dispose of surplus real property. Whatever services may be required should be rendered with as little disturbance to the regular organization as practicable. Such time records should be maintained as will facilitate reimbursement of all expenses.

§ 5.201–02 *Federal Farm Mortgage Corporation.* The responsibility for disposal of surplus agricultural and forest property is that of the FFMC by delegation of authority from the governor of the FCA. The board of directors of the Corporation has authorized the president of the Corporation to administer the program on behalf of the Corporation. Provision has been made for the use of the facilities of the FCA and the Federal land banks and, where desired, the national farm-loan associations, in the performance of the necessary operations. All official actions shall be taken in the name of the FFMC by duly authorized officials thereof.

§ 5.201–03 *Facilities of central office of Farm Credit Administration.* Services and facilities of the central office of the Farm Credit Administration will be used to the extent necessary or appropriate in administering the program.

§ 5.201–04 *Federal land banks.* It is expected that the services and facilities of the Federal land banks will be made available to the Corporation as needed in administering the program and in executing established policies, but the banks shall not exercise any authority or bear any responsibility of the disposal agency as such.

§ 5.201–05 *National farm loan associations.* While it is recognized that not many national farm loan association offices will be so located that their facilities can be used effectively, nevertheless in case such offices are located near project areas, it is possible that their services and facilities will be used if that is found convenient and practicable. The associations will not exercise any authority or bear any responsibility of the disposal agency as such.

§ 5.202–01 *Farm Credit Administration central office organization.* (a) The governor of the FCA exercises general supervision and direction of the program and as president of the FFMC exercises the Corporation's authority and is responsible for actions taken in its name.

(b) The land bank commissioner, subject to the supervision and direction of the governor, is responsible for the direction and supervision of the disposal program, using the facilities of the Land Bank Division and appropriate service divisions of the FCA, and supervises the Federal land banks (and national farm loan associations when used) in the discharge of their responsibilities in rendering services to the FFMC.

(c) The director of surplus property disposal, under supervision and direction of the land bank commissioner, exercises supervision and direction of disposal program; advises with representatives of Surplus Property Board and with USDA director of surplus property on operations; advises with USDA agencies and other Government agencies concerned; advises with FCA service units; is responsible for assembling of data and preparation of necessary reports, maintenance of necessary control records and files, correspondence, and the formulation, preparation, and issuance of appropriate regulations, makes recommendations on policies and procedures to land bank commissioner.

(d) *Service units.* (1) Legal services to the FCA and FFMC in connection with the disposal of surplus agricultural and forest property will be rendered by the Office of the Solicitor.

(2) *Appraisal.* The Appraisal Subdivision will render assistance in developing policies and operating procedures relating to appraisal; exercise general supervision over appraisers; cooperate with the banks in arranging for appraisal services as needed; make field reviews of appraisal work; and render such other services relating to appraisals as may be deemed advisable.

(3) *Real estate service and sales.* This section of the Land Bank Division will assist in developing policies and procedures relating to leasing, care and handling, and sale of real property; advise with the Federal land banks on operating problems; and render such other services as may be considered advisable.

(4) *Finance and accounts.* The Finance and Accounts Division will be responsible for developing a manual of accounts in cooperation with the field units responsible for accounting operations; for maintenance of necessary accounts in the central office; for assembling necessary data for the preparation of reports; for general supervision of accounting operations; and for such other assistance on fiscal problems as may be necessary.

(5) *Examination.* The operations of the FFMC and Federal land banks relating to surplus property disposal will be included within the scope of the examinations of these agencies conducted by the Examination Division.

(6) *Personnel.* Personnel actions will be processed in accordance with established procedure of the Farm Credit Administration.

(7) *Information and extension.* This division will render appropriate assistance with reference to publicity and advertising.

(8) *Files and clerical.* Such services as may be necessary to maintain ade-

quate files, conduct necessary correspondence and other clerical service will be rendered by the sections engaged in similar work for the FCA.

§ 5.203–01 *District organization.* (a) The president of the Federal land bank, as president of the Federal land bank, is responsible for the services rendered by the bank in executing the disposal program; and as regional director of surplus property disposal of the FFMC, exercises general supervision and direction of the program on behalf of the FFMC, under general direction of the president of the FFMC.

(b) The district supervisor of surplus property disposal, under the direction of the president of the FLB, exercises direction and supervision of the services and facilities of the bank and the NFLAs in connection with surplus property disposal in the district; advises with service units of the FLB; communicates with district U. S. engineer's office concerning available information on particular projects; advises with FCA central office on operations problems, including proposed communications and contacts with other Government agencies; makes recommendations on prices and offers to purchase to vice president of FFMC and on any other transactions requiring the approval of the FFMC.

(c) The project manager of surplus property disposal, under the direction of the district supervisor of surplus property disposal, is responsible for field operations, arranging for appraisals, recommending prices and sales offers; maintenance of field records and correspondence; and other activities as may be assigned.

(d) The district vice president of FFMC, under the general direction of the regional director of surplus property disposal of FFMC, takes such official action on behalf of the Corporation as may be assigned by the regional director, including approval of prices and signing of instruments and documents in accordance with established procedure.

(e) The district service units will render such service as may be necessary and advisable in discharging the responsibilities of the banks and associations to the FFMC. These service units include legal, personnel, appraisal, accounting, association service division, files, and clerical and records. It is expected that it will ordinarily not be necessary to assign personnel on a full-time basis or to create new sections for the purposes of the disposal program.

PREPARATORY STEPS

§ 5.301–01 *Receipt of declaration by disposal agency.* After real property is declared surplus by the owning agency, reported to the Surplus Property Board, and classified by it, two copies of the declaration (Form SPB 5) with accompanying schedules will be forwarded by the Board to the central office of the Farm Credit Administration. The central office will reproduce such information as it deems necessary for its use and forward both copies of the declaration to the district supervisor. Date of assignment will be the date the declaration is received in the central office from Surplus Property Board.

§ 5.302–01 *Obtaining information from owning agency.* Upon receipt of the copies of the declaration, the district supervisor will request from the owning agency originals or true copies of all available information and documents pertaining to the surplus real property, copies of which have not been filed with the declaration. This material ordinarily will include appraisal reports, maps, abstracts of title, tax receipts, affidavits of title, copies of judgment in condemnation proceedings, and other title papers relating to the property. In instances where the War Department is the owning agency, requests for abstracts of title or other title papers should be addressed to the Office of the Chief of Engineers, Attention: Director of Real Estate, Washington 25, D. C.

§ 5.302–02 *Return of documents to owning agency.* Any papers or documents which the owning agency requests be returned to it shall be returned promptly when there is no further need for them in connection with the disposal operations.

§ 5.303–01 *Assumption of custody and control of property.* Upon assignment of surplus real property to the disposal agency, the agency is charged with the responsibility for the care and handling of the property pending its disposition, except to the extent that such responsibility has been or may be postponed by the Board. The district supervisor will immediately contact the owning agency to work out by agreement mutually satisfactory arrangements for the disposal agency's assumption of the physical custody and control of and accountability for the property covered by the declaration or assignment. This acceptance of accountability should be signed by the district vice president of the FFMC. This may be done by letter describing the property. Such assumption shall be completed within sixty (60) days after the disposal agency received the declaration, unless additional time is allowed by order of the Board. The copy of the declaration will show the names and addresses of the representatives of the owning agency to be contacted. Where the property is owned by the War Department, the Real Estate office in the Division Engineers' office should be contacted.

§ 5.303–02 *Repairs and improvements.* The disposal agency shall make repairs necessary for the preservation and maintenance of the property, but it is not authorized to expend any funds for improvement of real property declared to it as surplus or for the erection of structures thereon, except as may be specially authorized by the Board. No disbursement may be made for these purposes without the approval of the district office.

§ 5.303–03 *Leasing.* The disposal agency when desirable may lease the property to place it in productive use pending ultimate disposition: *Provided*, That such leases shall be revocable at the election of the disposal agency.

§ 5.303–04 *Insurance.* In accordance with the general policy of the Government not to incur expense for the insurance of public property, insurance shall not be obtained or carried on improvements at Government expense.

§ 5.304–01 *Descriptions.* The disposal agency shall obtain the full and correct legal description of the property to be disposed of and take the steps necessary to determine its exact location and area.

§ 5.305–01 *Surveys.* Surveys shall be made when necessary and markers or monuments placed upon the ground in order to establish the boundaries of tracts as acquired by the Government. Ordinarily it will be advisable to make the survey prior to appraisal in order that appraisals may conform to the area of the original tracts.

§ 5.306–01 *Subdivisions; economic units.* For disposal to other than Government agencies, State or local governments, former owners or tenants, surplus real property shall be subdivided by the disposal agency into appropriate units for disposal. Section 23 real property classified as suitable for agricultural use shall be subdivided by the disposal agency into economic family-size units wherever practicable. The size of such units may vary according to the conditions and farming practices in the locality where the land is situated. Section 23 real property not classified as suitable for agricultural use shall be subdivided or regrouped into appropriate units considering the character of the property, the use or uses to which it may be put, and the possibility of giving veterans and those who will use the property personally a fair opportunity to acquire and utilize the property. Plans for repatterning should be developed as soon as practicable after the disposal agency receives the declaration of surplus and the actual work of repatterning should be completed at the earliest possible date after the expiration of the priority period. Repatterning may be delayed if it appears that the property will be absorbed by the priorities of Government agencies, State or local governments, former owners, or tenants.

§ 5.306–02 *Contacts with other agencies.* In repatterning real property into economic family-size units, consideration shall be given to any available information published by other agencies of the Department of Agriculture relating to economic size of farms in the area concerned. Ordinarily it will be desirable to confer on the site with representatives of the Bureau of Agricultural Economics, Soil Conservation Service, Agricultural Extension Service, and local representatives. In most instances agencies of the Department would be represented in such conferences by persons from regional offices of the agencies. Arrangements for such conferences and requests for information should be made by the district supervisor through the Central Office of the Farm Credit Administration except that any State and local contacts may be made direct.

§ 5.307–01 *Notice and advertisement; wide publicity.* The disposal agency shall avail itself of all suitable means to give wide publicity to the availability for disposal of surplus real property.

§ 5.307–02 *Publication of notice.* Within sixty (60) days after a disposal agency receives a declaration of surplus real property it shall publish notice that such property is available for disposal. Such notice shall contain the matters set forth in Exhibit A of Part 8305 [1] of Title 32 and shall be published at least three (3) times during the ninety (90) days following the date such notice is first published at approximate intervals of twenty-one (21) days in two or more newspapers, including one of general circulation in the State where the property is located, and one published and circulated in the county where the property is located or if there is none then in one of general circulation in such county. The priority chart (Exhibit C of Part 8305 [1] of Title 32) may be used as a guide in preparing the notice for publication. Ordinarily it will not be necessary to include all the information in the chart in any one notice. For example, if the declaration indicates that all tracts within the project area were acquired by the government after December 31, 1939, it will not be necessary in preparing the notice to call attention to the priorities applicable to property acquired before that date. Also, if the project area does not include property other than section 23 real property, it will be unnecessary to include priorities applicable to such property.

§ 5.307–03 *Notice of sale.* In the "notice of sale" the FFMC shall be indicated as the disposal agency. If an office is established on the site, the address of the office, and ordinarily name of the project manager, shall be shown in the notice for the benefit of persons seeking information about the project. If no project office is established on the site and a project manager will not be available there, such other address shall be indicated as will enable all persons to obtain information readily. The notice of sale shall be signed by the district vice president of the FFMC authorized by order of the Secretary of Agriculture to contract with the newspaper for advertising space.

Following is a suggested form of notice for publication covering surplus real property at the Sangamon Ordnance Works, Illiopolis, Illinois:

Priorities. The tracts will be sold subject to the following priorities in the order named: (1) Government Agencies, (2) State and Local Governments, (3) Former Owners, (4) Tenants of a Former Owner, (5) Veterans of World War II and the spouse or children of deceased servicemen, (6) Owner-operators, and (7) Non-profit Institutions.

Priority period. The time for exercising priorities shall be a period of ninety (90) days commencing (specify date on which notice is first published) and ending on ----------, 1945. Persons not having a priority may also make offers to purchase during this period.

----------Vice Pres., FFMC.

§ 5.307–04 *Advertising order.* The disposal agency shall arrange with the newspapers selected for the publication of the notice of sale on Government Advertising Order, Standard Form No. 1053.

§ 5.307–05 *Payment of public voucher for advertising.* The following forms set forth the requirements to be met as a condition to payment of the voucher:

Statement of Advertising Rates—Std. Form No. 1053.

Public Voucher for Advertising—Std. Form No. 1054 (white copy).

Public Voucher for Advertising—Std. Form No. 1054a (yellow memorandum copy).

Standard Form No. 1052 requires that the publisher file with the department or office a sworn statement of his advertising rates which must be the commercial rates charged to private individuals with the usual discounts. After this sworn statement is once filed with the district office and space is again purchased from the same newspaper, it will not be necessary for the publisher to again file his sworn statement of advertising rates unless there has been a change in the rates charged subsequent to the filing of the last statement. The district office should determine that Standard Form No. 1054 has been properly completed by the publisher and that a clipping from the publication is pasted thereon; if the voucher is to be supported by a Standard Form No. 1052 previously received from the publisher, appropriate indication that a Form 1052 is on file, and the date thereof, should be stated in the block provided for additional statements by the Corporation. The district vice president of the Federal Farm Mortgage Corporation should execute the certifications at the bottom of the voucher. The bank should retain in its files, as evidence of its payment as agent of the Corporation, a copy of the notice originally submitted to the publisher, a copy of the advertising order and the voucher, and a copy of the publication containing the published notice.

§ 5.307–06 *Authority for payment of public voucher.* Authority is furnished the vice president of the Federal Farm Mortgage Corporation to sign Standard Form No. 1053 in contracting for newspaper space under order of the Secretary of Agriculture dated September 7, 1945. Copies of this order may be used as required in furnishing the publisher with evidence of the authority of the officer in contracting for newspaper space. Ordinarily the information to be furnished on the advertising order showing the date of authority to advertise should be sufficient evidence to the publisher of the authority of the officer contracting for newspaper space. Ordinarily, in purchasing advertising space from a particular newspaper arrangements should be made for the four publications of the notice at the time of submitting the advertising order. This would obviate the necessity of furnishing the same newspaper with additional advertising orders and provide for the payment of one voucher covering the total cost of the four publications required.

§ 5.307–07 *Selection of newspapers.* In selecting the newspaper in which to publish the notice and advertisement, consideration should be given to the total circulation of newspapers and to the coverage of the general area in which the project is located. Within the discretion of the district office the notice may be in the form of a display ad or a legal notice depending upon the circumstances, with due regard for the need for economy.

§ 5.307–08 *Notice by mail.* At the time of the first publication of the notice required by the above paragraph the disposal agency shall also send a copy of the notice by mail to all Government agencies listed in Exhibit B, Part 8305 [1] of Title 32, to the State and the political subdivision in which the property is located, and to the former owner when he is entitled to priority. The notice to the former owner shall be sent by registered mail to his last known address with return receipt requested. Where the former owner is outside the Continental United States a copy of the notice to the former owner may be sent to the spouse at the last known address. The notices to former owners should be prepared on the basis of information furnished in the schedule of former owners submitted with the declaration or such additional information as may be furnished by the owning agency or otherwise obtained. Notices to the State governments shall be addressed to the Secretary of State, and those to political subdivisions of a State should be addressed to appropriate officers. If there is any question as to the political subdivisions within a State, information should be requested from the Secretary of State prior to sending out notices.

§ 5.307–09 *Form of notice by mail.* A copy of the notice published in newspapers will be sufficient to constitute appropriate notice by mail. In order that these notices may be mailed as of the date of publication in newspapers the district office should request preprints from the newspapers in sufficient quantity to cover its needs for all notices by mail. One preprint of each notice as first published shall be mailed to the central office for its records.

§ 5.308–01 *Information available to purchasers.* The regulations of the Sur-

[1] Regulation 5 of the Surplus Property Board

plus Property Board provide that within thirty (30) days after notice is first published as required by § 5.307–2 or as soon thereafter as possible, every effort shall be made to have available in the office of the project manager all necessary information concerning the property. This shall include the appraised value of the property, the unit sizes in which the property will be sold to various classes of purchasers, the priorities and the time and method of exercising them, the maximum prices which may be charged different priority buyers, and all other terms and conditions of sale. Any person shall be entitled, upon request, to receive such information or have access thereto at all reasonable times, as well as information concerning offers, exercises of priorities, and sales that have been made at the time of the inquiry.

APPRAISALS

§ 5.401–01 *Application of established policies and standards.* The policies, standards, definitions, and basic methods for determining values as established and used in the regular appraisal work of the FCA shall be followed in appraising surplus agricultural and forest property insofar as they are applicable to particular situations.

§ 5.401–02 *Scope of information.* Because of the numerous priority rights established by the act, it is important that appraisers develop complete information and data which may affect any of the values established for each property. Appraisal reports should reflect full information on all factors which have a bearing upon the appraiser's conclusions as to values established.

§ 5.401–03 *Developing information.* The act establishes rights to be accorded various groups of priority holders and the regulations provide that information regarding the appraised value of property, unit sizes in which the property will be sold to various classes of purchasers, and the maximum prices which may be charged different priority buyers shall be made available to anyone who requests it. Accordingly, in developing appraisal information the appraiser should refer to all available sources in order that the conclusions reached may be supported by valid evidence. It is particularly important that the damage or benefit to property as a result of action by the United States be fixed only after thorough consideration of the original appraisal data, the results of court action in case of condemnation proceedings, and of any available information furnished by the former owner, the former tenant, or others in the community.

§ 5.402–01 *Current market value.* This value is the highest price the property will bring in terms of money if offered for sale in the open market with reasonable time to find a purchaser, buying with knowledge of the uses and purposes to which it is adopted and for which it is capable of being used. The appraiser should approach the problem from the viewpoint of the average buyer or seller in the community. Emphasis should be placed upon those factors affecting the sale price of the particular property such as the productivity and earning power of the land, and proximity to towns and real estate developments. Consideration should be given to the highest and best use to which the property is reasonably adapted. Actual sales of similar properties in the community are the best evidence of market value. The appraiser should have intimate knowledge of recent sales and prices for which properties are offered for sale. When no recent transfers have been made, sales of more remote date may be used provided consideration is given to the trend of real estate values from the time of such sales to the date of appraisal. The sales information should be verified, the subject property inspected and the conditions determined under which the transfers were made. Comparative studies of such information should be helpful in estimating the value of the particular property and in substantiating the conclusions reached.

§ 5.402–02 *Adjusted value to be used as basis for price to former owners and tenants.* Former owners, or the spouse and children of deceased former owners, and tenants of former owners at the time of acquirement are entitled to purchase substantially the identical tract which the Government acquired from them, at the lower of (a) current market value or (b) the price for which the property acquired by the Government, adjusted to reflect any increase or decrease in the value of such property resulting from action by the United States. In order to establish this price it is necessary to make a determination as to the effect on the value of the property of any improvement or damage resulting from action by the United States.

The acquisition price shall be the basis for determining this value and unless the purchase price was determined by some other method, such as by condemnation, the land, building, and unit values in the original appraiser's report will be used as the basis for making such adjustments as are necessary. In any event the information in the appraiser's report will furnish evidence as to the inventory of buildings, general condition of the property, etc., at the time of acquirement.

The direct effect of action by the United States ordinarily will relate to such factors as the removal of buildings, fences, other types of improvements, the construction of ditches, or other changes that may affect the farm from the viewpoint of facility of farming operations. Also, it may be appropriate to consider the indirect effect of actions, such as the elimination of roads and the removal of schools or other community facilities. Ordinarily, information should be available prior to appraisal as to the intention of the State or local Government with reference to the replacement of public roads and perhaps other community facilities. Insofar as practicable, damages should be calculated upon those factors which lend themselves to objective measurement. The removal of a church or community center from a community is an example of an action the effect of which would be difficult to establish by any objective method in fixing the value of a particular tract of land. On the other hand, if it can be determined that in reestablishing any such facilities assessments against a tract of land will be made, appropriate weight should be given to this fact. Likewise, consideration should be given to any measurable benefits that have accrued or may accrue as a result of actions by the United States. For example, the improvement of drainage facilities or elimination of ditches may have resulted in measurable benefits to the tracts in the area affected; such benefits should be reflected in the value to be established.

In estimating this increase or decrease in the value of the property substantially the same general procedure will be followed as is used to determine in the case of land bank loans the effect of a partial release on the value of a property. This is also the procedure followed by the War Department in determining severance damage where only a portion of the farm is to be acquired. In applying this principle the acquisition price will be the value of the property before action by the United States and the adjusted value reflecting any changes will be the value after action by the United States. In effect the adjusted value will be an estimate of what the value of the property would have been as of the date of acquisition if the damage or improvement caused by action of the United States such as removal or construction of buildings, destruction or building of roads, or other changes had occurred at that time. This estimate should be made on the basis of the same level of value as that used at the time the property was acquired regardless of whether the acquisition price was based on the value in the appraisal report or was fixed by negotiation or by court action.

§ 5.402–03 *Value to be used in fixing price to veterans.* Veterans, or the spouse and children of deceased veterans, and the spouse and children of deceased servicemen, are given the right to purchase surplus real property in economic units at a price not to exceed that fixed by the disposal agency after taking into consideration, the character of the property, and if income-producing the estimated earning capacity thereof. This value in no event should be greater than the current market value and is defined as a price that is justified on the basis of expected normal prices and yields with appropriate consideration to present conditions and current commodity prices. It can be considered as a price which a purchaser is warranted in paying for the property for continued use or as a long-term investment.

§ 5.404–01 *Developing basic information.* It is likely that each project will present special problems and in order to plan the work effectively the appraisal supervisor and the appraisers should (a) study the appraisal data and all other information furnished by the owning agency on each tract acquired by the Government, and the instructions under which the appraiser operated when the original appraisals were made; (b) make a general survey of the project noting (1) the type of community, (2) the condition of the land, (3) the changes since acquirement, such as removal of buildings and destruction of roads, and whether any buildings constructed by the owning agency can be utilized for farming operations, (4) possible uses that may be made of the land, (5) wells or other sources of water supply, and (6) conveniences, such as telephone, electric power lines, schools, churches, and roads that are or will be available; (c) establish tentative levels of value for the different grades of land in the project; (d) assemble where practicable recent sales data for use in supporting the current market values established; and (e) develop information as to the demand for land of the type in the particular project. (Since it is important to have the standards used in establishing values consistent among projects, the chief reviewing appraiser should, if possible, assist in this preliminary survey.)

§ 5.404–02 *Appraising the individual tracts.* In making appraisals of the individual tracts, arrangements should be made for the former owner to accompany the appraiser during his inspection of the property, if practicable. This will give him an opportunity to present to the appraiser any information he may have as to the changes in the property and the effect on the price for which he is entitled to repurchase his farm. The appraisers will assign a current market value and also estimate the adjusted price at which each tract may be sold to the former owner or tenant. It will not be feasible to establish the price to veterans at this time unless (a) it is anticipated that only a relatively small part of the land will be sold to higher priority holders and (b) it is unnecessary to make changes in the original boundaries in order to block the land into economic units before offering it for sale to veterans. In other words, it would not be practicable to establish the price to veterans until it is determined definitely what land will be available to offer to them.

§ 5.404–03 *Appraisal report.* Since in many instances it will not be practicable to establish the price to the former owner and to veterans at the same time, two appraisal report forms are provided, FCA 1181 SPD and FCA 1181a SPD. Where the price for all priority holders is established at the same time, it will not be necessary to duplicate any information in the second report that is included in the first. In such cases the second form will be in the nature of a supplemental report.

In making appraisals, full information should be shown in the report to substantiate the conclusions reached. This will include any sales data used in establishing the current market value of the particular property and a clear statement of the consideration given to various factors relating to the estimate of the increase or decrease in value resulting from action by the United States. It is extremely important to maintain a high degree of consistency in the valuations of the various tracts of each project. In order to accomplish this, the appraisal supervisor shall not release the appraisal reports until the valuations on all the properties have been completed and adjustments made to correct any inconsistencies in values among the individual units. A representative of the chief reviewing appraiser's office should participate in this final review.

After the review is made the appraisal reports should be prepared in final form in duplicate in the project office. The original copies will be transmitted to the district office and the duplicate copies will be filed in the tract folders in the project office.

PRIORITIES AND PRICING

§ 5.503–02 *Multiple former owners.* No division of a tract as purchased by the Government from a single ownership may be made to accommodate a former owner. In the case of common or joint former owners, if all wish to exercise their priority rights, they may do so and the entire tract may be sold to them. If one or more of the former owners, but fewer than all, desire to purchase the tract, they may do so. The priority rights of those who do not exercise them within the 90-day period will expire. No tract will be partitioned for the benefit of a former owner and no undivided interest will be sold to a former owner or to former owners pursuant to the priority rights of former owners.

§ 5.505–01 *Disposal to others.* For disposal to others than Government agencies, State or local governments, former owners or tenants, surplus real property shall be divided by the disposal agency into appropriate units for disposal. Section 23 real property classified as suitable for agricultural use shall be divided by the disposal agency into economic family-size units wherever practicable. The size of such units may vary according to the conditions and farming practices in the locality where the land is situated. Section 23 real property not classified as suitable for agricultural use shall be subdivided into appropriate units in view of the character of the property, the use or uses to which it may be put, and the possibility of giving veterans and those who will use the property personally a fair opportunity to acquire and utilize the property. Plans for dividing shall be developed as soon as practicable after the disposal agency receives the declaration of surplus. The actual work of dividing shall be completed at the earliest possible date after the expiration of the priority period. Division may be delayed if it appears that the property will be absorbed by the priorities of Government agencies, State or local governments, former owners, or tenants.

§ 5.506–02 *Price to veterans.* The price to veterans shall be fixed after taking into consideration the current market value and the normal agricultural value based on normal prices and yields with appropriate consideration to present conditions and current commodity prices.

§ 5.511–01 *Certificate to be executed by disposal agency covering giving of notice and failure of priority holders to exercise priority rights.* After a sales contract is entered into between the disposal agency and a purchaser, the disposal agency shall certify that it has complied with the requirements of the act and of the regulations of the Board concerning the giving of notice and that no holder of a priority superior to that, if any, of the purchaser has exercised his priority rights within the time limits fixed by or pursuant to the act. The certificate shall be executed on Form FCA 1183 SPD and signed by the district vice president of the Corporation. A certified copy, certified by an assistant secretary of the Corporation, of such certificate shall be given to any purchaser of the property at the time of transfer.

OFFERS FROM VETERANS

§ 5.604–01 *Notice to veterans of remaining properties.* After all acceptable offers from the Government, state or local governments, former owners, and tenants of former owners have been accepted, and the appraisal and pricing of the remaining tracts and units have been completed, the project manager will make out a list of all tracts and units for sale. In compiling these lists of properties a place for list prices will be indicated, so that the prices may be inserted later, when desired, on the list to be mailed to veterans who have a priority.

In carrying out the policy and intent of the act and the regulations of the Board in affording an opportunity to veterans, the spouse, or the children of a deceased service man or service woman to acquire surplus property, the project manager will write or otherwise contact all those who have made offers or who have indicated their desire to acquire one or more units of property, and advise them of a date (15 days from the date of the notice) on or before which formal offers must be submitted. This notice should generally describe the tract or units remaining to be sold and the conditions upon which written offers will be received at the project office during the period indicated.

§ 5.604–02 *Obtaining formal offers from veterans.* During the period referred to above, offers should be received from all veterans who have retained their priority rights by filing a statement during the 90-day priority period. Offers should be made on the regular form for any or all tracts listed as available. Since a veteran can buy only one tract, only one satisfactory earnest money deposit shall be required from a veteran even though he may make an offer on more than one tract. The Property Record will be posted in the project office and a copy of the offer submitted to the district supervisor's office with the remittance and receipt. The same procedure will be followed in the district supervisor's office and in the district office upon receipt of these offers, as was described for offers from others. The Index of Request card in the project office will be posted to show the amount offered and date.

§ 5.604–03 *Selection of acceptable purchasers.* At the end of the designated period all offers from veterans shall be reviewed for the purpose of selecting

purchasers. If equal offers are received from two or more veterans on the same property, the offer to be accepted shall be selected by lot. This drawing should be made openly and in the presence of as many as practicable of the interested parties. A record shall be made at the time of the order in which the names are drawn with respect to each tract or unit sold in this manner. If a veteran is selected for more than one unit, he shall elect in writing which property he will take.

OFFERS FROM OWNER-OPERATORS

§ 5.605–02 *Selection of acceptable purchasers.* After all offers from veterans have been processed, a list of remaining salable tracts shall be prepared showing the current market value, and all offers whether formal or informal from owner-operators will be reviewed at this time. If acceptable offers have been received, they should be handled in accordance with the procedure for processing other types of offers. If only one offer has been received for any particular tract and it is acceptable, it may be submitted immediately to the district office for approval. If more than one offer has been received for a particular tract at the current market value, the purchaser shall be selected by lot as in the case of offers from veterans. The project manager should communicate with all owner-operators who have expressed a desire to purchase, even though they may not have submitted a formal offer, by written statement during the 90-day period, in order to make sure that each has an opportunity to complete a formal offer to purchase on any tract that may be available. The time limits may be fixed by the district office in accordance with circumstances.

OFFERS FROM NON-PROFIT INSTITUTIONS

§ 5.606–01 *Obtaining offers.* In order to retain their priority rights non-profit institutions must submit formal offers or written statements expressing a desire to purchase, during the 90-day priority period. All offers from non-profit institutions should be reviewed at the same time offers from owner-operators are reviewed except that no offer may be accepted until the offers from the owner-operators have been processed. The time limits should be fixed by the project manager in accordance with circumstances.

SALES TO NON-PRIORITY HOLDERS

§ 5.607–01 *Obtaining offers and acceptance of offers.* After all offers from priority holders have been processed, a list of remaining properties shall be prepared and sales negotiated by the project manager in the manner and upon the basis determined to be to the best interest of the Government. At the discretion of the district office additional notices may be published at this time in newspapers or such other publicity given to the availability of property as may be deemed advisable. Notice should be sent to individuals who have expressed a desire to purchase or who have submitted an offer at some period. Depending upon circumstances, sales may be made on the basis of sealed bids, auctions, or private negotiations. In any event offers must be accepted on the basis of the highest obtainable bid: *Provided*, That no sale shall be made at a price which is less than 75 percent of the current market value as established by appraisal until such offer has been reviewed and approved by the Board unless the price offered is the maximum price which may be charged the purchaser. At this time sales may be made to the general public, including any former priority holders. The offers to purchase will be processed and handled in the same manner as indicated in previous sections of this manual relating to offers from priority holders.

LEASING

§ 5.610–01 *When property may be leased.* When it is determined that a sale cannot be consummated before another crop season, it may, in the discretion of the district office, be leased. The lease covering agricultural land and any improvements thereon should be made on form "Agricultural Lease" supplied for that purpose, for a period of one crop year subject to revocation at any time by the disposal agency.

§ 5.610–02 *Selection of tenant.* Before selecting a tenant, the property to be leased should be advertised in order to insure the acceptance of the highest obtainable offer from a satisfactory tenant. The notice generally describing the property to be leased and inviting offers from parties interested should be approved by the vice president of the Federal Farm Mortgage Corporation and placed in the local newspaper which will afford the greatest publicity. Ordinarily one publication of the notice, to be contracted and paid for under the procedure established by these regulations, should furnish sufficient publicity and the date set in the notice should be far enough ahead to permit time for those interested to appear at the project office and submit a written offer. In the discretion of the district office, it will not be necessary to advertise a property for lease in those cases where a satisfactory tenant is already in possession of the property at a rental determined to be fair to the Government.

§ 5.610–03 *Preparing lease form.* Upon securing a favorable offer from a desirable tenant to lease a tract of land, the district supervisor or project manager will prepare the form of "Agricultural Lease" showing the description of the property, terms of leave, rental arrangement, acreage and crops to be seeded, and possession date. In instances where more than one tract is involved, separate forms will be prepared on each tract. The signature of the tenant, together with his post office address, will be required on all copies of the lease form, properly witnessed. The three copies of the lease and any rental monies collected will be forwarded to the district supervisor's office, together with a copy of a receipt and a transmittal letter, outlining the project manager's recommendations. The property record card in the project office will be tabbed to show "lease reading" and any necessary follow-up established.

Upon receipt in the district supervisor's office, the district supervisor will make a recommendation to the vice president of the Corporation. If the vice president approves, he will execute all three copies of the lease form. Then the original will be filed in the property folder, the second copy forwarded to the tenant, and the third copy mailed to the project office. The property record card in the district supervisor's office will be posted to show the name and address of the tenant, rental terms, procession date, expiration date, and amounts and dates of any future payments. Appropriate signals will be used to show any necessary follow-up for billing purposes.

Upon the receipt of the executed copy of the lease in the project office, the property record card will be posted, showing the name and address of the tenant, the rental terms, possession date, expiration date, amounts, and dates of future payments, if any, and the property record card will be tabbed to show "leased." A copy of the lease will be filed in the related property folder.

§ 5.610–04 *Revocation of lease.* The lease shall provide that the lessor shall have authority to revoke it at will. Form of "Notice of Revocation" will be prepared by the project manager or district supervisor of SPD, in three copies accompanied by a detailed statement of the facts supporting his recommendation. Upon approval by the district office, the vice president of the Corporation will execute three copies. Thereupon the necessary information will be posted upon the property record card, the original filed in the property folder, the second copy mailed to the tenant with necessary instructions, and the third copy mailed to the project office for posting purposes and filing in the related property folder, if the project office is still in operation.

DISPOSAL OF IMPROVEMENTS

§ 5.702–01 *Priority of Government agencies. State or local governments, and non-profit institutions.* Before arrangements are made for the sale of buildings and other improvements separate from the land upon which they are located, consideration shall be given to the possible sale of the entire property, including the improvements on the land, to Government agencies, State or local governments, or non-profit institutions. Due to the nature and extent of buildings and other improvements which may be assigned, it is not possible to indicate specifically in advance of actual assignment the method to be undertaken in the disposal of the improvements, or the time which may be required in completing the disposal. If buildings and other improvements are to be disposed of separately from the land upon which they are located, every effort shall be made to complete the disposal of the improvements before the land is advertised for sale. It may be necessary to request an extension of the time for advertising the land.

§ 5.703–01 *Grouping of buildings and other improvements for disposal.* Before any contracts are let for the sale or other disposition of improvements, the disposal agency shall determine the manner of disposal which will result in the greatest return to the Government, consistent with the requirements of the Board under the act, i. e., whether all the improvements shall be disposed of as a complete group, in blocks, or as individual units according to the nature and extent of the improvements, and sold in place or demolished for salvage sales to interested parties who will agree to remove them within a specified time and restore the land. In those cases where the extent of the buildings or other improvements to be disposed of separately from the land upon which they are located is found to exceed the local demand for their use, the Farm Credit Administration will submit to the Board a request for reassignment of such excess of materials to another disposal agency.

§ 5.703–02 *Disposal of improvements by competitive bids.* All contracts for the sale or other disposition of buildings and improvements separate from the land upon which they are located shall be made upon the basis of written competitive bids in accordance with predetermined and uniform specifications. Copies of all specifications, bids, abstracts of bids and awards used or issued in connection with such contracts shall be sent to the central office to be filed with the Board. In those cases where the extent and nature of the improvements for disposal require newspaper advertising for sealed bids, the method of advertising and payment for this service shall be the same as outlined in this part concerning the advertisement of real property.

§ 5.704–01 *Appraisal of improvements.* Appraisals of buildings and other improvements shall be made to determine the most appropriate method of disposal to assure the greatest return to the Government and best serve the interest of the public. In making such appraisals, recognized appraisal companies, qualified individual appraisers, or private contractors may be employed. The arrangements for such appraisal service should specifically set forth in writing the nature of the findings to be made by the appraiser and shown in his report. All appraisal reports shall contain the appraiser's certificate that he has no interest, direct or indirect, in the property or sale or disposition thereof.

The foregoing regulations have been approved by the Secretary of Agriculture.

Governor.

PART 602—GENERAL ORDERS AND DIRECTIVES

MOVEMENT OF COAL VIA GREAT LAKES AND EX-LAKE DOCK

It appears desirable to clarify the notice of direction to shippers and industrial consumers of coal moving via the Great Lakes and Ex-Lake Dock, issued August 30, 1945 (10 F.R. 11237).

As is indicated in paragraph (1) of that notice, the amount of coal moving via the Great Lakes or ex-lake dock which any shipper is committed to furnish to any industrial consumer under applicable SFAW regulations has been reduced five per cent. Thus, the reduction does not apply to commitments by producers to furnish coal to commercial lake dock operators. The reduction is applicable only to (a) commitments by lake dock operators to furnish coal to industrial consumers ex-lake dock and (b) to commitments by producers or forwarders to furnish coal via the Great Lakes to industrial consumers who receive such coal at a dock or other unloading facility.

The War Production Board may from time to time allocate the supply of stockpiled burlap and specifically direct the quantities, time, and manner in which deliveries by any authorized government agency shall be made or withheld. It may also direct or prohibit particular uses of burlap. Any direction, prohibition, or allocation issued pursuant to this paragraph, to be valid, must be in writing in the name of the War Production Board.

(d) *Quotas and allocations of burlap for bag manufacturers.* (1) The War Production Board will assign to each bag manufacturer a burlap quota representing the percentage his average annual cut-up (i. e., the lineal yardage of burlap converted by him into bags) during the years 1939 and 1940, bears to the total average annual cut-up during the same years by all bag manufacturers who are assigned quotas.

(2) The War Production Board will, from time to time issue burlap allocation certificates to bag manufacturers based on their assigned burlap quotas. Certificates shall be used only in accordance with their terms. The total amount allocated in each calendar quarter to bag manufacturers on the basis of their assigned burlap quotas as explained in paragraph (d) (1) above will generally be the quarterly average amount of burlap allocated for the first three quarters of 1944. Burlap in excess of this amount may be allocated to bag manufacturers who have quotas and also to new manufacturers. Applications to participate in allotments of burlap from any excess above the average for the first three quarters of 1944, as explained above, may be filed by letter stating the amount of burlap requested. These letters should be filed on or before the first day of the calendar quarter for which the allotment is requested. Each application by a new manufacturer should include a statement of the facilities available to him for the manufacture of textile bags, the maximum yardage of textile bagging material which can be processed on his facilities on the basis of 48 hours operation per week, the minimum yardage of textile bagging material needed for economical operation and any other pertinent information.

(3) No bag manufacturer shall purchase burlap except as authorized in his burlap allocation certificate. No bag manufacturer shall purchase and no person shall sell burlap to a bag manufacturer unless he endorses on his purchase order the serial number and the sequence number of his burlap allocation certificate.

No bag manufacturer shall dispose of burlap received against his allocation certificate except to fill orders (for burlap for use other than in the manufacture of bags) bearing preference ratings which have been duly assigned, applied or extended in accordance with Conservation Order M-328, provided no bag manufacturer shall be required to fill rated orders for a total of more than five bales of burlap from any one person in any calendar month.

(5) Notwithstanding any allotment made available by a burlap allocation certificate, no bag manufacturer shall purchase any burlap in excess of a minimum practicable working inventory at his then current rate of operation, nor more than he will actually use on his own facilities, whichever is less.

(6) Burlap received against allocation certificates may only be manufactured into bags on facilities owned by the person to whom the allocation is made.

(e) *Burlap for purposes other than the manufacture of bags.* A person not having a quota, who needs burlap (for other than the purpose of manufacturing bags) to fill orders to which a preference rating has been duly assigned, applied or extended in accordance with Conservation Order M-328, may obtain such burlap from the Defense Supplies Corporation or its authorized representatives (unless his order is for less than a full bale), from bag manufacturers or from persons owning frozen burlap.

(f) *Frozen burlap.* No person having an inventory of frozen burlap shall dispose of all or any part of it except to fill orders to which a preference rating has been duly assigned, applied or extended in accordance with Conservation Order M-328, or to make sales to the Defense Supplies Corporation or to bag manufacturers against their burlap allocation certificates as described in paragraph (d). Any person disposing of frozen burlap to a bag manufacturer shall immediately notify by letter the War Production Board, Textile, Clothing and Leather Division, Washington 25, D. C., stating the name of the buyer, the quantity of bales, the serial number and sequence number of the burlap allocation certificate authorizing the buyer to accept delivery.

(g) *Damaged burlap.* Any person who has in his possession any bales of damaged burlap shall report to the War Production Board the extent of the damage and the percentage not suitable for the manufacture of bags as permitted by Order M-221. Such statement shall be made by letter setting forth all pertinent facts. If the War Production Board acknowledges receipt of his letter without stating any objection, he may then use or dispose of his damaged burlap free of the restrictions of this order.

(h) *Saving clause.* Quotas, certificates, directions, allocations and authorizations issued pursuant to this order previous to any amendment thereof shall remain in effect subsequent to such amendment unless specifically revoked.

(i) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from and stating fully the grounds of the appeal.

(j) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board including General Conservation Order M-328, as amended from time to time.

(k) *Reports and communications.* (1) Each bag manufacturer shall file with the War Production Board on Form WPB-2906 a report of his inventories, receipts and distribution of burlap as required by instructions issued on or with the form. The reporting requirements of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(2) All reports required to be filed under, and all communications concerning this order shall be addressed to the War Production Board, Textile, Clothing and Leather Division, Washington 25, D. C. Reference M-47.

(l) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 3290—TEXTILE, CLOTHING, AND LEATHER

[Conservation Order M-328, as Amended Sept. 14, 1945]

PROVISIONS APPLICABLE TO TEXTILES, CLOTHING AND RELATED PRODUCTS

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of textiles, clothing, leather and related products for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.118 *Conservation Order M-328*—(a) *Restrictions on preference ratings for textiles, clothing, leather, etc.* (This paragraph states conditions which must be met to make ratings for items on Schedule A valid. However, even though a rating is not valid for the items, this does not prevent anyone from filling a purchase order if he can do so without disregarding valid ratings on other purchase orders or disregarding other orders or directions of the War Production Board.)

No person shall apply, extend or give any effect to any preference rating heretofore or hereafter assigned, applied, or extended to the delivery of any item on Schedule A unless:

(1) The rating has been assigned by a preference rating form or letter issued by or under the authority of the War Production Board to a named applicant and the form or letter specifically describes the item and specifies the quantity, description and type which may be obtained by the rating. No rating assigned by any L, M, P or other order, by any regulation (such as CMP-5 or CMP-5A), or on Form CMPL-150, CMPL-200 or CMPL-201 shall be valid for any item on Schedule A, except as permitted by paragraph (a) (2), (a) (3) or (a) (4). For example, the rating for any fabric to comply with this subparagraph must be assigned on a War Production Board form or letter naming the person to whom the rating is assigned and stating the yardage, type and construction of the fabric for which the rating is assigned.

(2) The rating has been assigned by or pursuant to a form, order or regulation of the War Production Board and is used to obtain the item for direct or ultimate delivery to, or for incorporation into any material for ultimate delivery to the Army or Navy of the United States (including U. S. Army and Marine Corps Post Exchanges, U. S. Navy and Coast Guard Ship's Service Departments, and War Shipping Administration Training Organization Ship's Service activities), the Maritime Commission or War Shipping Administration, (including marine distributors pursuant to authorization by the Maritime Commission on Form WPB-646). A delivery to an establishment or ship operated under contract with one of those agencies is not in itself a direct or ultimate delivery to the Army, Navy, Maritime Commission or War Shipping Administration.

(3) The rating has been assigned by or pursuant to any supplement to this order or the particular order specified after the item on Schedule A.

(4) The material to be delivered is actually required as, or is required for incorporation in, a functioning part of industrial machinery and is one of the following numbered items on Schedule A: 1, 3 (except Seine cord, hawser cord and other cabled cord), 4, 12.

SCHEDULE A—MATERIALS AND PRODUCTS COVERED BY CONSERVATION ORDER M-328

4. Woven, felted, knitted and braided fabrics of cotton, wool or synthetic yarns and blends of the foregoing (M-166, M-317, M-317A, M-317B, M-385, M-388, M-388A, M-388B, M-388C and P-116), including but not limited to:

9. Mops.

10. Slide fasteners.

11. Sponges, marine and loofa.

12. Textile fibers (animal, vegetable, or synthetic, including curled istle) and products made primarily from textile fibers or textiles. 13. Steel tacks (except thumb tacks).

14. Synthetic rubber thread and products made therefrom.

(b) *How ratings must be applied and extended.* (1) Priorities Regulation 3 states rules and restrictions on the use of all preference ratings. When a rating is used, the standard certification described in Priorities Regulation 7 or the certification described in Priorities Regulation 3 must be put on a purchase order for a Schedule A item. In addition, the purchaser must use one of the following applicable certifications (with the blanks properly filled in):

(i) If the rating is assigned by an order listed on Schedule A, the special certification, if any, required by that order shall be added.

(ii) If the rating is assigned by an order listed on Schedule A, but the listed order does not require a special certification, the following shall be added:

This rating is assigned by Order _____.
[Insert number of order listed opposite the item on Schedule A.]

(iii) If the rating is assigned through the Foreign Economic Administration, the following shall be added:

This rating is assigned in connection with Export License No. _____ or Release Certificate No. _____.
[Insert license or release certificate number.]

(iv) In all other cases the following shall be added:

This rating can be used under M-328.

(2) No rating permitted by paragraph (a) (1), (a) (3) or (a) (4) above, which is applied to get a Schedule A item, shall be extended for any other Schedule A item. However, in the case of ratings permitted by paragraph (a) (1), the rating may be extended if the form or letter specifically permits the extension of the rating for and fully describes the other Schedule A item. (For example, a rating which is applied to get fabric may not be extended to get yarn, except that in a case where the rating is permitted by paragraph (a) (1), the rating may be extended if the form or letter states that it may and also states the specific quantity, count, etc. The rating may also be extended for yarn if the fabric is for an Army, Navy, Maritime Commission or War Shipping Administration (including marine distributors pursuant to authorization by the Maritime Commission on Form WPB-646) order, as permitted by paragraph (a) (2). A rating permitted by paragraph (a) (3) may also be extended if the particular order specified after the item on Schedule A specifically permits extension. (For example, Order M-388C specifically permits extension of the ratings assigned thereunder). This paragraph shall not prevent the extension of a rating for finished fabrics to get fabrics in the gray state.

(c) *Specific directives.* The war Production Board may issue specific directions to individual producers or processors of items listed in Schedule A, with respect to the production, fabrication, processing or delivery of items to meet particular military or civilian requirements, and no producer or processor shall produce, fabricate, process, deliver or accept delivery contrary to directions.

(d) *Equitable distribution.* (This paragraph does not apply to sales by retailers, inasmuch as the Fair Distribution Policy for retailers is defined in Declaration of Policy of July 15, 1943.) Preference ratings are given to certain orders to further the war program. It is the policy of the War Production Board that items listed in Schedule A not required to fill rated orders shall be distributed equitably. In making such distribution due regard should be given to essential civilian needs, and there should be no discrimination in the acceptance or filing of orders as between persons who meet the seller's regularly established prices and terms of sale or payment.

Under this policy every seller of the items, so far as practicable, should make available an equitable proportion of his merchandise to his customers periodically, without prejudice because of their size, location or relationship as affiliated outlets.

It is not the intention to interfere with established channels and methods of distribution unless necessary to meet war or essential civilian needs. If voluntary observance of the policy outlined is inadequate to achieve equitable distribution, the War Production Board may issue specific directions to named concerns. A failure to comply with a specific direction shall be deemed a violation.

(e) *Rejects, over-runs and seconds*—(1) *Definitions.* "Reject" means a Schedule A item which was obtained with priorities assistance or a Schedule A item into which material obtained with priorities assistance has been incorporated and which cannot be used for the purpose for which the priorities assistance was given. The term includes seconds and over-runs, but does not include waste, scrap or cuttings normally generated in a manufacturing process.

"Priorities assistance" means a preference rating, allocation, specific direction, CMP allotment, or any other action of the War Production Board used to obtain a material or product.

(2) *No one may purposely make a reject.* No manufacturer, processor or converter shall manufacture, process or order any product on Schedule A which he knows or should know will be a reject. This paragraph does not prohibit the production of seconds, over-runs or by-products to the extent that they are unavoidable in the manufacturer's operations.

(3) *Restrictions on the disposition and use of rejects.* The following rules govern the disposition and use of rejects, regardless of § 944.11 of Priorities Regulation 1:

(i) No manufacturer, processor or converter shall dispose of or use a reject listed on Schedule B, and no one shall accept delivery of such a reject, except as permitted by that schedule;

(ii) Subject to all restrictions contained in other orders of the War Production Board, any reject listed on Schedule A, but not listed on Schedule B, may be disposed of for use in the United States, or to fill a rated order, or, in the case of cotton duck, may be exported, or may be used for any purpose by the holder of the reject;

(iii) In any event, "special sales" (as defined in Priorities Regulation 13) of rejects may be made only in accordance with the provisions of Priorities Regulation 13."

(4) *How to get needed permission to dispose of a reject.* Any manufacturer who under the terms of this order needs specific permission to dispose of a reject may apply by letter to the War Production Board stating (where applicable) the number of the contract, the amount of material to be produced under it, the kinds of such material, a detailed statement of quantities and kinds of rejects, a copy of the rejection, and a statement of the efforts he has made to dispose of the rejects to the buyer. If the War Production Board decides he ought to be allowed to dispose of the reject, it will give him specific instructions.

(5) *Effect of specific instructions on disposition.* The War Production Board may issue specific instructions in writing to anyone respecting the use and disposition of rejects. These instructions may relate to rejects not yet manufactured on the date of their issuance. They must be obeyed even if they conflict with other provisions of this order.

(6) *Reports.* Manufacturers of textile, clothing and leather products shall report their rejects at such times and in such manner as the War Production Board may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(7) *Records.* All persons affected by this order shall keep for at least two (2) years records showing the quantities and kinds of rejects produced by them and the disposition thereof.

SCHEDULE B—REJECTS WHICH MAY BE DELIVERED ONLY ON SPECIFIC AUTHORIZATION OF THE WAR PRODUCTION BOARD

The following types of rejects may be sold or used by the holder of the reject on an order bearing a preference rating; otherwise the holder must apply for specific authorization of the War Production Board to sell or use the reject:

Manila, agave and coir fibers, and products made primarily therefrom.
Materials obtained with priorities assistance assigned by or under Conservation Orders M-317, M-317A, M-328B, M-388, M-388A, M-388B or M-388C, or schedules, supplements or directions to any of such orders.

The following types of rejects may be sold or used by the holder of the reject only on specific authorization of the War Production Board:

Kapok.
Tanning materials, vegetable.

NOTE: Regarding the disposition of reject hides, skins, furs and leather and products made primarily therefrom, see paragraphs (b) (3), (b) (4), and (b) (5) of Conservation Order M-310.

[Schedule C deleted Jan. 4, 1945.]

(f) *Exceptions from restrictions on "cutbacks" or terminations.* The War Production Board in any case where it finds that, by reason of cut-backs or terminations of Government contracts or subcontracts, compliance with any restriction on the manufacture, use, sale or delivery of any item on Schedule A would cause a loss of production or interfere with the filling of civilian orders, may grant temporary exceptions from such restriction.

(g) *Miscellaneous provisions*—(1) *Applicability of regulations.* Except as otherwise provided herein, this order and all transactions affected thereby are subject to all applicable regulations of the War Production Board as amended from time to time.

(2) *Violations and false statements.* Any person who wilfully violates any provision of this order, or who in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications.* All reports to be filed hereunder and communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., Ref: M-328.

(4) *Appeals.* (i) Any appeal from the provision of paragraphs (c), (d) or (e) of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from, and stating fully the grounds of the appeal.

(ii) An appeal for suspension of a production direction dealing with an item on Schedule A may be made (whether or not such direction is issued under this order) on the ground that compliance with the action will result in production at a loss: *Provided*, That an application for price relief on that ground is first filed with the Secretary of the Office of Price Administration, Washington, D. C., and a copy is filed with the WPB appeal. If the WPB appeal is granted, requirements of a direction for increases above current production will be suspended until the decision of the Office of Price Administration upon the application for price relief. This paragraph does not indicate or limit the extent or kind of price relief, if any, which may be granted by the Office of Price Administration.

(iii) No direction or order relating to items on Schedule A (whether or not it refers to M-328) shall be deemed to require the furnishing of materials or facilities to the War Production Board. If a direction requires the furnishing of materials or facilities to a contracting agency or to a war contractor, or the production of a specified amount of a material or product, or restricts all or a part of a person's production or inventory to specified purposes, and if the person affected cannot get firm orders to cover the materials, facilities, production or inventory involved, he may appeal, and the War Production Board will grant appropriate relief.

(5) *Reports.* Every person shall execute and file with the War Production Board such reports and questionnaires as it shall from time to time request with respect to items listed on Schedule A, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 14th day of September 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

INTERPRETATION 1

RATINGS FOR TWINE AND WRAPPING MATERIALS

Ratings for twine and other materials on Schedule A of M-328 used for wrapping must conform to the conditions specified in paragraph (a) of the order to be valid.

Such materials used to wrap products are not incorporated into the product which is wrapped. Therefore, a rating which can be used to get material to be incorporated into a product cannot be used to get twine with which to wrap the product even though the product is going to be delivered to one of the Government agencies mentioned in paragraph (a) (2). (2) Upon a finding that the established prices of fabricated lamb and mutton carcasses (War Shipping Administration specifications) do impede, in the specified cases, the ultimate procurement of meats by ship operators because of the charges incurred in the shipment of such meats from the point of origin to the delivery point required by the licensed ship supplier, the Price Administrator at Washington, D. C., may, by order, authorize the named seller or sellers to sell and the named licensed ship supplier or suppliers to buy fabricated lamb and mutton carcasses (War Shipping Administration specifications) where delivery of such meats is made by the seller to a carrier and shipped at the carload rate to the purchaser who pays the shipping charges directly to the carrier, and may, by order, further authorize the purchaser (licensed ship supplier) who resells the meats upon which such shipping charges were paid, to add to the applicable zone prices in § 1364.177 (d):

(i) The actual shipping charges paid by him provided that the charges paid covered a shipment of such meats to him from a pointed located in the same price zone, or

[1] 10 F.R. 6515.

(ii) The difference between the actual shipping charges paid by him and $1.50 per hundredweight if the shipping charges paid by him covered a shipment of fabricated lamb and mutton carcasses (War Shipping Administration specifications) from Zone 2, 3, or 4 to a point located in Zone 1.

2. The first paragraph of § 1364.159 (b) (2) is amended to read as follows:

3. A new paragraph (b) (5) is added to § 1364.159 to read as follows:

(5) In the event that the statements required under subparagraph (3) and/or (4) hereof are not filed within the period specified, no further sales of fabricated meat cuts shall be made to purveyors of meals until such time as these requirements are complied with.

4. Paragraphs (a) (3) and (a) (5) of § 1364.160 are amended to read as follows:

(3) "Sales at retail" mean sales to individuals for consumption by themselves or their families off the seller's premises and/or sales to retailers or purveyors of meals to the extent permitted under the provisions of Maximum Price Regulation No. 355, Maximum Price Regulation No. 394 or Maximum Price Regulation No. 336.

(5) "Hotel supply house" means any establishment:

(i) Which sold or delivered to purveyors of meals during the period of September 15, 1942, to December 15, 1942, not less than 70 percent of the total volume by weight of all meats, variety meats and edible by-products and/or sausage and similar products thereof, sold or delivered by it, excluding sales to war procurement agencies, and

(ii) Which does not own or control or is not owned or controlled by a packing or slaughtering plant, packer's branch house, wholesaler's or other selling establishment to which it is physically attached, and

(*d*) Other hotel supply houses or wholesalers of beef, veal, lamb and mutton wholesale cuts for a period of not more than 90 days, beginning September 22, 1945.

"Own or control" within the meaning of this definition means to own or control directly or indirectly a partnership equity or in excess of 10 percent of any class of outstanding stock or to have made loans or advances in excess of 5 percent of the other person's monthly sales.

5. Paragraph (a) (10 (iv) of § 1364.160 is added to read as follows:

(iv) Any vessel plying rivers, lakes, coast line or ocean-going vessels serving meals or refreshments for a consideration other than "an operator of a lake vessel" as defined in paragraph (a) (12) of this § 1364.160, and ocean-going vessels operating under the supervision, direction or control of the War Shipping Administration.

6. Section 1364.167 (c) is amended to read as follows:

(c) (1) If the slaughterer is a farm slaughterer, he shall not be required to have lamb or mutton produced from animals slaughtered by him or custom slaughtered for him, graded by an official grader of the United States Department of Agriculture. Such lamb or mutton as is sold by the farm slaughterer shall be graded by him in accordance with the requirements of this section.

(2) Notwithstanding any other provision of this paragraph (c), if a farm slaughterer delivers lamb or mutton to a commercial freezer or locker plant, such lamb or mutton shall not be broken by the operator thereof, unless graded in accordance with the requirements of this section. Such lamb or mutton broken by such operator shall be graded either by the owner of the lamb or mutton or by the operator of the commercial freezer or locker plant with the consent of the owner.

(3) "Farm slaughterer" as used in this paragraph (c) means a person operating a Class 3 slaughtering establishment, as defined in section 1 of Control Order No. 1, "Livestock Slaughter and Meat Distribution", issued April 25, 1945. A "Class 3 slaughtering establishment" is defined therein to mean any place, other than a Class 1 slaughtering establishment, at which a person slaughters cattle, calves, sheep, lambs or swine and from which he sold or transferred during any consecutive 12 month period from January 1, 1944, to March 31, 1945, inclusive, not more than 6000 pounds of meat which he, as the resident operator of a farm, slaughtered on that farm (or had custom slaughtered for him).

7. Paragraphs (a) and (b) of § 1364.168 are amended to read as follows:

(a) (1) Notwithstanding the terms of any contract, agreement, or other obligation, no hotel supply house, packing or slaughtering plant, packer's branch house, wholesaler's or other seller's establishment shall sell or deliver to purveyors of meals other than contract schools, during any three month quota period beginning March 1, June 1, September 1 or December 1, a total volume by weight of hotel supply cuts (fabricated meat cuts) in excess of 80 percent of the total volume by weight of beef, veal, lamb and mutton, not including canned meats of any kind, variety meats and edible by-products of any kind, and/or sausage and similar products thereof, sold or delivered by such selling establishment from September 15 through December 15, 1942, to purveyors of meals, other than to contract schools (in no event shall a war procurement agency be deemed to be a purveyor of meals). The volume by weight so determined, shall hereinafter be referred to as the "quota": *Provided, however,* That any quota granted by a regional administrator pursuant to the provisions of paragraph (a) as they existed prior to June 1, 1945, and any quotas which have been determined on the basis of the provisions of paragraph (b) hereof shall remain in full force and effect except that they shall be reduced by one-ninth.

(2) Any selling establishment which has a quota but which has for two successive three month quota periods beginning June 1, 1945, sold less than 10 percent of such quota to purveyors of meals, other than contract schools, shall be deemed to have abandoned such quota and neither that selling establishment nor any other selling establishment shall thereafter make further sales pursuant to such quota. However, if during such two successive three month quota period, the major portion of sales or deliveries from such selling establishment consisted of sales to war procurement agencies, it shall not be deemed to have abandoned its quota although less than 10 percent of its quota was sold or delivered during such periods to purveyors of meals other than contract schools.

(3) Except as provided in paragraph (a) (4) hereof, any person may request the appropriate Regional Administrator for authorization to transfer an entire quota from one selling establishment to another. The request for such authorization shall be contained in a written application appropriately filed in duplicate which shall show that:

(i) The applicant is or was the owner or operator of a selling establishment which has a quota,

(ii) The applicant is engaged or has engaged, within six months prior to the filing of the application, in the business of selling meats to purveyors of meals pursuant to such quota, and

(iii) The applicant desires to transfer the quota to a new selling establishment (setting forth the old and new addresses and the reasons for the transfer) and

(iv) If the request for the transfer of the quota is granted, the applicant will not thereafter engage in the business of selling meats from the establishment from which the quota is transferred, or

(v) The owner or operator (other than the applicant) of a selling establishment which has a quota has been precluded from engaging further in sales pursuant to such quota because of a judicial or administrative suspension order against such owner or operator, and the suspension order was issued within six months of the date of the filing of the application.

(4) Notwithstanding any other provision of this paragraph (a), a quota shall not be transferred from a selling establishment (other than a hotel supply house) to a hotel supply house where both establishments are owned or controlled by the same person. For the purposes of this paragraph (a) (4), "own or control" means to own or control directly or indirectly, a partnership equity or in excess of 10 percent of any class of outstanding stock or to have made loans or advances in excess of 5 percent of either selling establishment's monthly sales.

(5) Upon receipt of an application filed pursuant to paragraph (a) (3) hereof, the Regional Administrator may, by order, upon proof of the matters contained in paragraphs (a) (3) (i), (ii), (iii), and (iv) or (v) authorize the transfer of the quota: *Provided*, That sales pursuant to the quota will be made to purveyors of meals located in the same municipal area or areas as those previously served by the selling establishment from which the quota is transferred and that such sales will be made subject to such further terms and conditions as he may deem necessary. However, if the transfer of the quota is predicated upon the issuance of a judicial or administrative suspension order, the quota shall be transferred for such period as the suspension order remains in full force and effect.

(6) Following the issuance of an order pursuant to paragraph (a) (3) hereof, the Regional Administrator shall forward to the Administrator in Washington, D. C., for review, a copy of the application together with a copy of the order and such other data as were considered in connection with the application. After review, the Regional Administrator shall modify or revoke the order if the Administrator deems such modification or revocation appropriate. However, the provisions of the Regional Administrator's orders shall remain in full force and effect until such time as they are modified or revoked.

(7) Notwithstanding any other restriction or limitation contained in this Revised Maximum Price Regulation No. 239, the Administrator at Washington, D. C., in the case of any emergency or because of unforeseen circumstances which impede or threaten to impede the war effort, may, upon his own motion, adjust quotas or grant quotas to named sellers for such period and subject to such terms and conditions as are deemed necessary.

(b) Any selling establishment which has established a quota pursuant to paragraph (a) of § 1364.168, may, subject to the conditions hereinafter set forth, redetermine its quota for sales to purveyors of meals for each three month quota period, on the basis of its sales to purveyors of meals during the corresponding three month quota period of 1942: *Provided*, That such selling establishment shall fix its quotas for each three month quota period thereafter, other than the period beginning December 1, by reference to sales made by it during the corresponding three month period of 1942. For the three month quota period beginning December 1, such selling establishment shall determine its quota on the basis of its sales to purveyors of meals during the three month period beginning December 1, 1941. Any selling establishment which elects to fix its quotas for sales to purveyors of meals pursuant to the alternative method stated herein, shall exercise such election by the filing of the reports required under § 1364.159 (b) (2) (iii) for each three month period beginning December 1, 1941, and ending November 30, 1942. Such reports shall be filed prior to the beginning of the three month quota period in which the alternative quota is to be used, except that after December 1, 1945, no selling establishment may elect the alternative quota and any selling establishment which has failed to file the alternative quota reports as required herein shall remain subject to the quota computed by reference to sales made from September 15, 1942, through December 15, 1942.

8. Section 1364.170 (j) is amended to read as follows:

(j) *Peddler truck selling addition.* On a peddler truck sale involving a delivery of not more than 250 pounds of meats and meat products in any one day from a peddler truck to any buyer's store door, a peddler may add to the applicable zone wholesale prices the sum of $1.25 per hundredweight.

If the sale involves a delivery of more than 250 pounds in any one day from such peddler truck to any buyer's store door, the peddler may add to the applicable zone wholesale prices an amount not in excess of $1.00 per hundredweight applicable to the total delivery of lamb or mutton in the one day from such peddler truck to the buyer's store door.

These additions shall be in lieu of any local delivery and/or transportation addition permitted under paragraph (i) of this section.

9. Paragraph (c) is added to § 1364.171 to read as follows:

(c) For any lamb or mutton carcass or wholesale cut sold to a peddler truck seller by a wholesaler, the seller shall deduct $0.50 per hundredweight from the applicable zone price. The amount to be deducted on sales of any fraction of a hundredweight shall be reduced accordingly.

10. Section 1364.172 (c) is added to read as follows:

(c) Any transaction, device or arrangement whereby a person who sells, transfers or delivers lamb or mutton to a retail establishment not wholly owned and operated by such person, receives for the lamb or mutton a greater realization than he would be entitled to receive under this regulation for the sale of such lamb or mutton to a retailer is a violation of this regulation and is prohibited.

For purposes of this paragraph (c), a person shall not be deemed to wholly own and operate a retail establishment unless such person (1) operates an entire and undivided selling establishment composed of all the food selling units or departments within the physical premises of the selling establishment, including but not limited to those units or departments from which meats, groceries, fruits and vegetables, fish, etc. are sold, and (2) wholly owns the assets of such entire and undivided selling establishment including those fixtures and equipment which are generally and customarily used in the business of selling meat in addition to other foods.

However, notwithstanding the provisions of paragraphs (c) (1) and (c) (2) hereof, a person shall be deemed to wholly own and operate a retail establishment if such person (1) operates an entire meat selling unit or department in a selling establishment in which there is located more than one retailer engaging in the sale of the same general class of food, and (2) wholly owns the assets of such unit or department, including those fixtures and equipment which are generally and customarily used in the business of selling meats. He shall also be deemed to wholly own and operate a retail establishment if he currently operates and prior to August 16, 1943, operated, as lessee or owner, the entire meat selling unit or department in such retail selling establishment.

The Western Union Telegraph Company, Tariff F. C. C. No. 173, 15th Revised Page 20; Tariff F. C. C. No. 180, 26th Revised Page 27.

It further appearing, that said tariff schedules state increased charges for telegraph communications in interstate and foreign commerce; that the rights and interests of the public may be injuriously affected thereby; and it being the opinion of the Commission that the effective date of such schedules, insofar as they provide for increased charges for telegraph communications from the United States to France, should be postponed pending hearing and decision on the lawfulness of such increased charges;

It further appearing, that R. C. A. Communications, Inc. has also on file with the Commission effective tariff schedules stating rates for telegraph communications from the United States to France at the same levels as those stated in the above-cited tariff schedules of The Western Union Telegraph Company;

It is ordered, That the Commission, upon its own motion, without formal pleading, enter upon a hearing concerning the lawfulness of the charges contained in the above-cited tariff schedules, insofar as they relate to telegraph communications from the United States to France;

It is further ordered, That the operation of the above-cited tariff schedules, insofar as they provide for increased charges for and in connection with telegraph communications from the United States to France, be suspended; that the use of the charges therein stated be deferred until December 10, 1945, unless otherwise ordered by the Commission; and that during said period of suspension on changes shall be made in such charges, or in the charges sought to be altered, unless authorized by special permission of the Commission;

It is further ordered, That an investigation be, and the same is hereby instituted into the lawfulness of the rates, charges, classifications, regulations, practices, and services of The Western Union Telegraph Company and R. C. A. Communications, Inc. for and in connection with telegraph communication service between the United States and France;

It is further ordered, That in the event a decision as to the lawfulness of the charges herein suspended has not been made during the suspension period and said charges have gone into effect, The Western Union Telegraph Company and all other carriers subject to the Commission's jurisdiction participating in the service provided under the tariff provisions herein suspended shall, until further order of the Commission, each keep accurate account of all charges collected or received by reason of any increase in charges effected thereby; that each such carrier shall specify in such accounts by whom and in whose behalf such amounts are paid; and each such carrier shall file with this Commission a report, under oath, on or before the 10th day of each calendar month, commencing January 10, 1945, showing the amounts accounted for as aforesaid during the previous calendar month;

It is further ordered, That a copy of this order be filed in the offices of the Commission with said tariff schedules herein suspended; that The Western Union Telegraph Company, R. C. A. Communications, Inc. and all other carriers subject to the Commission's jurisdiction which are parties to such tariff schedules be and they are hereby each made a party respondent to this proceeding; and that copies hereof be served upon each such party respondent;

It is further ordered, That this proceeding be, and the same is hereby assigned for hearing on the 10th day of October 1945, beginning at 10:00 a. m. at the offices of the Federal Communications Commission in Washington, D. C.

FEDERAL REGISTER

VOLUME 10 NUMBER 184

Washington, Wednesday, September 19, 1945

The President

DESIGNATION OF WORLD WAR II

APPROVAL OF RECOMMENDATION OF WAR AND NAVY DEPARTMENTS

10 SEPTEMBER 1945.

The PRESIDENT
The White House

DEAR MR. PRESIDENT:

President Wilson, under date of July 31, 1919, addressed a letter to Secretary of War Baker which read, in part, as follows:

"It is hard to find a satisfactory 'official' name for the war, but the best, I think, that has been suggested is 'The World War', and I hope that your judgment will concur."

Subsequently, under date of October 7, 1919, War Department General Orders No. 115 directed:

"The war against the Central Powers of Europe, in which the United States has taken part, will hereafter be designated in all official communications and publications as 'The World War'."

As a matter of simplicity and to insure uniform terminology, it is recommended that "World War II" be the officially designated name for the present war covering all theaters and the entire period of hostilities.

The term "World War II" has been used in at least seven public laws to designate this period of hostilities. Analysis of publications and radio programs indicates that this term has been accepted by common usage.

If this recommendation is approved it is further recommended that the title "World War II" be published in the FEDERAL REGISTER as the official name of the present war.

Respectfully yours,

HENRY L. STIMSON,
Secretary of War.

JAMES FORRESTAL,
Secretary of the Navy.

Approved: September 11, 1945.

HARRY S. TRUMAN.

TITLE 29—LABOR

Chapter V—Wage and Hour Division

PART 526—INDUSTRIES OF A SEASONAL NATURE

RICE PROCESSING IN MINNESOTA

In the matter of the determination that the processing of wild rice in the State of Minnesota is an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the regulations issued thereunder.

Whereas, an application was received from the Wild Rice Producers' Association of Minnesota for a determination that the processing of wild rice constitutes an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the regulations issued thereunder; and

Whereas, it appeared from said application that:

(1) Wild rice matures and is harvested in Minnesota, during a regularly recurring season each year beginning about the middle of August and ending about the middle of October;

(2) Wild rice is perishable and must be processed as quickly as possible after harvesting to prevent deterioration and spoilage;

(3) Practically all of the establishments processing wild rice commercially are located in Minnesota. Wild rice is processed in these establishments during a regularly recurring season each year which begins at the same time as the harvesting season and lasts for about 90 days, after which the processing plants cease production for the remainder of the year except for such work as maintenance, repair, clerical and sales work because wild rice is no longer available for processing as a result of natural conditions; and

Whereas, on August 7, 1945, the Administrator of the Wage and Hour Division caused to be published in the FEDERAL REGISTER a notice which set forth the foregoing and which stated that (a) upon consideration of the facts presented by the application, the Administrator determined, pursuant to § 526.5 (b) (ii) of the regulations, that a prima facie case had been shown for the granting of an exemption as an industry of a seasonal nature pursuant to section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the regulations issued thereunder, to the processing of wild rice in Minnesota, and that (b) if no objection or request for hearing was received within 15 days following the publication of that determination, the Administrator, pursuant to § 526.5 (b) (ii) of the regulations, would make a finding upon the prima facie case; and

Whereas, no objection or request for hearing was received by the Administrator within the said 15 days;

Now, therefore, pursuant to § 526.5 (b) (ii) of the regulations, as amended, the Administrator hereby finds upon the prima facie case shown in the said application that the processing of wild rice in Minnesota is an industry of a seasonal nature, within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and the regulations issued thereunder, and, therefore, is entitled to the exemption provided in section 7 (b) (3) of the said act.

As used in this determination, the term "processing of wild rice" means the curing, drying, parching, hulling and cleaning of wild rice; and the following operations when performed by employees of wild rice processors on or near the premises of wild rice processing plants during the wild rice processing season: the packaging and bagging of wild rice; the storing of wild rice and the removal of the wild rice from storage and placing it in transportation facilities; and any operations or services necessary or incident to the foregoing.

Signed at New York, New York this 13th day of September 1945.

L. METCALFE WALLING, *Administrator.*

TITLE 30—MINERAL RESOURCES

Chapter VI—Solid Fuels Administration for War

PART 602—GENERAL ORDERS AND DIRECTIVES

DIRECTION TO SHIPPERS OF COAL PRODUCED IN DISTRICTS 2, 7 OR 8 MOVING VIA THE GREAT LAKES

To accelerate shipments of coal moving via the Great Lakes so that required minimum shipments are made before the close of the season of navigation, it is necessary, pursuant to SFAW Regulation No. 1, as amended, to issue the following direction:

(1) Notwithstanding any provision of SFAW Regulation No. 27, shippers of coal produced in Districts 2, 7 or 8 shall immediately arrange their distribution schedules for the period September 17, 1945 to November 17, 1945 so that commitments for coal moving via the Great Lakes to a dock or other unloading facility located in the areas described in paragraph (2) below, are met in full. Such commitments include

(a) Those contracts entered into in accordance with SFAW Regulation No. 25, and

(b) Contracts for coal moving via the Great Lakes entered into in accordance with SFAW Regulation No. 24,

as modified by any SFAW directions, approvals or adjustments. In so far as practicable, distribution schedules shall be arranged so that not less than one-half of the coal necessary to fill such commitments will be shipped before October 17, 1945.

(2) This direction shall apply to coal produced in Districts 2, 7 or 8 moving via the Great Lakes to any dock or other unloading facility, except those located at the following points: All points on Lake Erie, Lake Ontario, the Welland Canal, and the St. Lawrence River; all points on Lake Michigan within the States of Illinois and Indiana.

(3) In the event that compliance with the provisions of this direction will cause substantial disruption of normal shipments to other markets, the shipper shall immediately notify the Area Distribution Manager for the district in which the coal is produced of all pertinent facts. Such notification shall be furnished to the Area Distribution Manager in duplicate. The filing of such notification shall not, however, in any way relieve a shipper from the obligation of arranging and proceeding without delay to comply with the provisions of this direction.

(4) This direction supersedes the preference provisions of SFAW Regulation No. 27 and the provisions of all directions and orders inconsistent herewith. It shall not affect, however, the provisions of the notice of direction to shippers and industrial consumers of coal moving via the Great Lakes and ex-lake dock, issued August 30, 1945.

This direction shall become effective immediately.

(E.O. 9332, 8 F.R. 5355; E.O. 9125, 7 F.R. 2719; sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 176 and 58 Stat. 827)

(2) Notwithstanding the provisions of § 602.715 (d) of SFAW Regulation No. 27, as amended, an industrial consumer of coal whose days' supply exceeds 60 days is prohibited from receiving during the month of October 1945, coal produced in District 11 in an amount greater than 100 per cent of his consumption requirements for such month, without first obtaining permission from the SFAW Area Distribution Manager for that district; an industrial consumer whose days' supply exceeds 30 days is prohibited from receiving during the month of October 1945 coal produced in District 10 in an amount greater than 100 per cent of his consumption requirements for such month, without first obtaining permission from the SFAW Area Distribution Manager for that district. An industrial consumer receiving coal from Districts 10 and 11 is prohibited from receiving more coal in the aggregate during the month of October 1945, than he is permitted to receive from District 11 and he is further prohibited from receiving from District 10 more coal than he would be permitted to receive if he purchased coal only from that district.

(3) No person shall be held liable for damages or penalties under any contract for any default which shall result directly or indirectly from compliance with the provisions of this direction.

(4) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments in bond into the continental United States for transshipment to Canada, Mexico, or any other foreign country.

(5) "Place of initial storage" means any warehouse, yard ground storage, or

The filing of such form a second time shall not be required upon any subsequent entry of such material through the United States Bureau of Customs for any purpose; nor shall the filing of such form be required upon the withdrawal of any material from bonded custody of the United States Bureau of Customs, regardless of the date when such material was first transported into the continental United States. LIST B

NOTE: List B amended Sept. 18, 1945.

The numbers listed after the following materials are commodity numbers taken from Schedule A Statistical Classification of Imports of the Department of Commerce (issue of January 1, 1943). Materials are included in the list to the extent that they are covered by the commodity numbers listed below. If no commodity number is listed, the description given shall control.

Material	Commerce Import Class No.	Governing date
Congo gum copal	N. S. C.	1/12/44
Paper, standard newsprint	4711.00	8/2/45

N. S. C.—No separate class or commodity number has been assigned for the material as described by the Department of Commerce, Statistical Classification of Imports.

INTERPRETATION 1: Revoked June 4, 1945.

INTERPRETATION 2

The following official interpretation is hereby issued by the War Production Board with respect to the meaning of the term "in transit" as defined in paragraph (a) (6) of General Imports Order M–63 (§ 1042.1) as amended.

By amendment dated December 17, 1942, the definition of material "in transit" was changed by adding the following clause, "or if it has actually been delivered to and accepted by a rail, truck, or air carrier for transportation to a point within the continental United States." The question has been raised as to the meaning of the term as applied to a case where the material on the governing date had been delivered to and accepted by a rail, truck, or air carrier on a through bill of lading for transportation to a specified port and from thence by boat to a point within the continental United States.

The material in the stated case is not deemed to be in transit within the meaning of the term as used in the order. If the material is to be carried to the port of arrival in the continental United States by ship the material must have been afloat, or an on board ocean bill of lading must have been issued with respect to it on the governing date in order for it to be considered as having been in transit on such date.

Material which has been delivered to and accepted by a rail, truck, or air carrier on the governing date for transportation to a point within the continental United States is deemed to be in transit within the meaning of the term as used in the order only when the transportation specified in the bill of lading issued by such carrier calls for delivery of the material at the port of arrival in the continental United States by rail, truck, or air carrier, not by ship. (Issued March 5, 1943.)

INTERPRETATION 3: Revoked June 4, 1945.

PART 3286—MISCELLANEOUS MINERALS

[General Preference Order M–69 as Amended Sept. 18, 1945]

CORUNDUM

Whereas, national defense requirements have created a shortage of corundum (as hereafter defined) for the combined needs of defense and private

account, and the supply of corundum now is and will be insufficient for defense and essential civilian requirements, unless the supply of corundum is conserved and its use in certain products manufactured for civilian use is curtailed; and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution and use thereof. Now, therefore, it is hereby ordered that:

§ 3286.15 *General Preference Order M-89*—(a) *Definitions.* For the purposes of this order:

(1) "Corundum" means naturally occurring crystalline anhydrous aluminum oxide suitable for abrasive use and unbonded. "Corundum" includes ores of corundum and the primary abrasive grains made therefrom. Natural emery, sapphire, and ruby are not included. Also, the type of corundum material known in the trade as "Boulder Corundum DC Fines" is not included.

(2) "Supplier" means any person who imports corundum, who produces corundum grain, or who offers corundum for sale.

(3) "Consumer" means any person who uses or consumes corundum by incorporating it physically into a product or who uses or consumes corundum in the form of grain, in any grinding, polishing, or fabricating process other than grinding of spectacle lenses (ophthalmic).

(b) *Restrictions on delivery and use.* No supplier shall make delivery of corundum except as authorized by the War Production Board. The Board will from time to time allocate the supply of corundum and specifically direct the manner and quantities in which deliveries to or by particular persons or for particular uses shall be made or withheld. The War Production Board may also direct, limit, or prohibit deliveries, withdrawals from inventories, and particular uses of corundum in the hands of consumers. Such allocations and directions will be made to insure the satisfaction of defense requirements of the United States, both direct and indirect, and they may be made, in the discretion of the War Production Board without regard to any preference ratings assigned to particular contracts or purchase orders. The War Production Board may also take into consideration the possible dislocation of labor and the necessity of keeping a plant in operation so that it may be able to fulfill defense orders and essential civilian requirements.

(c) *Reports.* On or before the 5th day of each calendar month, each supplier of corundum ore or grain shall file with the War Production Board, in quadruplicate, Form WPB-2921 (formerly PD-293). On or before the 5th day of each calendar month, each consumer of corundum grain shall file with the War Production Board, in duplicate, Form WPB-2923 (formerly PD-294); provided, that any consumer of corundum grain who has neither received nor used any corundum grain for a period of three or more consecutive months, according to reports filed by such consumer with the War Production Board on Form WPB-2923, may discontinue filing such reports. However, if at any later time he uses or delivers from stock any corundum grain, he shall file with the War Production Board Form WPB-2923, in duplicate, on or before the 5th day of the month following the month in which the use or delivery occurred; and if he desires to obtain delivery of any corundum grain, he shall file application therefor with the War Production Board on Form WPB-2923, in duplicate. The reporting requirements of this order have received the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

NOTE: Paragraph (d), formerly paragraph (e), redesignated Sept. 18, 1945. Former paragraph (d) deleted Sept. 18, 1945.

(d) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(2) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Miscellaneous Minerals Branch, Washington 25, D. C. Ref: M-89.

(3) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 18th day of September 1945.

Recording Secretary.

are located on the same or on adjoining parcels of land owned, leased or otherwise controlled by the seller. Such parcels of land shall be deemed to be adjoining even if they are separated by an intervening street, alley, highway, lane or railroad right-of-way.

SEC. 11. *Maximum prices for sales by trucker-merchants.* The maximum price for sales of feed screenings by you as a trucker-merchant shall be your supplier's maximum price on the sale and delivery to you, plus the transportation charges actually incurred in moving the feed screenings to the buyer's receiving point, not exceeding 100 miles.

SEC. 17. *Rules relating to additions to maximum prices—(a) Maximum charges for services of commission merchants.* Notwithstanding the provisions of any other regulation, the maximum service charge for all services of commission merchants with respect to a purchase and sale of any lot of feed screenings shall be 50 cents per ton.

TABLE III—MOLDED RED AND LIGHT COLORED (WHITE, IVORY, GREEN, BLUE AND YELLOW) RUBBER SOLES AND HEELS

(March 1942 discounts must be deducted from the maximum prices computed under this table.)[1]

The manufacturer's maximum price for a molded red or light colored (white, ivory, green, blue and yellow) rubber sole or heel shall be determined as follows:

(a) The manufacturer shall find a comparable item of the brown color listed in table II. If no comparable item is listed in table II, the manufacturer shall find the comparable item from his price list which has been approved by the Office of Price Administration. The comparable heel or sole chosen as a basis for pricing shall be that brown heel or sole of the same kind, type and grade, and which is of the same size and thickness as the heel or sole being priced. Thus, in pricing a red 14 iron composition men's full sole, the comparable item would be the brown 14 iron composition men's full sole set forth or determined under table II.

(b) The manufacturer shall determine the maximum price for the comparable brown item.

(c) The manufacturer's maximum price for the item being priced shall be determined by adding to the maximum price of the comparable brown item the appropriate differential listed below for the molded red or the light colored heel or sole being priced:

Molded red and light colored (white, ivory, green, blue, yellow) rubber soles and heels.

12. Section 23 is added to read as follows:

SEC. 23. *Sausage products not flat priced—(a) In General* (1) If you buy and resell the customary types of dry (hard) and semi-dry (soft) sausage other than those for which dollar-and-cents prices are established in sections 20 and 21 (b) of this regulation; scrapple; sulze or souse; pork roll made from skeletal pork only, which has a yield not in excess of 95 percent and a fat content not in excess of 15 percent; ham roll made from boneless ham only, which has a yield not in excess of 95 percent and a fat content not in excess of 15 percent; lunch roll or lunch roll sausage made from pork only, which has a yield not in excess of 98 percent and a fat content not in excess of 15 percent; pudding containing less than 30 percent livers; head cheese; blood sausage; blood and tongue sausage; tongue roll; tongue loaf; tongue salad; fresh thuringer containing pork, beef or veal; fresh Italian or fresh Polish sausage which is made of pork, which has a fat content not in excess of 30 percent, which has a yield not in excess of 100 percent and which contains no extenders; smoked mettwurst; chili con carne; roast or cooked beef loaf; corned beef loaf; jellied corned beef; goose liver style sausage containing tongues, sweetbreads, and pistachio nuts; or imitation or mock chicken loaf, you must figure your ceiling prices for each of such products as required by this section 23.

(2) In computing such ceiling prices similar products made by different producers shall be considered separate and distinct products; sausage having the same ingredient formula but stuffed in different casings shall be considered separate and distinct products, notwithstanding the fact that such products may be manufactured by the same producer; and if the sausage products are graded or typed, each grade or type shall be considered a different product, notwithstanding the fact that two or more of such graded or typed products may be known by the same general name.

(3) Once you have computed the ceiling price for any sausage product under the provisions of this section 23, and if you sold such sausage product before September 18, 1945, in your regular course of business, the price so computed shall remain your ceiling price thereafter, except that in the event your supplier's ceiling price for any sausage product subsequently is changed by the Office of Price Administration and that subsequent change is intended to affect your ceiling prices you will receive written notice either from the Office of Price Administration or from your supplier indicating that you must recompute your ceiling price for the particular sausage product involved. Upon receipt of such notice you must recompute your ceiling price for such product in accordance with the provisions of section 23 (b), 23 (c) or 23 (d), whichever is applicable, substituting the date of such notice wherever the date October 2, 1945, appears therein, and using your supplier's new ceiling price in determining your "total net delivered cost." Until such recomputation is made, you must not make any sales of the product. If, in your regular course of business you did not sell such sausage product before September 18, 1945, the price you compute first under the provisions of this section 23 shall be a temporary price, and may be used only during the three month period immediately following the date upon which you received your first delivery of the particular sausage commodity. Upon the expiration of the three month period you again are required to compute your ceiling

price. The price so computed shall remain your ceiling price thereafter, except that in the event your supplier's ceiling price for any sausage product subsequently is changed by the Office of Price Administration and that subsequent change is intended to affect your ceiling prices you will receive written notice either from the Office of Price Administration or from your supplier indicating that you must recompute your ceiling price for the particular sausage product involved. Upon receipt of such notice, you must recompute your ceiling price for such product as hereinbefore stated for sellers who sold the product before September 18, 1945.

(b) *Sales to ultimate consumers.* On and after October 2, 1945, if you sell any of the sausage products listed in this section 23 to ultimate consumers, you first must compute your ceiling price for each product in accordance with the following directions:

(1) If you are a Group 1 and 2 retailer, you must figure your ceiling price by multiplying your total net delivered cost per pound of such sausage product by 1.4. The result will be your ceiling price per pound on such sales. In determining your "total net delivered cost" follow the instructions given in paragraph (e) of this section 23.

(2) If you are a Group 3 and 4 retailer, you must figure your ceiling price by multiplying your total net delivered cost per pound of such sausage product by 1.35. The result will be your ceiling price per pound on such sales. In determining your "total net delivered cost" follow the instructions given in paragraph (e) of this section 23.

(c) *Sales to purveyors of meals.* On and after October 2, 1945, if you sell any of the sausage products listed in this section 23 to purveyors of meals, you first must compute your ceiling price for each product in accordance with the following directions:

(1) If you sell the sausage to purveyors of meals and such sales are made subject to the provisions of section 5 (b) (1) of this regulation, you may price such sales at or below the same prices you are authorized to charge ultimate consumers in accordance with the provisions of the foregoing paragraph (b) of this section 23 applicable to your store group.

(2) If you sell the sausage to purveyors of meals and such sales are made subject to the provisions of section 5 (b) (2), 5 (b) (4) or 5 (b) (6) of this regulation, you must figure your ceiling price by multiplying your total net delivered cost per pound of such sausage product by 1.17. The result will be your ceiling price per pound on such sales. In determining your "total net delivered cost" follow the instructions given in paragraph (e) of this section 23.

(3) If you sell sausage to purveyors of meals and such sales are made subject to the provisions of section 5 (b) (3) of this regulation, you must price such sales in accordance with the provisions of section 2 (a) of Maximum Price Regulation No. 389.

(d) *Sales to other retailers.* If you are authorized to sell sausage to other retailers under the provisions of section 5 (d) of this regulation, and on and after October 2, 1945, if you sell them any of the sausage products listed in this section 23, you must figure your ceiling price for such sales by multiplying your total net delivered cost per pound of such product by 1.17. The result will be your ceiling price per pound on such sales. In determining your "total net delivered cost" follow the instructions given in paragraph (e) of this section 23.

(e) *"Total net delivered cost".* For the purposes of this section 23 "total net delivered cost" must be determined by one of the following methods:

(1) If you made sales of the product prior to September 18, 1945, you must:

(i) Ascertain the amount per pound which you were charged by your customary type of supplier for the last customary quantity of the sausage product purchased by you before September 18, 1945. In no event may the amount so ascertained exceed your customary type of supplier's ceiling price for the particular sausage product.

(ii) From that amount subtract all discounts which you received on such purchase except the discount for prompt payment.

(iii) To the amount remaining add all customary transportation charges which you paid, if any, other than those paid for local trucking and local loading and unloading in case your supplier usually does not make delivery to your store door.

(iv) The amount thereby obtained is your "total net delivered cost."

(2) If you did not make sales of the product prior to September 18, 1945, but thereafter start to sell the product you must:

(i) Ascertain the amount per pound which you are charged for the first delivery of any quantity which you purchase. In no event may the amount so ascertained exceed your customary type of supplier's ceiling price for the particular sausage product.

(ii) From that amount subtract all discounts which you received on such purchase except the discount for prompt payment.

(iii) To the amount remaining add all transportation charges which you paid, if any, other than those paid for local trucking and local loading and unloading in case your supplier usually does not make delivery to your store door.

(iv) The amount thereby obtained is your "total net delivered cost."

This amendment shall become effective October 2, 1945.

Issued this 18th day of September 1945.

Maximum Price Regulation No. 127 is amended in the following respect:

Section 1400.82 (b) (8) is added to read as follows:

(8) In the case of finished piece goods containing 75 per cent or more of cotton by weight, the basic grey goods cost shall be the established maximum price for the grey goods in effect on June 1, 1945, unless a previous provision of this section requires it to be lower.

MEAT, FATS, FISH AND CHEESES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Section 15.11a (b) (2) is amended to read as follows:

(2) If he has been granted an adjustment under section 15.11 of this order or for losses for indeterminable causes under section 15.2, the Board may grant an adjustment if it finds that his net point inventory, as defined in subparagraph (1) of this paragraph, has been reduced to less than 55% of his allowable inventory (or that it would be so reduced if he were required to give up points for his remaining excess inventory). The Board shall, in this case, issue a check to the applicant equal to the amount by which 55% of his allowable inventory exceeds his net point inventory, and shall also cancel his remaining excess inventory. If his net point inventory is greater than 55% of his allowable inventory, it shall cancel that part of his excess inventory which, if he were required to give up points therefor, would reduce his net point inventory below 55% of his allowable inventory.

This amendment shall become effective September 17, 1945.

VARIETY MEATS AND EDIBLE BY-PRODUCTS AT WHOLESALE

This compilation of Maximum Price Regulation 398 includes Amendment 10, effective September 23, 1945. The text amended or added by Amendment 10 is underscored. Deletions and changes in tables are indicated by notes.

A statement of the considerations involved in the issuance of this Maximum Price Regulation No. 398 has been issued simultaneously herewith and filed with the Division of the Federal Register.[2]

So far as practicable, the Price Administrator has consulted and advised with representative members of the industry which will be affected by this regulation. In the judgment of the Price Administrator, the prices established herein are and will be generally fair and equitable and comply with the requirements of section 3 and the other requirements of the Emergency Price Control Act of 1942, as amended, and Executive Orders No. 9250 and 9328, and will effectuate the purposes of said act and Executive orders.

Insofar as this regulation uses specifications and standards which were not, prior to such use, in general use in the trade or industry affected, or insofar as their use was not lawfully required by another Government agency, the Administrator has determined, with respect to such standardization, that no practicable alternative exists for securing effective price control with respect to the commodities subject to this regulation.

ARTICLE 1—PURPOSE AND SCOPE OF REGULATION

SECTION 1. *What this regulation does.* This regulation fixes dollar-and-cents ceiling prices on all sales other than at retail of fresh and processed variety meats and edible by-products derived from hog, cattle, calf, sheep and lamb slaughter. On and after April 1943, the date this regulation takes effect, no person may sell, or deliver, except at retail, and no person in the course of trade or business, may buy or receive any variety meat or edible by-product at prices higher than the prices permitted by this regulation. But lower prices may be charged or paid.

SEC. 2. *How maximum prices are fixed—(a) General instructions.* The ceiling prices for any sale are found by looking at paragraph (a) of section 13 which lists the base price per hundredweight in dollars, for each kind of variety meat and edible by-product. To this price should be added the amount specified in paragraph (b) of that section for the zone in which the point of delivery is located. Section 14 should then be examined to determine whether any additions may be made to these prices and section 15, to determine whether any deductions are required. The base price, plus the zone differential, plus the permitted additions, and minus the required deductions is the ceiling price.

(b) *Determining the zone in which the point of delivery is located—(1) Point of delivery.* The point of delivery is either the point at which local delivery begins, if local delivery is made, or the point at which the product is delivered to the buyer, if no local delivery is made.

(i) Local delivery means delivery by any vehicle made by the seller to the place of business of the buyer or made to a point designated by a war procurement or government agency. A truck is not a place of business.

[Subparagraph (1) amended by Am. 5, 9 F.R. 13759, effective 11-21-44]

(ii) If no local delivery is made, the point at which the product is delivered to the buyer is the point where actual physical possession is taken by the buyer or where the product consigned to the buyer—

(*a*) Is received by a rail carrier for shipment at the railroad carload rate, or for shipment to an agency of the United States government; or

(*b*) Is received by a common or contract carrier, other than a railroad; or

(*c*) Is received by an express company for shipment by express to a purveyor of meals, the charges of such carrier in all three instances being paid directly to such carrier by the buyer.

(2) *Determining the zone.* Having determined the point of delivery, the zone in which such point is located can be found by reference to section 17 of this regulation in which all the zones are described by counties.

SEC. 3. *Quality and descriptive labeling requirements.*—(a) After this regulation takes effect, the only variety meats and edible by-products which may be sold for ultimate consumption as food are those variety meats and edible by-products for which dollar-and-cents prices are fixed by this regulation and which satisfy the definitions made in section 16.

[Paragraph (a) amended by Am. 8, 10 F.R. 5375, effective 5-14-45]

(b) *Descriptive labeling requirements.* No variety meat or edible by-product may be offered for sale or sold, or bought in the course of trade or business, except in accordance with the provisions of this paragraph.

[1] 8 F.R. 6945.

[2] Statements of considerations are also issued simultaneously with amendments. Copies may be obtained from the Office of Price Administration.

(1) The carton or other immediate container shall have stamped or printed on it the word "kosher" whenever kosher products are packed therein, and, whenever sterilized products are, the words "sterilized."

(2) The name of the variety meat or edible by-products must appear on the seller's invoice. Kosher and sterilized meat shall be invoiced as such.

[Section heading and paragraph (b) amended by Am. 1, 8 F.R. 11082, effective 8-7-43]

SEC. 4. *Where this regulation applies.* The provisions of this regulation shall apply to the forty-eight states of the United States, and to the District of Columbia.

SEC. 5. *Sales to which this regulation does not apply.* (a) The provisions of this regulation shall not apply to sales of variety meats or edible by-products, if prior to June 1, 1943, such variety meats or edible by-products have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to the purchaser.

(b) The provisions of this regulation shall not apply to any sales at retail. Sales at retail mean sales to individuals for consumption by themselves or their families off the seller's premises and/or sales to retailers or purveyors of meals to the extent permitted under the provisions of Maximum Price Regulation No. 355, Maximum Price Regulation No. 336 and Maximum Price Regulation No. 394.

[Paragraph (b) amended by Am. 1, 8 F.R. 11082, effective 8-7-43 and Am. 10, effective 9-23-45]

(c) The provisions of this regulation with the exception of section 7 covering records and reports shall not apply to the following sales or deliveries of variety meats or edible by-products:

(1) Sales or deliveries made to industrial users who purchase such products for use in paints, chemicals or other similar manufactures, and who do not purchase such products for ultimate consumption as food; and

(2) Sales or deliveries made to pharmaceutical users who purchase such products for use in medicines or other similar pharmaceuticals, and who do not purchase such products for ultimate consumption as food.

[Paragraph (c) amended by Am. 8, 10 F.R. 5375, effective 5-14-45]

(d) The provisions of this regulation shall not apply to casings, non-kosher calf rennets, lamb or mutton kidneys.

(e) The provisions of this regulation shall not apply to deliveries of variety meats or edible by-products made to any political subdivision or agency of any state or of the United States, under contracts entered into prior to May 22, 1943: *Provided*, That this exemption shall not be construed to permit the upward revision of any prices fixed in such contracts.

SEC. 6. *Relation to other regulations.* (a) The provisions of this regulation supersede the provisions of the General Maximum Price Regulation[3] with respect to sales and deliveries made in the United States to other than industrial and pharmaceutical users of all variety meats and edible by-products for which maximum prices are established by this regulation. A maximum price is established for a variety meat or edible by-product by this regulation if a price is listed in section 13 for some form of that meat or by-product.

(b) The maximum price at which a person may export any variety meat or edible by-product shal be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[4] issued by the Office of Price Administration.

ARTICLE II—RECORD KEEPING AND ENFORCEMENT

SEC. 7. *Records and reports.* (a) After June 1, 1943, every person making a sale other than at retail, and every person making a purchase in the course of trade or business of any variety meat or edible by-product subject to this regulation shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, a complete and accurate record of each such purchase or sale, including sales to pharmaceutical or industrial users, showing the date thereof, the name and address of the buyer and of the seller, the price charged and the price received, and a description of the product including the grade, and the quantity sold; kosher products to be so indicated. Sales to pharmaceutical and industrial users are to be so identified.

(b) Such person shall, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942, submit such reports to the Office of Price Administration and keep such other records in addition to or in place of the records required in paragraph (a) of this section, as the Office of Price Administration may from time to time require.

SEC. 8. *Indirect price increases.* No person shall evade any of the provisions of this regulation by any scheme or device and no person shall indirectly charge or receive for variety meats or edible by-products a price higher than the maximum prices permitted by this regulation. No person shall as a condition of selling any variety meats or edible by-products require a purchaser to buy any other meat or any other product: *Provided*, That the following payments shall not be construed as evasions of such price limitations under the following conditions:

(1) A payment by a buyer to a seller for icing services performed by the seller after June 1, 1943, and before delivery of variety meats and edible by-products to a railroad whose charges are paid directly to such railroad by the buyer, if the charge for such icing services is no higher than the costs actually incurred by the seller in performing such services and no higher than the charge which could lawfully have been made by the railroad if such services had been performed by the railroad.

(2) A payment by a war procurement agency to a seller for costs incurred in freezing and/or storing variety meats and by-products purchased by such agency, (i) if such freezing and or storage costs were actually incurred by the seller and are evidenced by an invoice and warehouse receipt duly issued to the seller by a commercial warehouse in which case the agency may also pay actual costs not to exceed $0.10 per hundredweight, incurred by the seller in transporting such meat to the commercial warehouse; or (ii) if such storage services were performed by the seller and not by a commercial warehouse and are evidenced by a warehouse receipt showing the length of the storage, issued by the seller to the war procurement agency, and if such charges do not exceed the second month's maximum storage rates (under the General Maximum Price Regulation) of commercial warehousemen in the vicinity of the place where the storage occurred.

(3) A payment by a buyer to a broker of not to exceed $0.125 per hundredweight in excess of the maximum prices fixed by this regulation for services rendered by the broker to the buyer in connection with a sale of variety meats and edible by-products shall not be construed as an evasion of such price limitations if the broker has no business affiliation with the seller and if the total compensation received by the broker from both buyer and seller in connection with the sale does not exceed $0.125 per hundredweight.

[Subparagraph (3) added by Am. 2, 8 F.R. 13297, effective 10-4-43]

SEC. 9. *Licensing and Registration.* The provisions of Supplementary Order No. 14 (§ 1305.18 *Licensing sellers of meat and meat products*)[5] are made applicable to every person making sales subject to this regulation. It is not necessary to apply for the license, but all sellers may later be required to register. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. No person whose license is suspended may sell any such commodity during the period of suspension.

SEC. 10 *Enforcement.* (a) On and after June 1, 1943, any person violating any provision of this regulation is subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for revocation of licenses provided by the Emergency Price Control Act of 1942, as amended.

(a) However, you may not use this method of pricing in the following cases:

(1) For sales of a "kind" of canned fish or seafood if you did not sell that kind as a primary distributor during at least one of the three successive one-year periods ending April 28, 1942. ("Kind" means canned salmon as contrasted with canned tuna fish.)

(3) For sales of canned fish and seafood items which you have not warehoused.

(4) For sales of canned fish and seafood items which you purchase from a "wholesaler" or "retailer."

In the above cases, you must figure your ceiling price as "other distributors" under section 5.

(b) If you purchase any canned fish or seafood items from a primary distributor or "other distributor," you must use as your ceiling price for each such item your supplier's ceiling price for that item, f. o. b. shipping point, plus incoming freight paid by you.

4. Section 9 (a) (3) is amended to read as follows:

(3) For each kind of canned fish and seafood, your total dollar purchases during each of the one-year periods ending April 28, 1940, 1941 and 1942; your total dollar purchases from canners or processors in carload quantities during each of those periods that were delivered, for storage, into a warehouse or other receiving point not owned or controlled by any of your customers or the suppliers; and the name and address of such warehouse.

5. Section 9 (a) (4) is amended to read as follows:

(4) For each kind of canned fish and seafood, your total dollar sales during each of the one-year periods ending April 28, 1940, 1941 and 1942; and your total dollar sales during each of those periods that were made in less-than-carload quantities.

FEDERAL POWER COMMISSION.

[File Nos. G-200, G-207]

PANHANDLE EASTERN PIPE LINE CO. ET AL.

ORDER FIXING DATE OF HEARING ON PROPOSED RATES

SEPTEMBER 14, 1945.

City of Detroit, Michigan, and County of Wayne, Michigan, v. Panhandle Eastern Pipe Line Company and Michigan Gas Transmission Corporation, Docket No. G-200. In the matter of Panhandle Eastern Pipe Line Company, Michigan Gas Transmission Corporation, and Illinois Natural Gas Company, Docket No. G-207.

It appearing to the Commission that:

(a) By order of May 22, 1941, the Commission, after complaint filed in Docket No. G-200, instituted an investigation in Docket No. G-207 of all the interstate wholesale natural-gas rates and charges of Panhandle Eastern Pipe Line Company (hereinafter called "Panhandle") and its subsidiaries Michigan Gas Transmission Corporation and Illinois Natural Gas Company. After extensive hearings, the Commission, on September 23, 1942, entered its Opinion No. 80 and accompanying interim order directing Panhandle and its said subsidiaries to reduce their rates and charges for or in connection with the transportation and sale of natural gas in interstate commerce for resale for ultimate public consumption so as to reflect, when applied to such 1941 transportation and sales, "a reduction of not less than $5,094,384 per annum below their 1941 consolidated gross operating revenues of $17,789,573." The Commission's order of September 23, 1942, further directed Panhandle and its subsidiaries to file on or before October 15, 1942, new schedules of rates and charges, effective as to all bills regularly rendered on or after November 1, 1942, reflecting such reduction in rates and charges, and on and after the effective date of said new rate schedules to cease and desist from making, demanding, or receiving any rates and charges which do not reflect the reduction ordered. Said interim order further provided that the Commission reserves the right to reject all or any part of such new schedules and in lieu thereof to prescribe any other schedules by further order, and that the record herein shall remain open for such further proceedings as the Commission may deem necessary or desirable.

(b) On November 18, 1942, Panhandle and its subsidiaries filed a petition for review of the Commission's order of September 23, 1942, in the United States Circuit Court of Appeals for the Eighth Circuit, in Case No. 12,466, and upon application of Panhandle, the Court, on December 7, 1942, entered an order staying the Commission's order of September 23, 1942, which stay provided, among other things, that:

> The monthly difference between payments to petitioners (Panhandle and its subsidiaries) under existing rates or arrangements and those required under the order of the Commission shall be promptly paid over to John G. Hughes of Kansas City, Missouri, as the custodian of this Court, not later than the twenty-fifth of the succeeding month, to be held by him for the benefit of the ultimate consumers or of petitioners as in this litigation may be determined entitled thereto.

(c) On June 6, 1944, the Circuit Court of Appeals entered its opinion and judgment affirming the Commission's order and retained jurisdiction over the funds impounded with the custodian of the Court pending final determination of the case. On July 28, 1944, Panhandle filed a petition for a writ of certiorari in the Supreme Court of the United States. On November 13, 1944, a limited writ of certiorari was granted, and by order entered January 3, 1945, the scope of the review was enlarged. Thereafter, on January 29, 1945, the cause was argued by counsel and submitted to the Supreme Court, and on April 2, 1945, the Supreme Court affirmed the decision of the Court of Appeals and the Commission's interim order. *Panhandle Eastern Pipe Line Company, et al.* v. *Federal Power Commission, et al.*, 65 St. Ct. 821. The stay order of the Court of Appeals has been continued in effect pending the adoption by the Commission of new schedules reflecting the reduction prescribed by its interim order of September 23, 1942.

(d) On May 26, 1945, Panhandle tendered certain proposed rate schedules for filing in purported compliance with the Commission's interim order of September 23, 1942. At the Commission's request, Panhandle forwarded copies of such proposed rate schedules to interested persons, including the regulatory commissions of the States of Texas, Kansas, Missouri, Illinois, Indiana, Michigan, and Ohio, and Panhandle's wholesale customers. By letter of June 7, 1945, the Commission requested all interested persons to make comments or suggestions concerning such proposed rate schedules, and thereafter numerous letters were received from State regulatory commissions, customers of Panhandle, and other interested persons, making comments, suggestions or objections with respect thereto. Such letters stated objections to a number of features of the proposed rate schedules, including the following:

(1) A proposed surcharge, effective June 1, 1945, based upon any increase in the number of house-heating consumers of Panhandle's wholesale customers;

(2) A proposed reclassification of gas resold to industrial customers;

(3) A proposed limitation on Panhandle's maximum daily delivery obligation to certain of its customers;

(4) The proposed commodity form of rate.

(e) By letter of July 31, 1945, the Commission advised Panhandle that the proposed rate schedules tendered for filing on May 26, 1945, were "not acceptable"; that it did not feel that the straight commodity form of rate is proper under the circumstances in this case; that it cannot approve the surcharge applicable to house-heating customers; that it reserves for further consideration and probably hearing the proposed limitation on customer loads, the proposed definition of interruptible sales, and other terms of service; and that it had directed its staff to confer with authorized representatives of Panhandle for the purpose of considering another type of rate schedule. Accordingly, the Commission requested Panhandle to confer with the Commission's staff with regard to these matters. Following such conferences, Panhandle tendered for filing on September 12, 1945, revised proposed schedules of rates and charges in purported compliance with the Commission's interim order of September 23, 1942, reducing rates. Such revised proposed rate schedules purport to eliminate the several objections enumerated in paragraph (d), above. Panhandle has sent a copy of the revised proposed rate schedules to each of the State commissions concerned, its distributors, and to counsel for each of the parties in the above-docketed matters.

The Commission finds that:

It is appropriate and desirable in the public interest that a hearing be held in these proceedings, as hereinafter ordered, with respect to whether:

(1) The revised proposed rate schedules tendered for filing by Panhandle on September 12, 1945, should be allowed to take effect in whole or in part;

(2) All or any part of such revised proposed rate schedules should be rejected and the Commission should in lieu thereof prescribe any other rate schedules.

The Commission orders that:

(A) A public hearing be held commencing on September 24, 1945, at 10 o'clock a. m. in the hearing room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., with respect to whether:

(1) The revised proposed rate schedules tendered for filing by Panhandle on September 12, 1945, should be allowed to take effect in whole or in part;

(2) All or any part of such revised proposed rate schedules should be rejected and the Commission should in lieu thereof prescribe any other rate schedules.

Such hearing shall be limited to matters relating to proper rates which will comply with the Commission's interim order of September 23, 1942. The Commission reserves all other matters for later consideration.

(B) Interested State commissions may participate in these proceedings as provided in § 67.4 of the provisional rules of practice and regulations under the Natural Gas Act.

By the Commission.

[2d Rev. MPR 195, Order 12]

INDUSTRIAL WOODEN BOXES

SALES OF ASSEMBLED RETURNABLE BEVERAGE CASES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 7a of 2d Revised Maximum Price Regulation 195, it is ordered:

SECTION 1. *What this order covers.* This order covers all sales of assembled returnable (multiple trip) beverage cases produced in those states east of and including the States of Minnesota, Iowa, Nebraska, Kansas, Oklahoma, and Texas.

SEC. 2. *Definition of "assembled returnable strapped beverage case"*—(a) *General.* For the purpose of this order assembled returnable (multiple trip) beverage cases refers to the standard number 1, 2, 3, 3-30R, 6, 8, 9, 9-S, 11, 11A, 11S, 11AS, 13, 13S, 16, 16A, 18A, 18AS, beverage cases; a definition of each of these boxes is given below. A strapped case refers either to a full strap or a "hand hole-to-hand hole" strap.

(b) *Description of beverage cases.* The cases are described below based on the number and size of bottle to be carried by the case as well as the minimum inside dimensions required for the case. It should be noted that these dimensions are minimum and that it is customary to build the cases larger than the minimum. However, due to the variations of dimension customary in the industry for the same style box and further due to the custom in the industry not to change the price for a minor variation in dimension, only the minimum dimensions are set forth. It should be clearly understood, however, that all the larger customary sizes are covered by this order. The important factor is the number and size of bottles to be carried.

Case number	No. of bottles	Bottle capacity (fluid oz.)	If partitioned, No. of pockets	Minimum inside dimensions (inches)
1 [1]	12	24 to 32	12	15⅝ x 11⅝ x 4¾.
2 [1]	12	24 to 32	12	15⅝ x 11⅝ x 6¾.
3 [1]	24	10 (12 when reamed)	24	16½ x 10⅝ x 3¾.
3-30R [1]	30	6 or less	30	13½ x 11¼ x 3 (reamed partitions, ends and sides).
6	24	10 (12 when reamed)	24	16½ x 10⅝ x 8.
8	24	10 or less		14½ x 9½ x 8.
9	24	11 to 16	24	18⅝ x 12⅛ x 9¾.
9-S [1]	24	11 to 16	24	18⅝ x 12⅛ x 4½.
9-S	24	11 to 16 (Steinie)	24	19½ x 12⅝ x 8¼.
11	24	11 to 16		16½ x 11 x 9¾.
11A	12	24 to 32		15⅛ x 11¾ x 12.
11-S	24	1 Pint (Steinie)		17⅛ x 11½ x 7¼.
11AS	12	1 Quart (Steinie)		15⅛ x 11¾ x 10.
13	12	24 to 32	12	15⅝ x 11⅝ x 12.
13-S	12	24 to 32 (Steinie)	12	16⅞ x 12½ x 10.
16 [1]	20	26 to 28 (regular t) (no syphon)	20	22⅛ x 8½ x 5⅞.
16A	10	26 to 28 (regular t) (no syphon)	10	22⅛ x 8½ x 12½.
18A	6	Half-gallon	6	13½ x 9⅞ x 14½.
18AS	6	Half-gallon (Steinie)	6	16⅛ x 10½ x 10¾.

[1] Half depth cases. All others are full depth.

If a manufacturer has any question whether the case which he is producing is covered by this order, he should write to the Building Materials and Construction Price Branch, Office of Price Administration, Washington 25, D. C., for official clarification giving a complete description of the box, including inside dimensions and whether partitioned as well as number of pockets if partitioned and the size of bottles.

SEC. 3. *Maximum prices by zones.* The maximum price for an assembled beverage case will be the price of the case for the zone in which it is produced and not the price for the zone into which it is delivered. For example, a case produced in Alabama shall always be sold based on the price for that case in Zone 7 (which includes Alabama).

(a) *Zones.* The zones outlined below are the same as those prescribed in Order No. 11 which establishes maximum prices on standard industrial boxes:

An opinion accompanying this order issued simultaneously herewith, has been filed with the Division of the Federal Register.

In the judgment of the Regional Administrator of Region II of the Office of Price Administration, the maximum prices established and the regulations prescribed by this order are generally fair and equitable, are necessary to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, and do not exceed the general level of prices fixed by Revised Maximum Price Regulation No. 251.

Therefore, under the authority vested in the Regional Administrator of Region II of the Office of Price Administration by the Emergency Price Control Act of 1942, as amended, and by section 9 of Revised Maximum Price Regulation No. 251, this order is hereby issued.

It also includes related and incidental construction work when sold by installers of re-siding and re-roofing, whether such sale is made as a part of a general contract or not.

The term "composition re-siding" includes asphalt shingle re-siding, asbestos cement re-siding, insulated brick or stone re-siding and roll brick re-siding but shall not include wood shingles or wood re-siding.

The term "re-roofing" includes composition re-roofing such as asphalt shingles and mineral surface roll re-roofing and smooth surface roll re-roofing but does not include wood, metal or slate re-roofing.

(a) Issue and sell to the public, through underwriters selected pursuant to the competitive bidding provisions of Rule U-50, $9,793,000 principal amount of new bonds maturing in not less than 30 years after date, of a series bearing interest at a rate not to exceed 2⅞% per annum at a price not less favorable to the company than a 2⅞% basis;

(b) Issue and sell at private sale to banks $800,000 principal amount of installment promissory notes bearing interest at the rate of 2¼% per annum payable in 16 equal semi-annual installments of which the first installment shall be payable six months after the date of said notes.

(c) Issue not more than 42,000 shares of new preferred stock with a par value of $100 per share and a dividend rate not to exceed 4.50% per annum which will be offered in exchange to the holders of its outstanding 42,000 shares of $5 preferred stock without par value on a share for share basis, plus a cash dividend adjustment which, together with the dividends receivable on the new preferred stock will give each stockholder who exchanges a dividend at the rate of $5 per share per annum up to the redemption date of the shares of $5 preferred stock which are not exchanged. Any shares not exchanged will be redeemed at the redemption price of $107.50. Pennsylvania Power reserves the right to reject all offers of exchange if less than 85% of the shares of $5 preferred stock are exchanged.

Ohio Edison proposes to make a $600,000 cash contribution to Pennsylvania Power.

The net proceeds from the sales of the above securities plus the capital contribution together with treasury funds and special deposits, all aggregating $11,817,253, are to be used by Pennsylvania Power to redeem $6,368,000 principal amount of 3½% Series and $1,825,000 principal amount of 4% Series of First Mortgage Bonds due 1961 at the redemption price of 105¼ and to provide funds for the construction of a new turbo-generator and boiler unit at an estimated cost of $3,200,000.

In addition to the above Pennsylvania Power proposes to increase the stated capital represented by the presently outstanding 110,000 shares of common stock without par value from $3,300,000 to $3,900,000 thereby reflecting the contribution of $600,000 by Ohio Edison and to transfer $600,000 from earned surplus to the common stock capital account thereby increasing the stated capital represented by the presently outstanding common stock without par value to $4,500,000 and to change and convert the 110,000 shares of such outstanding common stock into 150,000 shares of common stock with a par value of $30 per share.

The application further states that Pennsylvania Power agrees that the Commission's order herein may contain a condition to the effect that, so long as any of the new bonds or shares of new preferred stock are outstanding, it will not declare or pay any dividends on its common stock (other than dividends payable in common stock) or make any distribution of assets to holders of common stock by purchase of shares or otherwise, in an amount which, when added to the aggregate of all such dividends and distributions subsequent to the last day of the month in which the new bonds are issued (referred to below as "said date"), would exceed 75% of the net income of Pennsylvania Power earned subsequent to said date, if, after the payment of any such dividend or the making of any such distribution, the aggregate of the par value of, or stated capital represented by, the outstanding shares of common stock and surplus of Pennsylvania Power would be less than an amount equal to 25% of the total capitalization and surplus of Pennsylvania Power.

The applicants-declarants state that approval of the Pennsylvania Public Utility Commission will be obtained with respect to the issuance and sale of the new bonds and the installment notes, the issuance and exchange of the new preferred stock, and the issuance of the new common stock.

The applicants-declarants have designated sections 6 (b), 9 (a), 10, 12 (b), 12 (d) and 12 (f) of the act and Rules U-42, U-43, U-44, U-45 and U-50 thereunder as being applicable to the proposed transactions.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the application and declaration and that the application and declaration shall not be granted or permitted to become effective except pursuant to further order of the Commission:

It is ordered, That a hearing on the application and declaration under the applicable provisions of the act and the rules of the Commission thereunder be held on October 4, 1945, at 11:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in these proceedings shall file with the Secretary of

the Commission on or before October 1, 1945, his request or application therefor, as provided by Rule XVII of the rules of practice of the Commission,

It is further ordered, That Robert P. Reeder, or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of issues presented by the application and declaration, particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the proposed issue and sale of the new mortgage bonds and the proposed issue and exchange of new preferred stock are solely for the purpose of financing the business of Pennsylvania Power and have been expressly authorized by the State Commission of the state in which it is organized and doing business.

(2) Whether the terms and conditions of the issue, sale and/or exchange of the securities are detrimental to the public interest or the interests of investors or consumers;

(3) Whether the proposed capital contribution by Ohio Edison to Pennsylvania Power complies with the applicable provisions of the act and the rules thereunder;

(4) Whether the fees, commissions, or other remuneration to be paid in connection with the proposed transactions are for necessary services and are reasonable in amount.

(5) What terms or conditions, if any, with respect to the proposed transactions should be prescribed in the public interest or for the protection of investors or consumers;

(6) Generally, whether the proposed transactions comply with the applicable provisions of the act and the rules, regulations and orders promulgated thereunder.

It is further ordered, That the Secretary of the Commission shall serve by registered mail, a copy of this order on the applicants and declarants herein and on the Public Utilities Commissions of Ohio and Pennsylvania and on the Federal Power Commission; and that notice of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER.

By the Commission.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-901]

CARL GUTMANN & CO.

Carl Gutmann & Company, a partnership consisting of Herman Rottenberg, Marcus Rottenberg, Rosalie Rottenberg, Charlotte Rottenberg, Samuel Bergman and Ruth Bergman, is engaged in the manufacture and jobbing of women's and children's clothing at 132 West 36th Street, New York City. During the months of January and February, 1945, the partners knowingly purported to apply a preference rating of AA-3 to purchase orders for 494,600 lbs. of cotton yarn, and 236,000 lbs. of wool yarn, although they were not entitled to do so, and upon such unauthorized use of the foregoing rating obtained 103,631 lbs. of cotton yarn and 59,779¼ lbs. of wool yarn, in violation of Priorities Regulation No. 3. The partners of the Carl Gutmann & Company were familiar with the provisions of Priorities Regulation No. 3 and their actions constituted willful violations thereof.

These violations have diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.901 *Suspension Order No. S-901.* (a) Herman Rottenberg, Marcus Rottenberg, Rosalie Rottenberg, Charlotte Rottenberg, Samuel Bergman and Ruth Bergman, their successors and assigns, shall not from the effective date of this order, to and including November 30, 1945, apply or extend any preference ratings regardless of the delivery date named in any purchase order to which such ratings may be assigned, applied or extended.

(b) Herman Rottenberg, Marcus Rottenberg, Rosalie Rottenberg, Charlotte Rottenberg, Samuel Bergman and Ruth Bergman shall cancel immediately all purchase orders which have not yet been filled, except that if they have extended a customer's rating to get an item for delivery, without change in form, to that customer (as distinct from replacing it in inventory) they need not cancel the rating provided the item when received is promptly delivered to the customer whose rating was extended.

(c) All preference ratings, allotments and allocations presently outstanding in connection with purchase orders or placed by Carl Gutmann & Company prior to the termination of this order, are void and shall not be given any effect by suppliers of said Carl Gutmann & Company, by any other person or persons.

(d) Nothing contained in this order shall be deemed to relieve Herman Rottenberg, Marcus Rottenberg, Rosalie Rottenberg, Charlotte Rottenberg, Samuel Bergman and Ruth Bergman from any restriction prohibition or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(e) The restrictions and prohibitions contained herein shall apply to Herman Rottenberg, Marcus Rottenberg, Rosalie Rottenberg, Charlotte Rottenberg, Samuel Bergman and Ruth Bergman, doing business as Carl Gutman and Company or otherwise, their successors and assigns, or persons acting on their behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(f) This order shall take effect on September 19, 1945.

Issued this 12th day of September 1945.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-904]

OHIO VALLEY LUMBER CO.

Ohio Valley Lumber Company, a Pennsylvania corporation, with its principal office at 328 14th Street, Ambridge, Pennsylvania, is engaged in the retail sale of lumber and other building materials. Between August 1, 1944 and December 31, 1944, it placed rated orders or purported to apply or extend preference ratings to orders, although not entitled to do so, to the extent of 288,666 board feet, in violation of Priorities Regulation No. 3. The responsible officer of the corporation was aware of the provisions of Priorities Regulation No. 3 and its action constituted grossly negligent violations thereof.

This unauthorized use of preference ratings to get lumber has diverted scarce material to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.904 *Suspension Order No. S-904.* (a) Ohio Valley Lumber Company, its successors or assigns, shall cancel immediately all preference ratings which it has applied or extended to orders for lumber and which have not yet been filled. This does not apply to material already delivered or in transit for delivery on the effective date of this order.

(b) Ohio Valley Lumber Company, its successors or assigns, shall not extend preference ratings unless such extensions are of ratings actually received from its customers on and after the effective date of this order.

(c) Nothing contained in this order shall be deemed to relieve Ohio Valley Lumber Company, its successors or assigns, from any restriction, prohibition or provision contained in any other Order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on September 19, 1945.

Issued this 12th day of September 1945.
